## Higher federal limits set for Niles home loan program

by Nancy Keraminas

Young couples looking for first homes in Niles and Skokie can qualify for new low interest mortgages on more expensive homes and with slightly higher household incomes, now that

federal limits have been changed. Skokie, which passed its private activity bond issue ordinance March 3, will join Niles and up to 15 other Illinois communities who want new

buyers to notice them. Maureen Macina, an associate at ReMax Northwest said two Niles properties now on the market, both condominiums, are

## Niles woman, 83, dies after bus strikes her

An 83-year-old Niles woman was fatally injured March 2, after she was apparently struck and partially dragged by a Niles free bus making its rounds in Golf Mill mall's parking lot. Eva Tomasso succumbed to her injuries at Lutheran General Hospital at 4:45 p.m., about an

hour after the incident. She was not a passenger on the bus that hit her, police said. According to Niles police, PACE driver Carol Thiel, 52, of Des Plaines had picked up two passengers by the Golf Mill food court entrance and was proceed-

## Panek, Marusek investigating write-in candidacy procedures

# 7 compete for 5 village trustee posts

Seven Nilesites will compete for the five trustee posts open on the Village Board.

Five of the candidates are incumbents and members of the Leadership With Economy party; two others are residents hoping to get more active in village government. Niles trustees receive a \$2,500 stipend per year.

The number of candidates could grow if Carol Panek and Mary Marusek wage a write-in campaign. The two were recently bumped from a regular ballot listing when a Circuit Court judge ruled their nominating petitions failed to specify they sought the post of "Village" trustee.

Early this week, Marusek and

Panek indicated the write-in campaign could still happen; but they were still investigating the procedures.

Panek said "We've been looking into it...a lot of people are anxious to do something...we have to put it all together and find out what it entails." The two must decide before March 29, the deadline for filing as write-ins. Mayor Nicholas Blase, head of the Leadership With Economy party, predicted the party candidates would be going door to door in the next three weeks and he expects the League of Women Voters to hold an election forum. He said he and the organization

## From the Left Hand

by Bud Besser

The new \$3.23 million water reservoir and pump station to be built at Ballard and Cumberland is a major improvement which should enhance the entire area.

The Niles construction will result in a higher quality supply of water to the unincorporated area and will improve water pressure in the northwest end of Niles as well as in the East Maine-Golf Mill unincorporated area.

Periodically, politicians from surrounding communities suggest the area should be annexed into one or more of the neighboring communities. But when they look closer, their benevolence fades away when they realize such an annexation will cost their towns more money through added public services while not increasing revenue.

Many years ago Niles did a snake-dance type of annexing in the area. It wound its way up and down streets until it landed on Golf Road grabbing the Golf Glen Shopping Center on the northside of Golf and then taking in the seven Terrace

## Oak Mill remodeling plans face new delay

by Nancy Keraminas

The wedding date keeps getting postponed and the "bridges" dowry is getting smaller but even the combined rigors of Niles zoning regulations and U.S. Bankruptcy Court chaperonage has not cooled the ardor of Oak Mill Mall 2000, the partnership seeking to take over ownership of Oak Mill Mall shopping center.

Paul A. Kolpak, the Chicago attorney who represents the partnership at Niles Plan Commission and Zoning Board

of Appeals meetings, told board members as he requested a third continuance to May 6:

"The bankruptcy trustee is giving us a little bit of a problem; unfortunately, so is Jewel."

In addition to Jewel Food Stores "re-designing their store", Kolpak told board members that one long-term tenant GiGi's Dolls and Sherry's Teddy Bears has moved out of the mall to a Chicago location south on

## Open House for new residents set

The Village of Niles is hosting the 4th Annual Newcomer's Open House on Wednesday, March 20 from 7-9 p.m. at the Niles Trident Center, 8060 Oakton St. in Niles.

The Open House is designed to acquaint new residents of homes, condominiums and apartments in the village with services and facilities within the community of Niles.

Mayor Blase and the trustees will be on hand to welcome all new residents. At 7 p.m. the mayor will make a presentation, addressing the topic of our town and government. A representative from each village department will also be available to provide information on their service role to residents.

In addition, representatives from various Niles organizations and agencies will be on hand to answer questions. Refreshments will be served at the open house.

Those new residents wishing to attend this informative event are asked to call the Village of Niles Mayor's Office, 967-6100 and R.S.V.P. with Jerrie Elder, ext. 353 or Edie Kuiuoka, ext. 347 by Wednesday March 13.

## Little City expresses gratitude

Park and Mayor Eugene Siegel, Village of Chicago Ridge for their support of Little City's annual SMILES Tag Days. More than 50 Chicago-land mayors were honored.

## Computer catalog classes set

During March the Niles Public Library will be offering its monthly computer catalog classes on Thursday, March 7 at 7 p.m., Friday, March 8 at 10:30 a.m., and Saturday, March 9 at 10:30 a.m.

We now have a new computer catalog system that should ease the search for titles, authors and subjects. So, even if you have been to a computer class before, you might want to come back to learn our much improved system.

The classes introduce library users to the computer catalog

and demonstrate how it works. A reference librarian will show you how to search the catalog for materials you are interested in finding.

There is no longer a "card catalog" at the library. All materials can only be found in the computer catalog.

Classes usually last about an hour and are offered free of charge to interested users. Anyone interested may register by calling 967-8554 and asking for the Reference Desk, or by signing up at the Reference Desk the next time you are in the library.

## Niles Library offers storytimes

Storytime is a good way to turn children on to books.

Each of the storytimes is designed to appeal to a specific age group, and to provide children with an introduction to the Niles Public Library and the diverse materials it has to offer.

Please note the age requirements for each group. No registration is required; just drop in.

Toddler Time is designed for children who are between 2 and 3 1/2 years old. The child's parent or care-giver should sit in with the child and join in the activities Tuesdays, March 12 - April 16, 10-10:20 a.m.

Preschool Storytime introduces children who are 3 1/2 to 5 years old to books, songs, games and fingerplays.

Parents and care-givers should remain in the building, but do not stay with the child during the program on Wednesdays, March 13 - April 17, 10-10:30 a.m. and 7-

7:30 p.m.

Stories and More is for kindergartners and school-age children who would like to continue attending storytimes.

Stories, songs, and activities, which relate to books will be presented. Parents and care-givers should remain in the building, but do not stay with the child during the program on Mondays, March 11 - April 15, 7-7:30 p.m. and 7:45-8:15 p.m.

For further information stop by the Niles Public Library at 6960 Oakton St., Niles, or phone the Children's Services Department at (708) 967-8554, ext. 30.

## Relay team swimmers earn ribbons

On Sunday, Feb. 10 the Leaning Tower Sharks traveled to Downers Grove to participate in the 18th Annual Sweetheart Relays.

This competition, unlike a standard meet, consists of all 4-person relay teams utilizing the four competitive strokes of backstroke, breaststroke, butterfly, and freestyle.

Clubs from Evanston, Indian Boundary, KOS Park, Lincoln Trails, and Logan Square were all fielding swimmers in the biggest competition the Sharks have faced so far this year.

The following swimmers earned ribbons: Cadets: Peter Cook, Daniel Cook, Stefan Fox, Jeremy Klein, Stephan Shelus, Matthew Snowden, Scott Stevens, Anna Chaiken, and Lauren Trausch; Middlets: John Paul Netzel, Andrew Cook, Jamie Durkin, Daniel Kujawinski, John Lelempis, Jeremy Norkin, Tim Stevens, Sara Chaiken, Elie Goldberg, Erin Polyea, and Kristin Stranc; Preps: Daniel Ertman, Robert Kale, Tim Shanahan, Matt Williams, Daniela Bono, Cathy Cibulskis, Anna Kahl, Kate McHugh, Jeannie Silis, and Karri Starkman; Juniors: Eugene Ertman, Markus Netzel, Kelly Driscoll, and Jennie Williams.

The Fair Lanes Bowl in downtown Skokie provides an unusual service to seniors and handicapped bowlers on Thursday afternoons each week.

A special ramp is placed over the stairs leading to alleys 1 to 4 so that bowlers confined to wheelchairs may have access to the lanes. The management has also supplied "ball launching rails" for the wheelchair users to provide the momentum needed to launch the bowling ball down the alley. The bowler must aim the "launching rail", which requires a bit of skill and practice.

Seniors from the George J. Goldman Memorial Home for the Aged, 6601 Touhy Ave., Niles, were challenging the wheelchair team from Bethany Methodist Terrace Home, 8425 Waukegan Rd., Morton Grove recently.

According to Daniel E. Novick, administrator for the Goldman Home, the handicap facilities have been supplied at no extra cost to the senior bowlers.

The courtesy extended by the Fair Lanes management, is much appreciated by the participants who would otherwise be totally excluded from this sport.

## Dist 63 bilingual population increases 7%

The 1990-'91 Bilingual Census conducted on Feb. 1, disclosed that 1,765 (56.14 percent) of the students in the East Maine Elementary schools come from homes where a language other than English is spoken. This represents an increase of 124 students, (7.02 percent) more than in 1990.

There are 48 different languages spoken in the homes of students in East Maine School District 63. The seven major languages spoken at home are Korean (221 students), Gujarati (198 students), Spanish (194 students), Russian (176 students), Polish (160 students), Tagalog (130 students), and Greek (118 students), making up 69.39 percent of the foreign languages spoken in the homes of our students.

Of the total bilingual student population, 267 have been identified as needing additional help in our schools. This would indicate

that 15.57 percent of the bilingual students would be eligible for either direct services from our EMMIE (East Maine Multicultural Education) Program or are in specific need of regular education support services.

Of the 267 students receiving support, 62 are Russian speaking, 52 are Spanish speaking, 32 are Korean speaking and 28 are Gujarati speaking students. This constitutes 65.17 percent of the total group.

## Three candidates seek library board posts

Two incumbents and a newcomer are candidates for three openings on the Niles Library board.

Allen Rosen, 40, 9380 Twin Oaks, Des Plaines, is making his first run for the Board and seeks a two-year term. An instructor of industrial arts and computer aided design at Evanston High School, Rosen also teaches at Oakton Community College nights and weekends.

He said he used the library a lot, as does his family. If elected, he would put in more computers and urge more kids to use them; he would expand the library, if

there is money on hand to do it, and he would enlarge bookmobile service for the elderly by including videos and compact discs in the inventory.

Rosen feels the present board is doing a good job, but "there's always room for improvement," he said.

Frank Alocco, 45, 7006 Hamilton Drive, Niles, an incumbent laborer who was trapped in a three-foot sewer trench which collapsed Feb. 25.

Fellow workers managed to partially extricate the Naperville man shortly after the 8:25 a.m. cave-in, with a second trench being dug parallel to the original one.

The worker was treated at Lutheran General Hospital.

## Township distributes surplus food

Maine Township will distribute surplus government food from 1 to 3 p.m. Thursday, March 14, in the Maine Township Town Hall, 1700 Ballard Rd., Park Ridge.

Recipients must bring their surplus food identification cards issued by Maine Township. Those who do not have identification cards and would like to participate in the government surplus food program should bring verification of residency and proof of income to the township offices at the time of the distribution.

## Area schools nominated for Blue Ribbon Award

Several local schools are in the running for the U.S. Department of Education's Blue Ribbon School Award.

Maine West, Niles North and Niles West High Schools are among the 16 schools statewide being considered for the award.

A committee in Washington reviewed the nominations and selected 278 out of the 490 schools nominated to visit.

The visitors will evaluate each of the schools looking at such factors as test scores, special pro-

cesses, teachers' competence, parental involvement and the principal's leadership abilities.

The Department of Education will then select the winning schools. An estimated 200 nationwide winners are expected to be announced in May.

Niles North is in the running for the first time. Maine West is the third school in District 207 to be nominated for the award.

Maine East and Maine South won the award in 1985 and 1989 respectively.

## Two incumbent board members are among the candidates

# 5 campaign for 2 seats on Niles Park Board

## Dist. 219 moves administration offices

Niles Township High School District 219 has authorized \$700,000 for remodeling and improvement costs relative to moving the district's administrative offices and behavioral disorder program from the former Niles East High School, 7701 N. Lincoln Ave., Skokie, to another building the district owns at 7700 Gross Point Road.

Oakton Community College, which purchased Niles East in 1989, leased space to the Dist. 219 administration and will extend the lease one year, through June 1993, when improvements at the Gross Point Road site are expected to be completed.

## Rescuers free man trapped in ditch

Niles Fire Department rescuers freed a 22-year-old laborer who was trapped in a three-foot sewer trench which collapsed Feb. 25.

Fellow workers managed to partially extricate the Naperville man shortly after the 8:25 a.m. cave-in, with a second trench being dug parallel to the original one.

The worker was treated at Lutheran General Hospital.

Five candidates are vying for the two openings on the Niles Park board.

Incumbent board members Elaine Heinen and Walt Beusse, together, can claim over 30 years of service to the park district.

Beusse, 6340 N. Octavia Ave., a retired mechanical engineer, is the current board president. He can point to the acquisition of Tam Golf Course, the ice rink and the Recreation Center gym taking place in his tenure. In 1971, he also began the free bus for senior citizens.

Right now, he said he is excited about several park projects coming to completion: the new batting cages and miniature golf course at Jozwiak Park will open in April and the new Recreation

Center pool should open in June and be accessible for all ages, because of its design.

He notes the ongoing improvements at neighborhood parks and the replacement of playground equipment as the budget allows. Beusse calls his 18 years of service "a long stay but a progressive one."

A park commissioner for 12 years, Elaine Heinen, 8627 N. Oleander Ave., works as a paralegal. Among the ideas she would like to see implemented are the establishment of a program for teens 13-18 years of age and junior high and high school councils, who would tell what teens want.

Heinen would like to see a club house at the Tam Golf Course.

## Park contest seeks name for new pool

When Shakespeare asked "What's in a name?" in the 16th century, he had no idea the Niles Park District would be asking the same question in 1991.

To conjure up an image of a unique, exciting recreational area, the park district is launching a contest to find a new, more expressive name for its new pool that will attract patrons of all ages, and especially families, to the swimming pool center at 7877 N. Milwaukee Ave.

A name could bring to mind some of the new pool's amenities, such as zero depth at the water

edge, a water slide amidst rock formations, children's aquatic play structures, sand play area, new concession section and sunning deck. Shades of royal blue, yellow, aqua, orange and purple will make up the color scheme.

Not allowed in the entries are names of individuals, alive or deceased; organizations, streets or avenues.

It is hoped the winning name can be incorporated into a logo or mascot that can be used on staff shirts and promotional materials. The contest is open to everyone

A westbound Toyota and a northbound Lincoln collided at the intersection of Dempster St. and Shermer Rd., Morton Grove, the afternoon of Feb. 27. A witness said the Toyota driver, heading west on Dempster St., continued through a red light and hit the Lincoln, which

was traveling north on Shermer Rd. on a green light. The Toyota driver, a Chicago woman, 39, was taken to Lutheran General Hospital, Park Ridge by paramedics. She was treated and released. The Lincoln driver, a Niles man, 59, declined further assistance.

The kitchen helpers who prepare the tables with tempting sweets and hardrolls, after meetings, for about 200 members each week, also deserve our thanks. We cannot forget the bingo callers, and their assistants, for keeping the game interesting. Their quick wit, makes a fun-filled afternoon. ## Letters to the Editor

### Another response to 'Merrill Street ghost writer'

Dear Editor:

I would like to respond to the sadly misguided Merrill Street ghost writer who made many untrue and uncompromising remarks regarding Ham Radio Operators.

I have the privilege of holding a Federal Communications Commission Amateur Radio Station License and Operators License for the past fifty-five years. This hobby has afforded me the opportunity of performing no end of community service, provided a knowledge of geographic locations of countries I did not know existed, and allowed me to share my interests with young people encouraging them in their scientific endeavors. During this period of time I have personally witnessed and have been involved with hundreds of individuals, who, as members of the Ham Radio Fraternity, give freely of their time and talents to assist their community in times of disaster and national emergency. Mr. Merrill Street victim, for your information, the "Incompetent Ham Radio Operators," as you refer to them, are far more competent than you may know. They must pass a test given by a representative of the FCC before they may enjoy their hobby. This test includes extensive electronic theory and rules and regulations governing radio communication and operating procedures. A code test to utilize the more desired frequencies at 20 WPM must also be passed before a Ham License is issued. This indeed is unlike the thousands of citizen "Appliance Operators" who daily purchase TVs, VCRs, compact discs, etc., without the slightest knowledge of their operation. All that is required is a thick checkbook or some valid plastic.

Just two years ago during the flood crisis created by the Des Plaines River, many local hams in Niles, Park Ridge, Des Plaines and other suburbs assisted the emergency units of Des Plaines and Park Ridge by supplementing their need for more effective communication. They did this by supplying their equipment, their time and utilized their ham frequency "free of charge. Licensed Radio Amateurs are not allowed to receive any rewards for use of their equipment or time by strict orders of the Federal Communications Commission and the Inter State Commerce Commission.

Immediately after the Mexico City earthquake three years ago, the only available communications out of Mexico City was by way of the Mexican Hams operating their mobile units from their private vehicles. I was on frequency stand-by for many hours handling messages for the large concerned Chicago Hispanic Community.

The San Francisco quake and the Plainfield tornado also produced many unsung volunteer helpers from the amateur ranks. May I again reiterate, there is no charge for this service, including personal telephone charges!

Nightly the MARS (Military Affiliate Radio System) is manned statewide by volunteer licensed Radio Amateurs handling volumes of traffic for our troops stationed in the Persian Gulf.

My friend and colleague, David Miller, who responded to your technical comments was very kind by not commenting on your apparent lack of knowledge regarding the value of Ham Radio. David did not mention, that he alone was responsible for setting up a valuable satellite communication link between far away Pitcairn Island and Resurrection Hospital. This link supplied a much needed emergency medical information source for this remote corner of the earth.

To the best of my knowledge there are some thirty licensed Radio Hams residing in the Village of Niles. I am quite sure, that, if a communications emergency occurred, all of these individuals would volunteer both their equipment and time to assist our excellent Village emergency service.

### Chicagoan saddened by attention given to anti-war protestors

Dear Editor:

At a time when the men and women in our armed forces are facing their greatest test, we at home are facing a test as well. Our test is to maintain our unity and resolve, as our troops are doing in the Persian Gulf.

We don't want Saddam Hussein to take this country's tolerance for anti-war demonstrators as a signal he should wait out our resolve in a long and bloody war.

I'm outraged at the brutal treatment of our POW's. And I'm saddened to see the media give so much attention to the small number of anti-war protestors who have sprung into action. It seems that every time a few protestors pick up their signs, the cameras swarm around them, and they end up on the news.

Our soldiers have said that they have a job to do and are going to get it done. I feel I have a job to do, too. And that's to stand up in strong support of our troops.

I want them to know that I and the American people are very proud of them. We are all inspired by their bravery.

I hope that you'll print my letter, and others like it, in the days ahead. Thousands of local American newspapers are reaching our men and women in uniform every day. Your newspaper may be one of them. I want the troops to know that we hold them in our thoughts and prayers every day.

God bless America, our president and our brave soldiers.

Sincerely,  
M. Bida  
Chicago, Ill.

### Nilesite wins Globetrotter contest

Who says you should be taller than 5'10" to be a Harlem Globetrotter?

With his new official red, white and blue uniform, 10-year-old Jeremy Ales of Niles joined the "Houdinis of the Hardcourt" to toss the jump ball and get things underway opening night of the Harlem Globetrotters 65th Anniversary World Tour at the Rosemont March 1.

Ales came out on top in an international "Be A Globetrotter" contest entered by more than 170 grammar school students throughout the United States and Canada.

The Niles resident, who has a learning disability, turned in a two-page winning composition stating how, if he were a Harlem Globetrotter, his nickname would be "LD" to stand for "Little Dominique" -- a tribute to his favorite NBA star Dominique Wilkins of the Atlanta Hawks.

His winning essay appears below.

I am learning disabled (LD). I have been in a self-contained LD Classroom since kindergarten. I am in 4th grade now. Even though I have some trouble learning in school, I am very good at basketball. I do double pumps, windmills, awesome jams, fade-away jumpers, and alley-oops. I

can do these without any trouble. My 2 older brothers are on basketball teams, and all their friends say that when I get to junior high, I'll be better than them. My 2 brothers came up with a special name for me. They thought of it because they know that other kids make fun of me because I'm an LD. Some kids call LD and are mean to me. This hurts me a lot. My brothers they call me "Little D." This makes me very happy because to them "Little D" means Little Dominique Wilkins, one of the Eastern all stars. My brothers took the bad feelings out of LD and changed them to good feelings, because they call me a Little Dominique. They compare me to an awesome basketball star and let me know that I am good at something-basketball. So I'll be a Harlem Globetrotter. I would want the team to call me "Little D," because I would show them and everyone that learning-disabled kids can be good at something.

### Athletic banquet honors Chicago sports figures

Pictured above are (left to right) Red Cloud Athletic Fund Banquet Chairman Bene Stein and banquet honorees Steve Larmer, Dan Hampton and Doug Wilson and President Bill Merchant.

With 25 successful years behind them, the Red Cloud Athletic Fund membership is embarking on a new beginning with its commitment for the construction of a new practice gym to be built at the Pine Ridge Indian School, South Dakota.

The \$600,000 construction will consist of a basketball court and full co-ed gymnastics equipment. A capacity crowd of 1,200 sports enthusiasts jammed into Drury Lane Oakbrook to help

Red Cloud celebrate its 25th anniversary. The Red Cloud Sports Banquet, one of the nation's most prestigious sporting events, benefits sport programs among Indian children and numerous other charitable causes in the Chicagoland area.

Highlighting the banquet, were honorees, the Blackhawks Steve Larmer and Doug Wilson, and the Bears Dan Hampton. Larmer received the Chicago Athlete of the Year award. Doug Wilson picked up the First American

award for his charity work and Dan Hampton came away with the Richard J. Daley service award for "long and meritorious service associated with Chicago sports."

The Red Cloud Athletic Fund was organized in 1965 by the late George Allen for the purpose of supplying the Indian children at the Pine Ridge South Dakota reservation with athletic equipment. Bill Merchant is the president and Bene Stein of Morton Grove served as banquet chairman.

### Niles Pee Wee Red Rangers 2-Glenview 1

Behind the strong goaltending of Adam Lovkamp the Pee Wee Red Rangers defeated a tough Glenview #2 team by a 2 to 1 margin in a game played at Niles.

Defensesman David Zawadzki got the Rangers on the board when winger Sean Barrett passed back to the point and Zawadzki walked in and ripped a slapshot

passed a stunned Glenview goalie. The first period ended with the Rangers clinging to a 1 to 0 lead.

At 5:53 of the second period Ranger captain Ken Shubert passed across to Barrett who buried a hard wrist shot to give the Rangers a 2 to 0 lead to carry into period three.

Lovkamp lost his shutout bid with just 5:01 remaining to be played but both he and the strong Ranger defense made the 2 to 1 lead stand up.

## Survey reveals children's drug awareness levels

Ten percent of all fifth and sixth grade students in the United States say they know where to find drugs if they want them.

Almost half say they have seen or heard of kids at school who have used drugs or alcohol, and one out of nine fifth and sixth graders have been offered alcohol to drink.

These alarming statistics were revealed in a recently conducted national survey of 10 thru 12-year-old children. The poll of 500 youngsters was designed to assess their exposure to, knowledge of, and attitudes toward drugs and drug users.

Commissioned by Kentucky Fried Chicken, corporate sponsor of the D.A.R.E. (Drug Abuse Resistance Education) drug education program, this survey is part of the company's ongoing efforts to help stamp out the scourge of drugs in this country.

Results of the survey will provide a guide to further expansion of D.A.R.E. Currently taught in more than 150,000 classrooms, in 2,000 communities throughout the U.S., D.A.R.E. is designed to give young people the facts about drugs and alcohol and to "inoculate" them against peer pressure to try those substances.

While most fifth and sixth grade students seem knowledgeable about illegal drugs—the majority can describe the appearance of cocaine or crack, for example—a trial at this age seems relatively low, with only about three percent of survey participants saying they know someone their own age who uses marijuana or other drugs.

However, the news about alcohol abuse is not good. One-third of fifth and sixth graders know kids their own age who have tried beer and one-quarter know kids their own age who use or have tried wine or liquor.

One out of nine say that they themselves have been offered alcohol.

Studies show that alcohol use, the substance abused most often in our nation's schools, frequently leads to trial of other drugs, like marijuana, and ultimately to stronger drugs such as cocaine.

The KFC-sponsored survey did reveal some encouraging news. Students expressed overwhelmingly negative attitudes about the trial or usage of marijuana or other drugs.

Attitudes toward the usage of alcohol by kids are not as strongly negative, but 80 percent still "disagree a lot" with its use.

A full 95 percent of the children agreed with the statement,

## Adult children of alcoholics group meets

A weekly outpatient group for Adult Children of Alcoholics has been established at the Forest Outpatient Clinic, 555-Wilson Lane, Des Plaines. The group will meet on Thursdays from 7 to 8:30 p.m.

The therapy group will help persons overcome the effects and work through the issues of growing up in an alcoholic home and will be facilitated by a certified addictions counselor.

For further information about the group, call Julie Vertnik, certified addictions counselor, at the Forest Outpatient Clinic, (708) 635-4100, extension 224 or 225.

## Drug abuse-mental disorder link needs attention

Paying attention to the documented link between substance abuse and psychiatric disorders could help bring down the cost of treatment, according to Larry Kroll, Ph.D., clinical director and co-founder of Lifeline, the nation's first cocaine-specific drug treatment program.

Based on a study recently issued by the National Institute of Mental Health (NIMH), people using alcohol or other drugs have a high incidence of psychiatric disorders. Unless attention is paid to those conditions during drug treatment, the person is likely to relapse and relapse is a major contributor to escalating treatment costs," explains Dr. Kroll.

## Old Orchard Hospital offers lecture series

Old Orchard Hospital's free community lecture series will offer book reviews and discussions in March. The discussions are open to the public, and are held Thursday evenings at 7 p.m.

"Homecoming," by John Bradshaw will be the topic of discussion on March 14. This book concentrates on the various developmental stages of life, allowing people to relive their childhood to adulthood in healthy families of choice.

"Twelve Steps -- A Way Out" will be discussed on March 28.

The study Dr. Kroll cited revealed that 53.1 percent of persons with a drug (other than alcohol) diagnosis had an incidence of one or more mental disorders. Risk of self-reported psychotic experiences increased 3.5 times with daily use of cocaine, and cocaine abuse was associated with a 76.1 percent rate of mental disorders.

From the beginning, Lifeline has been staffed to provide psychiatric treatment to substance abusers with a secondary psychiatric diagnosis.

"We find that over half of our patients suffer from depression and probably 75 percent have personality disorders. These are ad-

ressed as an integral part of their treatment plan," notes Dr. Kroll.

The study cited by Dr. Kroll was conducted by researchers supported by the NIMH and the National Institute on Drug Abuse. It included 4,994 people aged 18 to 49 years.

Lifeline operates treatment programs in Chicago and Detroit and maintains 24-hour hotlines in both cities. In Chicago the number is: (312) 275-9393.

## DON'T LOSE ANOTHER PERSON TO ALCOHOL OR DRUGS.

Now, substance abuse treatment as an outpatient.

Here's one program that keeps people on their job, with their families and in a lifestyle more conducive to recovery. People are treated for a full 14 months.

Intervention and supervision are guaranteed over a period long enough to make sure the job is done right. For 56 weeks, specialists stay in constant contact.

A cost of only \$3900. When most 30-day programs cost \$16,000, it was obvious how important a more practical solution to the problem was.

How does your IRA stack up?

by Jeffrey Cardella Edward D. Jones & Co.

You have worked hard to provide for a secure retirement. Your savings should work hard too, beginning with your IRA. When you retire will you have enough to provide the lifestyle you want? If you're not sure, then it might be time to find out.

If you know how much you have been contributing and what rate of return you are earning, the worth of your IRA upon retirement can be calculated. If it's not enough to meet your needs, there are many different investment options that may help meet your goals. Many offices are equipped with computer programs that can make this calculation while you wait absolutely free. You can then judge for yourself if your IRA stacks up.

Because money compounds tax deferred in an IRA, even a small increase in the rate you are earning today can make a big difference when you retire. Let's look at an example.

Mary Doe, age 45, contributes \$2,000 per year to an IRA earning 7 percent. If she retires at age 65 Mary's IRA will be worth \$87,730.35.

If however, Mary was able to earn 8.5 percent on her IRA, her savings would grow to \$104,978.12. That's a difference of \$17,247.77. When it comes to your retirement dreams, don't take chances.

You should know that it's easy to transfer your IRA and you can do so without an IRS penalty. Remember, at age 70 1/2, you must begin taking minimum distributions from your IRAs. You are required to calculate your distribution for each IRA that you own. By consolidating your accounts, you save yourself time and trouble because you make only one calculation.

Jeffrey Cardella is an investment representative with Edward D. Jones & Co. in Niles and can be reached at 696-4858.

The American Cancer Society is looking for people to take part in a giant, community-wide Food Fight on March 14.

The Great American Food Fight Against Cancer, that is.

Modeled after the Great American Smokeout, the Food Fight is an annual, upbeat effort to help the public learn more about the link between diet and cancer, and to act on that knowledge. Diet alone may account for as much as 35 percent of all cancers, except for those of the skin.

During the Great American Food Fight Against Cancer, the American Cancer Society asks

people to eat foods that are low in fat, high in fiber, and rich in vitamins A and C, along with plenty of cruciferous (cabbage-family) vegetables. The emphasis is on making healthy choices fun.

## Pre-school screenings scheduled

School districts in Niles Township will be conducting free developmental screenings during March, 1991 for all children who are 3 and 4 years of age.

This annual screening is held to assess a child's general development and to detect any problems or delays in vision, hearing, motor, cognitive, social-emotional and/or speech and language development.

Members of the special services team will be conducting the screenings and will provide feedback to parents as to their child's performance. The screening is done informally and children generally enjoy the process.

This screening is strongly recommended. Educational problems identified at an early age can

often be corrected. If the screening identifies educational needs, services are available in the township.

Pre-school children screenings last year can be re-evaluated this year.

All children living in any of the nine Niles Township Districts are eligible. There is no charge for this service. The screening requires about 45 minutes to complete.

Winner of the Tony Award for Best Play, David Henry Hwang's powerful Broadway blockbuster, "M. BUTTERFLY," debuts in Chicago for a limited engagement on Tuesday, March 12, at 7 p.m. at the Chicago Theatre, 175 N. State St.

*"The newspaper that delivers"*

Bugle Publications  
Niles, Illinois  
Dear Editor:

In what newspaper should I place an ad for a garage sale for June 1 & 2 was my dilemma. Another local tabloid type newspaper was twice the price of The Bugle and the popular full size paper was more than 3 times the price but I decided on supporting the local paper that carries most of the Niles news, The Bugle.

I had fears that The Bugle's circulation was limited. To my surprise, the response was tremendous with prospective buyers from all the surrounding towns coming into my yard faster than I could sell to them.

The sale was successful, thanks to The Bugle. We sold about 90% of all the available merchandise.

Yours,  
Stanley Klosowski

communication with residents" by holding fact-finding meetings in the village. He wants more effective management of tax money and a business-like environment on the board. The candidate would like to see increased cooperation within the village with all governmental bodies.

Jack Hendrickson, 35, 6949 Oakton Court, is a firefighter and paramedic in Niles. He claims a total of 18 years experience in the park district in various capacities.

He said for five years he was golf course manager and assistant ice rink manager; and for nearly five years he was in the maintenance department. He has also done volunteer work for the Mite house hockey league, helped with the baseball league and worked on sets for the ice show.

If elected, Hendrickson wants to express the community needs for young and old; unite efforts and work with the Trident center. He wants to plan for the future and start working on it one step at a time. He would like to see more evenly allocated on the side for future ice rink repairs.

The candidates are running for four-year terms. Ballot positions were chosen by lottery, in the following order: Hendrickson, Heinen, Baczek, Sheridan and Beusse. The post of park board commissioner is a non-paying position.

Rick Sheridan, 44, 8147 Merrill St., is an electrician. He has spent 12 years as a park district volunteer coach and manager of girls' softball teams. He is a member of the Knights of Columbus Council 4338, The Holy Name Society and V.F.W. Post 1284. Sheridan would develop "open

### From the Left Hand

Continued from Page 1

Square buildings north of the center. Sales tax rich Niles hopefully saw more dollar revenue from the shopping center which would more than offset the additional Niles services the area would need. It was one time Niles might have grabbed one too many centers. On the other hand it picked up the area where the new Dominick's is being built on Ballard west of Greenwood. The sales tax from that one store might be worth more than the costs incurred by the northwest annexation.

The water improvement will definitely upgrade the unincorporated area. Because the area lacked a local village government the many multi-apartment complexes crammed atop each other, planted seeds of potential problems there. But the transition of many of these apartments to privately-owned units seemed to turn the area around. When the rental units became condos the owners and developers spruced up the buildings and their surroundings upgrading a community which was going into disrepair. Now, with the water upgrade, the area should have better facilities which should increase the attractiveness for future residents as well as present residents.

Such an improvement en-

hances all our area. If a neighbor alongside a community falls by the wayside the entire area diminishes. By Niles adding this improvement it not only improves the East Maine area but upgrades Niles, Des Plaines, Park Ridge, Glenview and Morton Grove as well.

\*\*\*

One town's loss is another town's gain. When the new Dominick's is completed in Niles the store on Dempster Street in Park Ridge will close. The huge sales tax revenue will transfer to Niles leaving sales tax-poor Park Ridge without a major tax contributor. It's Niles' gain and Park Ridge's loss. It is likely to more than offset Niles' loss of the revenue which came from ABT TV when that business moved to Waukegan Road in Morton Grove. During that same period Kentucky Fried Chicken moved down the street on Dempster Street east of Waukegan Road into Morton Grove. While that sales tax money might have been chicken feed, it still might have been enough to maintain one of the free buses which moves around Niles.

Our town's gain is another town's loss. Making the business community comfortable with its surroundings becomes a revenue-enhancing project for all our communities.

### Higher limits... Continued from Page 1

listed for sale at less than the \$104,589 ceiling called for.

"Usually young couples are making enough money - about \$60,000 with both working - to qualify for a \$112,000 mortgage," Macina explained indicating that a 20 percent down payment would put them in a \$136,000 Niles home, the least expensive house currently on the market.

The fact that there are less than half a dozen properties on the market which qualify at the \$104,589 price tag ceiling does not deter from the program, insists Bill Morris, an investment banker at George K. Baum, the company that is creating and selling the municipal bonds. The program depends on the support of realtors who will steer young couples to qualifying listings as well as more expensive homes in the community.

"There's enough listings to support the program," Morris said. "The theory is when the couple has kids, they will want to stay in the community where they see it is well run and has good schools."

The loans, which will become available May 1, will allow a childless couple with an income of no more than \$43,400 (or a family of three or more with a maximum of \$49,910) to borrow money at 1.2 to 1.5 percent less than the market rate.

This dramatic film stars Patrick Swayze, Demi Moore, and Whoopi Goldberg, whose performance has been nominated for an Academy Award. The film is rated PG13 and admission is free.

The March travelogue at the Morton Grove Public Library will feature England and Scotland in a slide program, presented by Myrta Brand, on Tuesday,

try to sell the Leadership with Economy party on the basis of what they have accomplished, such as the lowest tax rate and the best service.

He maintains "We still have the lowest (village taxes) in the northern suburbs. We have the free bus. Our senior program is better (than others, as are) the police, fire and public services. We provide the greatest service for the least amount of money. If you want to keep it that way, vote for us."

Four-year terms are sought by Betty Marie Beech, and Trustees Bart Murphy, James Mahoney, and Tom Bondi. Murphy, 60, 6868 Concord Lane, is the veteran trustee in the group, having served 13 years. He is president of Bankers Life and Casualty Co. and was one of the founders of the North Suburban Mass transit district, serving a term as its chairman.

He said he wants to provide the village with his business experiences and give back to the village he has lived in for almost 35 years. He hopes to continue to help make Niles one of the best in the northwest suburbs.

Mahoney, 55, 8357 N. Oketo, is vice president of an insurance company and has been a trustee for one full term. He was with the North Suburban Mass Transit district nine-and-a-half years and was chairman two years.

He was recently named to the Board of Directors of the North-

west Municipal Conference Transportation Unit. Mahoney said he wants to be part of the village government and the best way to do it is by running for office.

Bondi, 63, 8460 W. Oak Ave., is a salesman for Allstate Insurance Co. and an eight-year veteran of the Niles Zoning and Planning Commission. He was appointed to fill the unexpired term of the late Ang Marcheschi. Bondi said he enjoys what he's doing, working for the Village of Niles.

Beech, 67, 8258 N. Newcastle, wants to do a good job as a trustee and "get the job done." A retired bookkeeper, she is head of the Nativity Guild at St. John Brebeuf parish and a past president of the Niles Grandmothers Club.

If elected, Beech said she would be the only senior citizen on the board and would concentrate on senior issues, because she knows what seniors can afford. She would also like a walking exercise machine at the Trident senior center.

Running for two-year terms as village trustee are Kathy Nasalik, and incumbent Trustees Andrew Przybylo and Jeffrey Arnold.

Nosalik, 44, 7240 W. Oakton, is a registered nurse, though not currently in practice. She works at a flower and gift shop as assistant manager.

If elected trustee, she would like to focus on teenagers' needs

and, drawing on her experience teaching religion to the developmentally disabled at St. John Brebeuf parish, she would favor making a free bus handicapped accessible.

Although Nosalik feels the village is clean, she would like to see small store owners work at keeping their windows clean and their garbage cans covered.

Przybylo, 39, 8216 W. Monroe, is general manager of the White Eagle restaurant, a member of the board of the First State Bank of Chicago and on a number of philanthropic boards.

He told The Bugle he's enjoyed the period he has served on the Board of Trustees and wants to continue the work of keeping the village tax rate down, maintaining village services and doing what the taxpayers want done.

He underlined the need to bring in young families to the village and to ascertain the village housing stock is ever-appreciating in value.

Arnold, 47, 7140 Carol Ct., is court administrator for the Cook County Circuit Court. He can record six years of service as a park district commissioner as well as a stint as park district treasurer. He was president of the Chesterfield Homeowners Association and a member of the Niles Youth Commission for nine years.

Arnold said, "I'm an incumbent. I hope we've done a good job and I'd like to continue."

got a strong argument," Kolpak said in support of the need for less parking spaces.

The parking variation is pivotal to Oak Mill Mall 2000's proposed purchase of the all. The partnership is currently managing the property for the bankruptcy estate, repainting and the bankruptcy trustee. Plans for a full scale remodeling of the mall cannot begin until ownership changes hands.

Kolpak said the court originally had set a December, 1990 deadline for the deal to be consummated and could have looked at other bids on the property.

### LEARN ABOUT DENTAL IMPLANTS!

A dental implant is a non-removable replacement for a missing tooth, or multiple missing teeth. Implants are the modern alternative to dentures. They feel solid and secure like your natural teeth.

Would you like to know more about dental implants? Call Doctor Gregory Page & Associates for a consultation or visit our office and attend an educational seminar entitled "The Benefits of Dental Implants." There is a slide presentation and open house every month. Our doctors and staff are available to answer all of your questions about dental implants. For more information, call us at

Your dental health is important to us at Doctor Gregory Page & Associates. We are beginning our 6th year of service to the Chicago community this November, and we are anxious to make you a part of our success.

Prevention is the key to healthy teeth and good oral hygiene. Doctor Page and the American Dental Association recommend a cleaning and check-up at least every six months. Come and visit us for your next cleaning.

Are you maintaining proper oral hygiene at home? Be sure to brush at least twice a day, and to floss regularly. Floss removes much of the plaque between the teeth that is most likely to lead to decay and periodontal disease. Daily flossing will keep plaque from building up in these hard to reach areas.

Don't gamble when it comes to your teeth!!!
