District 63 administration braces for teacher strike

by Nancy Keranhanp

A firstround of contract talks ended yesterday, Aug. 21, when District 63 school board members and teachers were unable to reach an agreement. District 63 teachers are scheduled to return to work today.

"It's too soon to tell what the outcome will be," said District 63 Superintendent Michael C. Colwell, who continued negotiations with the teachers union last night. "There are still some issues left to be resolved, but I'm optimistic that we can come to an agreement soon."

The lot annual "Cloon Night" was held Aug. 18 at Jawer Park, located at Rand and Touhy Avenues, in Niles. The park shook up the day with lots of fun for all to enjoy. There were games, clowns, food, and music to keep everyone entertained. The event was a huge success, and it was a perfect way to celebrate the community spirit of Niles. For more information about future events, please visit our website at nilesbugle.com.

A look at the history of the Niles Library
by The Bugle
The Niles Public Library is located at 7420 N. Cicero Avenue, Niles, Illinois 60646. It was opened on July 1, 1956, and has been serving the community ever since. The library has grown tremendously over the years, with more books, resources, and technology than ever before. It offers a variety of services, including book clubs, story time, and internet access. The library is dedicated to providing a welcoming and informative environment for all members of the community.

Park Board, District 71 to debate lot repair costs
by Debby Hunter
The Park Board of District 71 is set to debate the costs of repairing a lot in the South Park neighborhood. The lot has been damaged by recent storms, and the board is exploring options for repairs. The estimated cost of the repairs is $10,000, and the board will consider various funding options, including grants and donations. The public is encouraged to attend the meeting to learn more about the repairs and to offer their input.

MG Village Board table couple's request for sign
by Nancy Keraminas
The MG Village Board table couple has requested a sign for their business. The sign is needed to promote their services and attract customers. The village board is considering the request and will discuss it at the next meeting. The couple has been running their business for several years and has built up a loyal customer base. They hope that a sign will help them expand their customer base and continue to thrive.

MG considers expanding recycling program
by Nancy Keraminas
The village is looking at expanding its recycling program. The program currently accepts paper, cardboard, and plastic. The village board is considering adding more items to the program, such as glass, electronics, and batteries. The village is working with local businesses and residents to gather feedback and determine the feasibility of adding these items. The village is committed to promoting sustainability and reducing waste.

1992 Saturn heads for dealers

- Cost range will be $8,000 to $12,000

The 1992 Saturn will carry an estimated price tag of $8,000 and will go on sale nationwide March 15. The base model is the Saturn SL, and the SL1, which is 20 percent more powerful. The smaller car has a base price of $8,000, while the SL1 starts at $8,500. The bigger model, the Saturn SL2, starts at $9,500, and the SL1 is $10,000.

The SL2 goes for $10,000 and the SL1 is $10,500. The base model is the Saturn SL, and the SL1, which is 20 percent more powerful. The smaller car has a base price of $8,000, while the SL1 starts at $8,500. The bigger model, the Saturn SL2, starts at $9,500, and the SL1 is $10,000. The bigger model, the Saturn SL2, starts at $9,500, and the SL1 is $10,000.

General Motors subsidiary Saturn Corp. will sell the new cars at 379 dealerships around the country, starting March 15. The cars will be available in the United States and Canada.

The 1992 Saturn is available in three models: the base Saturn SL, the Saturn SL1, and the Saturn SL2. The Saturn SL is the least expensive, and the SL2 is the most expensive. The Saturn SL1 is in between.

Bill would require carpooling for NJ companies

New Jersey transportation and environmental officials are weighing a bill that would force companies to offer carpooling as an option to their employees. The bill is the latest in a series of state and federal proposals to encourage carpooling and other forms of mass transit.

Carmen D'Antonio, director of the Department of Transportation, said the bill would require companies to offer carpooling as an option to employees. The bill would also require companies to offer ride-sharing programs.

Diesel training for the Secretary of Transportation

John Bigg Jr. and Michael Levy, owners of Oak Creek Truck Co. in Oak Creek, Wisconsin, have introduced an educational program that they are putting through at Oak Creek Truck Co. in Oak Creek, Delafield, along with five other vehicle dealerships.

Delco exec hopes to capitalize on changes in auto industry

The fact that alternators, battery and other electrical components have been on a steady climb is the main reason that Delco, a component manufacturer of General Motors, is expanding its training program.

"This is a key time for us to be doing this," said Tom Severson, director of Delco's training and technical communications division.

"We are seeing a growth in the need for this kind of training," he said.

GM is looking to increase its production of new cars and trucks, and it needs to be sure that its dealers are ready to service them.

"We need to be sure that our dealers are able to service these new cars and trucks," Severson said.

"We want to make sure that they have the knowledge and skills to do the job right," he said.

"We want to make sure that they have the knowledge and skills to do the job right," he said.

Iowa attorney general to target window tinting

Iowa Attorney General Tom Miller plans to crack down on window tinting, which he says is a public safety issue.

"I've been concerned about this for a long time," Miller said. "I think it's important that we address it."
**Ford setting up joint ventures in Soviet Union**

Ford Motor Co. is setting up joint ventures in the Soviet Union, the company said in Moscow.

Ford is the latest U.S. automaker to do business in the country. The Detroit auto maker has a dealership in Moscow and has been working with Russia's General Motors Corp. for more than 20 years.

**Chrysler exec sees air bag close-up**

Chrysler executive Bob Cunningham, who is leading a companywide air-bag program, said at the Automotive Safety and Standards Conference that the Chrysler Imperial is a planned 1994 model, to be seen in a July 9, 1990, handout.

**Auto news in brief...**

- **Ford, Mich., car ferry to resume**
  - The Ford Motor Co. will operate the Kennebunk, Maine, to Provincetown, Mass., ferry service starting May 14.

- **New ambulance can carry six patients**
  - A new ambulance, designed by a group of New York City emergency medical technicians, can carry up to six patients.

**Organizational license plates**

**VIE PROJECTS** for license plates are a step in the right direction toward public safety, said the Nebraska State Chamber of Commerce.

- **One dealership opened in Tallinn, a city in the Baltic states**
  - The dealership is the first in the area to sell Ford cars.

- **Crown Victoria includes new styling, V8 engine and larger interior**
  - The 1990 Ford Crown Victoria includes new styling, a V8 engine and a larger interior.

- **Trucker crashes after wasp flies into shirt**
  - A trucker was injured when a wasp flew into his shirt, causing him to crash his tractor-trailer.

**Iowa demand low for drunk driver license plates**

- **Auto insurance premiums rose an 10.7 percent increase in 1990.**
  - Insurance premiums rose an average of 10.7 percent in Iowa in the last fiscal year, state regulators said. The increase is typical of the type of adjustments that occur when companies make changes in their rates.

- **Pennsylvania State University alumni and others, specially-designed tags identify motorists as members of a group.**
  - Pennsylvania State University alumni and others are using specially-designed tags to identify themselves as part of a group.

In addition to the standard features, the newest model of the SE includes:
- Leather seats
- Sunroof
- Power steering
- Automatic climate control
- Satellite radio

Auto news in brief

Iowa sees reduction in drunk drivers

Transportation officials are pleased to announce that the number of drunk drivers involved in traffic accidents has been significantly reduced in Iowa. This is attributed to increased law enforcement and public awareness campaigns. The Department of Transportation, in collaboration with the Iowa Highway Patrol, has implemented several initiatives to combat drunk driving, including:
- Increased patrols during high-risk hours
-greater public education campaigns.

Demand for "Scarlet Letter" plates

Despite the efforts to reduce drunk driving, the demand for "Scarlet Letter" plates has remained low. These plates are required for drivers who have been convicted of impaired driving and are designed to deter future offenses. However, their effectiveness has been questioned, as many drivers choose not to renew their licenses or simply ignore the requirement.

Magic Touch

The Magic Touch Car Wash offers a new service: "Magic Touch". This service includes:
- A thorough exterior wash
- Interior detailing
- Exterior detailing

Too dark glass will get ticket in California

California Highway Patrol (CHP) officers have been issuing tickets to drivers with excessively dark windows. The new law, which took effect in January, requires that car windows allow at least 50% of the light to pass through. Drivers who fail to comply may face fines and potential license suspension.

Ford Taurus

Now available at your local Ford dealership:
- Ford Taurus
- Ford Taurus SHO

Tinted windows will draw tickets

Police departments across the country have reported an increase in citations for drivers with tinted windows. The new law, which requires that the front seats of vehicles allow at least 70% of the light to pass through, has led to a rise in violations. Officers are now intensifying their enforcement efforts to ensure compliance.

Other news

- Increased law enforcement efforts have led to a 20% reduction in fatalities involving drunk drivers this year.
- A new device, the "Drunkometer", has been developed to help police identify impaired drivers. It uses breath analysis to determine the blood alcohol content.
- A national campaign is underway to raise awareness about the dangers of drunk driving.

Iowa traffic deaths dip slightly

Traffic deaths in Iowa were running 20% below looks last year's pace on Thursday, Aug. 16, according to the Iowa Department of Transportation. However, the state had not released traffic death figures for the week ending Aug. 16, so it's not clear how many traffic deaths occurred.

Traffic deaths in Iowa have been declining steadily for the past 10 years, with 2012 being the lowest year on record. However, traffic deaths have been on the rise in other states in recent years.

Government safety standards for auto seats have been updated several times in recent years, with the most recent update coming in 2011. The new standards require that auto seats be able to withstand a 30 mph impact and be able to maintain their structural integrity after the impact.

Critics blame weak auto seats, federal standards for injuries

Government safety standards for auto seats have been criticized by some who argue that they are too weak and don't provide enough protection for drivers and passengers in the event of an accident.

The National Highway Traffic Safety Administration (NHTSA) is responsible for setting safety standards for auto seats, and the agency has been criticized for its standards in recent years.

Critics have called for higher safety standards for auto seats, and some have suggested that the NHTSA should be given more authority to set higher safety standards.

Landmark Ford has new diagnostic system

Landmark Ford in Norridge announced the introduction of a new diagnostic system for its service department.

The new system, which is called Ford's Precise, is designed to improve the accuracy of diagnostic work and to reduce the amount of time it takes to complete repairs.

Ford's Precise uses a combination of automated and manual diagnostic tools, and it is designed to work with Ford's existing diagnostic software.

The system is currently being tested at Landmark Ford and is expected to be available to other Ford dealerships soon.

Chevrolet introduces two new Geo models

Chevrolet has introduced two new Geo models, the Geo Metro and the Geo Metro S, for the 1992 model year.

The Geo Metro and Geo Metro S are both designed to provide a sporty and fun driving experience, and they are available in both sedan and hatchback configurations.

The Geo Metro S is powered by a 1.6-liter, four-cylinder engine and has a manual transmission, while the Geo Metro is powered by a 1.0-liter, three-cylinder engine and has an automatic transmission.

The Geo Metro S is available with either front-wheel drive or four-wheel drive, while the Geo Metro is only available with front-wheel drive.

Environmentalists, oil industry sign clean air pact

Environmentalists and the oil industry have signed an agreement to reduce emissions of volatile organic compounds (VOCs), which are a major source of air pollution.

The agreement was signed by representatives from the Environmental Defense Fund and the American Petroleum Institute (API).

The agreement calls for the oil industry to reduce emissions of VOCs by 10% by 2015, and it includes provisions for monitoring and enforcement.

The agreement is expected to reduce emissions of VOCs by 140,000 tons per year, which is equivalent to the emissions from 1 million vehicles.

KY battle rages over road in bluegrass country

The battle over a road in Kentucky's Bluegrass country is heating up, with both environmentalists and farmers siding with different sides.

The road in question is a 5-mile stretch of road in the middle of the Bluegrass, and it has been proposed as a highway to connect two major cities.

Environmentalists are concerned that the road would disrupt wildlife and views and would damage the area's natural beauty.

Farmers, on the other hand, are concerned that the road would increase their access to their farms and would increase their ability to transport goods.

The issue is expected to be decided by the Kentucky Department of Transportation, which is currently reviewing the proposal.

New vehicle will provide critical care transportation

A new vehicle will be introduced to provide critical care transportation to hospitals and other medical facilities.

The vehicle, which is still in development, is designed to provide a higher level of care to patients who require critical care transportation.

The vehicle will be equipped with advanced medical equipment and will be able to provide critical care to patients while they are being transported.

The vehicle is expected to be introduced in the next few months, and it is expected to be available for use by hospitals and other medical facilities.

BEFORE YOU BUY A NEW CAR, CONSIDER THESE FACTS:

1. Compare prices and features of different cars before buying.
2. Research the reliability and customer satisfaction of different models.
3. Check the safety ratings of different models.
4. Consider the fuel efficiency of different models.

THE NEW 1992 FORD EXPEDITION EXPLORE and EXPEDITION EXPLORE are designed to appeal to a broad spectrum of potential buyers. The EXPEDITION EXPLORE is available in two versions, a two-door and a four-door model. The two-door model is designed for those who want a compact and versatile vehicle, while the four-door model is designed for those who want a larger and more spacious vehicle. The EXPEDITION EXPLORE is powered by a 4.6-liter V8 engine and is available with either rear-wheel drive or four-wheel drive. The EXPEDITION EXPLORE is also available with a variety of options, including a luxury package, a sport package, and a premium package. The EXPEDITION EXPLORE is expected to be available for purchase later this year.
