The newly elected Maine Township Board announced Tuesday they will restructure the administration of the school district. The plans are expected to be completed by the upcoming school year.

According to Supervisor Mark Thompson, the new administration will focus on creating a more efficient and effective system for the district. This includes a reorganization of the curriculum, staff restructuring, and the implementation of new technology in the classroom.

Thompson announced the appointment of Paula Andrews as the new superintendent of the district. Andrews has been with the school district for ten years and has served in various capacities, including principal and assistant principal.

The reorganization is expected to save the district approximately $1 million annually. Thompson stated, "This is a difficult decision, but we believe it is necessary to ensure the long-term success of our students and the district as a whole."

The new administration takes effect immediately.

Big bank taking over small community bank? Hardly. TCF has built its reputation through good old fashioned community-minded banking service. With the addition of six Peerless locations, TCF will now have 27 full service locations in the Chicago area to serve you, as well as 9 "tending only" branches for added convenience.

More convenience.

From Niles to Naperville to Frankfort, you’ll now be able to bank all over Chicagoland. Plus, our ATM network and affiliation with Cash Station lets you bank 24 hours a day, every day of the year. Some of our full service locations in Cub Foods store locations are even open on Sundays for your convenience.

Longer hours. More services.

Soon, we plan to extend the banking hours of the Peerless locations to make it easier for you to bank. And, you'll be seeing more services giving you more ways to invest your money, often at higher rates. You'll still have Totally Free Checking, plus an array of mortgage and consumer lending services.

District 207 teachers ratify 3 year contract

A three-year contract has been reached between District 207 and the teachers of the village of Morton Grove. The contract provides for a base salary increase of 4.4 percent for the first year and a half of that increase in the second year. However, the final year of the contract will be dependent on the state of the nation's economy.

We want taxpayers to know that financial projections are positive, the school board's attorney said. "We're looking at a first year of 4.4 percent, and hoping for a little more," he continued.

invest in low-cost, high-growth stocks. These stocks tend to
outpace inflation and can provide a hedge against rising
prices. For more information, call (708) 863-4000.

COMMIT INVESTORS ARE JUST COMMON SENSE. Some
individual investors, especially those with a moderate
investment horizon, may be better served by putting their
money in a diversified portfolio of bonds, mutual funds, or
dividend-paying stocks. These investments can provide a
steady stream of income without exposing the investor to
the volatility of the stock market. For more information,
call (708) 863-4000.

The Society would like to thank the following
individuals for their generous donation to our cause:
