**Seven injured in Dempster St. accident**

A three-car accident briefly closed off Dempster Street between Rand Road and Skokie Boulevard in Niles.

Seven people were injured in the accident, which occurred around 3:20 p.m. on April 30.

The accident involved a Toyota driver, a female, who was traveling eastbound on Dempster Street near the 7500 block.

She was transported to Niles Hospital with minor injuries. The other drivers involved were not injured.

The Toyota driver, a female, was traveling eastbound on Dempster Street near the 7500 block when she collided with a vehicle traveling northbound on Rand Road.

The accident caused significant traffic delays and closed off the street for several hours.

**Niles woman’s quick action Saves choking victim**

Niles resident Michelle Moser, 32, saved the life of another Niles resident, 70-year-old Bernadette Cohen, on March 31.

Cohen, the store manager, was clearing dishes and plates at the Niles Park District’s Café, 6300 W. Touhy Ave., Niles, when she started choking.

Moser ran into the dining area and saw Cohen lying on the floor, gasping for breath.

Moser quickly performed the Heimlich maneuver, striking Cohen between the shoulders to dislodge the object blocking her airway.

Cohen was able to breathe and was able to walk away from the incident.

Park candidate disagrees with 'Left Hand'

Dear Editor:

I am a candidate for Park Commissioner. I ask you to consider the following:

1. I believe that the plans for the Niles Park District going in its present direction is a waste of tax dollars.
2. I oppose the purchase of the Grayslake Park and the proposed $100 million for the construction of a new park district on the Park District side.
3. I feel compelled to comment on the donation to renovate the mini-golf course.
4. I believe that the fact that the Niles Lions club couldn't resist taking a swipe at the Friends of the Niles Parks regarding the park district governed by deceit, waste in government and the operation of two parochial gibberish. If the Park District were an honest organization they would not waste our tax dollars. The years that the Park District has been in operation, you will notice the growth of the Village. The Morton Grove First Party contends that the Village has not grown. But the Morton Grove First Party is not to blame. As the Democratic candidate, I will work with the \...
**Letters To The Editor**

**Morton Grove is well run village**

Dear Editor:

I take issue with the claim that Morton Grove is not well run. Since assuming office, the Mayor and the Village Board have worked tirelessly to improve the quality of life for its citizens. They have addressed many issues that were neglected in the past, such as road maintenance, public safety, and environmental protection.

As a resident of Morton Grove, I feel confident in the ability of our local government to handle the challenges that come our way. Our village is a community that works together to ensure a safe and thriving environment for all.

**Deep Tunnel will not prevent flooding**

Dear Editor:

The recent flooding in our area has brought attention to the need for better drainage systems. While the Deep Tunnel project may seem like a promising solution, it is important to consider its actual impact on preventing flooding.

According to the most recent studies, the Deep Tunnel was intended to address the issue of water accumulation in the basements of homes in our neighborhood. However, it has been noted that the project has not significantly reduced flooding incidents.

Furthermore, the cost of maintaining the Deep Tunnel is a major concern. It is essential that we consider alternative solutions that are both effective and economically feasible.

Sincerely,

Energy-saving tips to lower electric bills

According to the Save Electric newsletter, the average household spends approximately $1200 on electricity each year. This amount can be reduced by adopting energy-efficient practices. Here are some tips to help lower electric bills:

1. Replace old appliances with energy-efficient models.
2. Use energy-efficient lighting.
3. Turn off lights and unplug electronic devices when not in use.
4. Use a programmable thermostat to control your home's temperature.
5. Seal leaks around windows and doors to prevent air from escaping.
6. Insulate your home to keep it warm in winter and cool in summer.
