Gang members battle in Mark Twain School parking lot

Two shot in Niles gang fight

Two men were shot and one severely injured in a gang fight in the yard of a Niles Elementary School on Sunday.

At 6:26 p.m. on November 7, the Niles Police Department received a call from Lutheran General Hospital, 1775 Dempster, Park Ridge, reporting that three subjects were being treated for various injuries sustained in a fight at Mark Twain School, 9401 N. Hamlin in Niles.

After interviewing the three

victims and witnesses at the scene, Niles Police made seven arrests in connection with the fight.

According to police, a Des Plaines youth went to Mark Twain School to settle some differences with a 22 year old Wheeling resident. During their conversation, police believe, the Wheeling man became angry because gang members from Chicago were brought to the meeting.

A fight broke out during which Hao Tan Phong, 21, of Des Plaines, was struck in the head with an aluminum baseball bat. Another combatant apparently pulled out a hand gun and began firing, striking Albert Shosho, 22, of Des Plaines in the abdomen. At the same time, an unknown subject also pulled out a revolver and began shooting, striking Juvenino Romero, 18, of Niles in the hand.

Two guns were recovered during a Niles Police investigation, and seven men were arrested and charged.

Four were charged with aggravated battery and mob action including Kurt Thoenke, 19, Northfield, and Harold Lim, 21, Gilberto Garcia, 21, and Gabriel Flores, 18, of Glenview.

Boxes needed for holiday baskets

Cardboard boxes are needed to ensure that Maine Township's Emergency Food Pantry can distribute holiday food baskets to needy residents.

The pantry is seeking donations of large boxes that can be used to hold cans and boxes of food for distribution. An ideal size for boxes is about 13 inches wide, 20 inches long and 14 inches deep.

At least 1,000 boxes are needed for the township to meet its goal of handing out holiday baskets to more than 600 residents this year.

Donations of food also are welcome. The pantry especially needs fruit juice in plastic containers, family-size boxes of breakfast cereal, tuna, Spaghetti, ravioli, Dinty Moore beef stew, Spam, cranberry sauce, sweet potatoes or candied yams, turkeys, hams and food gift certificates from Jewel or Dominick's.

The volunteer-run food pantry is open year-round to help residents in crisis situations. It is located at the Maine Township Town Hall, 1700 Ballard Road, Park Ridge.

For more information, or to volunteer, call the Maine Township General Assistance Office at (708) 297-2510, ext. 236.

Firefighters use wheel to teach fire safety

Niles firefighter Brian Henricks (from left), Dave Chapp and Bill White display a new tool the Niles Fire Department will employ in fire safety education efforts. The Fire Safety Wheel is similar to wheels used in television game shows. It has fire safety information painted on it, and the object is to spin the wheel and correctly answer the question. A gift is awarded for the correct answer. The wheel was built by firefighters Chapp, Henricks and White. The wheel was painted and lettered by Ron Coy of Classic Sign of Palatine. A wheel was on loan from the Palatine Fire Department at the annual Golf Mill Safety Day. Because of its success, Niles firefighters decided to build one for their department.

TIF hearing held for Target store in Niles

The public hearing regarding the new Target store Tax Increment Financing (TIF) went smoothly Tuesday night, according to Niles Village officials. Target store developers, who will be constructing on the former Wilson Jones Plant site, have substantial environmental, demolition and street work costs that fall under the qualifications of having a TIF. One of rules regarding establishing a TIF is a public hearing must be held so anyone with objections can speak. That hearing was held Tuesday night and, according to Niles Village Manager Abe Selman, went beautifully. "A TIF is a device established by the state legislator that allows you to provide incentive money to a developer to help make development more economical," Selman said. "We are proposing to give Target \$4.1 million over an eight year period." According to Selman, the TIF proposal complied with all requirements and development is going ahead on schedule. The next meeting will be November 23 when the Village Board will adopt the development ordinance establishing the TIF agreement.

Emergency pantry seeks food donations

Maine Township's Emergency Food Pantry is seeking donations of canned goods and other items for holiday baskets for needy residents. Keeping the pantry's shelves filled is always difficult, and donations are especially needed now to ensure that the pantry doesn't have to shut down during the holidays. The following items are needed: Fruit juice in plastic containers, family-size boxes of breakfast cereal, family-size cans of chunky soup, sweet potatoes or candied yams, cranberry sauce, turkey, ham. Also, Dinty Moore beef stew, Spam, canned tuna, Spaghettios, ravioli, canned fruit (applesauce, peaches, pears, fruit cocktail), canned carrots, corn or mixed vegetables, tomato sauce or meat-flavored spaghetti sauce, macaroni and cheese, pasta, rice, food gift certificates from Jewel or Dominicks. Spaulding resigns from Oakton board

Glenview resident Bill Spaulding announced on Nov. 4 that he was resigning from the Oakton Community College Board of Trustees effective December 31. Spaulding's announcement was made at the Board's regular monthly meeting held on Thursday, Nov. 4. A retired CNA insurance executive, Spaulding was first elected to the Oakton Board in April, 1979. His current six year term expires in November 1995. During his tenure on the Board, he served in a variety of executive positions, including several one year terms as chairman. Spaulding had a long history of community activities, especially with the Glenview schools, before his election to the Oakton Community College Board. In recent years, his health has limited his volunteerism to only Oakton activities. According to state law, the remaining members of the Board must appoint a person to fill the vacancy within 60 days after a vacancy occurs. Anyone wishing to apply for this appointment may submit a letter of interest and a resume by Nov. 29 to the Board of Trustees, Oakton Community College, 1600 E. Golf Road, Des Plaines 60016.

A Golden Time

Judith Schillace, Administrator The Manor at Lincolnwood, 7000 McCormick Lincolnwood, IL 60645 708-982-2660

It's hard to anticipate exactly what the long term effects of the President's budget package will be for seniors. The final agreement sliced \$55.8 billion from Medicare over five years. This may restrict access to care for some seniors, critics claim, since the cuts will reduce the fees Medicare pays doctors, hospitals and other providers. Specifically, non-primary care physicians and specialists are targeted for cuts, and some physicians' organizations claim that will make doctors reluctant to take on new Medicare patients. Also, Medicare recipients can expect to pay \$56 per month for Part B coverage starting in 1997, vs. \$48.60 per month intended previously.

Recent Medicare Program changes

by Thomas Curin
Social Security Manager
Des Plaines, IL

"If you're a Medicare beneficiary in need of durable medical equipment such as a wheelchair or walker, make sure the supplier you select is approved by and has a Medicare number," warns Thomas Curin Social Security manager in Des Plaines.

Effective October 1, 1993, Medicare may not pay your claim for the cost of this equipment if your supplier does not have a Medicare number.

To find out if your supplier has a number, call or write to the National Supplier Clearinghouse. The toll-free telephone number is 1-800-851-3682. The mailing address is P.O. Box 100142, Columbia, SC 29201-3142. (The Clearinghouse does not have any

information about Medicare payments or claims. It can only tell you if a supplier has a Medicare number.)

"Four new regional carriers are being established to process claims for durable medical equipment and supplies," says Curin. "In some states," notes Curin, "Suppliers will begin submitting claims to these regional carriers in October." Claims processing from all states will be transferred to the regional carriers over a four-month period. You will need to provide your permanent address—where you intend to spend more than six months of the year—to your supplier.

During the transitional period, your regular Medicare carrier will be able to answer questions about claims for durable medical equipment or tell you how to contact your new regional carrier.

In another recent development, in May 1993 Medicare began to help pay for the costs of therapeutic shoes and shoe inserts for beneficiaries who have severe diabetic foot disease. "Your doctor must certify your need for these shoes and the shoes and inserts must be prescribed by a podiatrist and furnished by the podiatrist or an orthotist, prosthetist, or pedorthist," Curin says. Medicare will help pay for one pair of shoes or inserts per year, including the cost of fitting.

AARP OFFERS TIPS FOR WINTER DRIVING

With winter approaching, 55 ALIVE/Mature Driving, a classroom refresher course of the American Association of Retired Persons, offers the following suggestions for driving in poor weather:

- * If driving in snow or ice conditions, reduce speed and increase distance between cars.
- * Keep all windows and lights free of ice and snow.
- * Be especially careful driving on bridges and overpasses. These areas freeze first, and retain ice longer.
- * An icy or snow packed road is more slippery at 32 degrees than at lower temperatures.
- * In fog, turn on low beams for greater visibility.
- * Chain reactions are common in fog. Pull off in a safe area and wait for conditions to improve. Do not creep along at five or ten miles per hour.
- * Make sure wiper blades are in good shape. It's not a bad habit to replace them once a year.

According to Gus Halghurst an instructor with Morton Grove's AARP 55 ALIVE/Mature Driving program, the best advice for motorists is to avoid driving during adverse weather conditions. The AARP 55 ALIVE course, which helps older drivers sharpen their driving skills and avoid accidents, is offered to motorists age 50 and older throughout the country. The eight-hour course is offered in two half-day sessions. Illinois law requires all auto insurance carriers to offer a discount on premiums to qualified graduates aged 55 and older of approved courses such as 55 ALIVE. policyholders should contact their insurance carriers for more information about such discounts. The next 55 ALIVE class is being held from 9 a.m. to 1 p.m. on Nov. 29 and 30 in the Flickinger Senior Center. The course fee is \$8. To enroll please call the Senior Hot Line at 470-5223.

CDs for people who aren't afraid of heights.

6.58% is the Annual Percentage Yield (APY) you would have earned on a two-year deposit maturing on October 21, 1993. APY is based on historic results and is not intended to indicate future yields or results.

Introducing The Market Rate CD. Wall Street Thrills Without Wall Street Chills.

Lock Up A Rising Rate With A CD That Won't Lock You In.

This year we're offering you a blue chip opportunity to invest in a new kind of two-year CD. One that allows you to go after Wall Street's potentially higher rates without risking your principal. Your Market Rate CD can be opened with a low \$2,000 minimum deposit. At the end of each 52-week period, your interest is calculated based on the average change in the S & P 500® Index** as reported in *The Wall Street Journal*. And at maturity, you're guaranteed a 100% return on your FDIC-insured initial deposit. The new Market Rate CD. Now the best way to lock in the market's high earnings potential is with a CD that has no risk to principal.

Every six months of its initial two-year term, our Rising Rate CD gives you a guaranteed increase in your interest rate without locking you in. The rate earned for each six-month period rises as the chart above indicates, giving you 5.00% APY during the final six-month period.* You can withdraw all of your investment within the first 10 days of any six-month interval during the initial two-year term without penalty. Or you can make a partial withdrawal without penalty as long as you maintain a \$1,000 balance. And the minimum deposit amount is only \$1,000. The Rising Rate CD. The liquidity you want, with the guaranteed interest growth you need.

For more information, call or visit your nearest First of America bank office today.

New techniques relieve bunion, heel pain

Many people suffer needlessly from bunion and heel pain, according to Dr. Tegan A. Thimesch, D.P.M., Medical Director of The Footcare Clinic, 4040 W. Peterson, in Chicago. Those two common foot problems can be treated using new techniques that relieve pain and discomfort faster than ever before. In the course of a lifetime, the average person walks more than 100,000 miles, and the years take a toll on their feet. The Footcare Clinic uses the

Swiss Compression Technique, the latest technique for bunion correction. In a continuing effort to bring his patients the latest and most innovative technology available, Dr. Thimesch, who is Board Certified in foot and ankle surgery by the American Board of Podiatric Surgery, recently attended a surgical training program here in Chicago. At this symposium he learned a new, advanced, surgical technique known as Endoscopic Plantar Fasciotomy. This procedure is used to treat heel pain caused by heel spur syndrome. This technique eliminates the need to cut open the entire heel. "It also minimizes any trauma to the adjacent tissues and allows for immediate weight-bearing for the patient," says Dr. Thimesch. Toward that end, The Footcare

Clinic recently moved into a new and larger office. The newly constructed 3,000 square-foot clinic offers patients the latest in state-of-the-art, podiatric medical technology and procedures. Dr. Thimesch is offering free foot exams throughout the month of November. People who have bunions, hammertoes, or heel pain, should call his office at (312) 267-0554 to schedule an exam.

Sports News

Oakton men's basketball season starts

Coach Rick Kilby is cautious about showing too big of a smile when he talks about the Oakton Community College basketball team.

Kilby already has posted a 44-18 record in two seasons at Oakton, but the 1993-'94 Raiders could be something really special.

Kilby said he plans to go eight or nine plays deep on a regular basis, but the cream of the crop has to be sophomore Rob Layton, a preseason National Junior College Athletic Association All-American.

The 6-foot-7-inch forward was the No. 3 scorer in the nation a year ago, pouring in 27.7 points a game to go along with a 11.1 rebound. The other returning player from last season's 19-11 team is 6-6 forward Onyebao Oji (4.2 ppg).

Joining Layton and Oji up front for the Raiders are 6-8 sophomore Roy Johnson, a former all-area pivotman at Maine South

High School, and 6-6, 240-pound sophomore Ian Whittington, who played one season at College of Lake County before heading into the United States Army.

Oakton should have good flexibility at point guard with 6-0 freshman Jerrone Rogers and 6-4 freshman Sean Moore.

The Raiders' greatest depth may be at the off-guard position. That's where freshmen Alfonte Banks, John Watkins, Niles West graduate Matt Holton and top three-point shooter Chris Clark will see action.

Oakton's regular season is scheduled to start at 7 p.m. on Nov. 16 with a home game against Scholl College. However, an exhibition game against a team of former Oakton players is on tap for 7 p.m. Friday at the College, 1600 E. Golf Rd., Des Plaines.

The 16th annual J. Dennis Lamping Memorial basketball offers an opportunity to look at the Raiders and alumni star Tom

Florentine, a former Maine South player who was the state's leading scorer and Most Valuable Player in the Skyway Conference while playing for Oakton during the 1975-76 season.

Money raised from the \$3 tickets will be used to support the J. Dennis Lamping Scholarship Fund, which provides tuition and fees annually to a liberal arts or social science student.

A post-game pizza party is scheduled for Little Villa Restaurant, 600 Wolf Road, Des Plaines.

For further information, call the Oakton Athletics Department, 635-1753.

Maine East grads reunite after 50 years

Have you ever tried to picture what things would be like 50 years from now. Imagine, then, how Maine East would look through the eyes of alumni returning recently for their 50 year class reunion.

One hundred thirty members of the Class of 1943 were anxious to explore Maine East, which has undergone tremendous change since they left.

During a late September Saturday morning, the Class of '43 gathered into the rotunda 50 years after they had walked these halls. Graduates from all over the country came back to their Alma Mater. Many smiles, hugs, laughs, and questions circled the room. For many of these Mainies, this was their first time back in the building since they graduated. The Class of '43 has had many reunions, but this was only the second inside the school.

A committee of 10 graduates organized this event. Jim Eck, Bill Fraser, Betty Hohm Kaufman, Eileen Becker Deitloff, Al and Bette Maus Klippert, Bud and Lorraine Kruse Altenburg, and Ralph and Barbara Alexander Weiderhold worked for over a year sending out letters and invitations to all their classmates.

As the grads reminisced throughout the day, it was noted that 36 classmates married, and 10 of them were at the reunion. Many of the students that graduated in 1943 had to go to war. "Some of

us had to watch our husbands go off to war right after we married." All of the class officers attended the reunion—president Ray Gross, vice-president Glenn Park, secretary Vivian Houser Kelly, and treasurer Lois Campbell Rawle.

Paul Carlson, veteran Maine East social science teacher, lead the tour, which started in the auditorium with 2 short films. After a few questions, the tour moved to the guidance center, into the old pool, through the center court area, and over to the fieldhouse and new pool. Many graduates were upset to see the old pool drained. Mrs. Altenburg, who was in charge of arranging the tour, sighed, "It's heartrending to see the swimming pool empty." After the tour was over, the alumni gathered in Room 230 to look over issues of the Pioneer from the year they graduated and check over a list of classmates who had passed away during World War II.

The day was successful for all. "Everyone had a great time. The tour was really great," reflected Mrs. Bette Maus Klippert, who was the chairperson for the reunion. "We are very happy to see how the school has grown and been taken care of."

The weekend ended with dinner at the Clarion in Rosemont that night. The class gathered to hear some final thoughts, to enjoy a dinner with their classmates, and to make plans for the next reunion of the Class of '43.

Letters To The Editor

Sen. Philip clarifies his tax position

Dear Editor,
I was very surprised to learn from a recent article in the Niles Bugle that I, as Illinois Senate President, support an income tax increase/property tax shift plan promoted by a former Democratic candidate for the Illinois Senate. The failed candidate, James McGing, is apparently misusing some remarks I made in August of this year to claim that I support a plan he put forth during a 1992 legislative race.

I have never talked to Mr. McGing. I did not support his proposal at the time he floated the idea and I do not support it now. A year after he lost the election, Mr. McGing is still trying to mislead the voters.

What I have supported are the responsible and far more effective efforts of State Senator Walter Dudyecz to bring property tax relief to Cook County residents. When Republicans were blocked by Mr. McGing's party in our attempt to adopt tax caps for Cook

County, I worked closely with Senator Dudyecz to assure that Cook County voters would have the opportunity to express their views on property tax caps through a 1994 advisory referendum. Working together, we were able to get that referendum on the ballot, despite the strong objections of the leaders of Mr. McGing's party.

For the record, let me clarify what I have said on the subject of a property tax for income tax trade. I would consider supporting the complete elimination of property taxes as a means of funding schools, as Michigan has done. Income and possibly sales taxes could be used to offset the lost revenues. Unfortunately, most of the plans I have seen would not eliminate property taxes entirely from the education base. Instead, they would either freeze taxes at the current level or grant some type of small decrease, in exchange for a substan-

tial increase in income taxes. Such proposals would not provide long-term property tax relief and in many cases, they are simply income tax increases masquerading as property tax relief.

Such a tax shift, even if it can be accomplished, is far down the road and should not be used as an excuse to oppose the more immediate relief available from property tax caps. Cook County voters who want tax relief should support Senator Dudyecz's efforts to bring tax caps to the county by voting in favor of the tax cap referendum next year.

Sincerely,
James P. Philip
President
Illinois State Senate

I also want to thank the Friends of Oakton, students in the Emeritus Program, the Board of Student Affairs, and the many friends and supporters who endorsed my candidacy, wrote letters, and encouraged me throughout the campaign.
It is an honor to continue serving as your representative on the Oakton Board of Trustees.

Y offers body composition test

Everyone cannot and should not be model thin. Common sense, sound nutrition, and exercise science principles state that people shouldn't strive for setting "hard and fast" body weight goals. Instead, try to achieve a body weight that is compatible with a healthy lifestyle. To determine ideal body weight, don't rely on just the bathroom scale and height-weight charts. Percent body fat measurements also need to be taken into account.

The Leaning Tower YMCA will offer its Pre-Holiday Body Composition Testing Special. The dates and times are as follows: Monday, Nov. 15 from 4 to 8 p.m.; Tuesday, Nov. 16 from 8 a.m. to noon, and between 4:30 and 8 p.m.; and Wednesday, Nov. 17 from 7 a.m. to noon and 4 to 7

p.m. The cost is \$5, the test takes only 10 minutes and no appointments are necessary.

The following guidelines should be followed to achieve the most accurate test outcome: Do not have caffeine the day of the test, no exercise at least 6 hours prior and no eating 2 hours prior to the test. The results will show the percent of lean muscle mass, percent of body fat, metabolism, energy expenditure, and ideal body weight. A short personal consultation concerning results will be given.

For more information regarding the body composition testing, contact Stacey Nowak at (708) 647-8222 or stop by the Leaning Tower YMCA located at 6300 Touhy Ave., Niles.

Fund established to rebuild synagogue

The headquarters and Synagogue of Friends of Refugees of Eastern Europe (F.R.E.E.) was destroyed by arson November 5. F.R.E.E. is the primary religious and social center for the thousands of Jewish Russian emigrants in Chicago.

The Jewish community demonstrated its solidarity with their Russian brethren, who lost their home.

Until a new site can be obtained, F.R.E.E. will operate out of the Headquarters of Lubavitch Chabad of Illinois at 3107 W. Devon, Chicago.

Plans are already underway to establish a new home for the ongoing activities of F.R.E.E. An emergency fund has been set up at Brickyard Bank, 6676 N. Lincoln Ave., Lincolnwood, IL 60466.

Those wishing to express their support and sympathy for assisting those in need are requested to send their tax-deductible contributions directly to the Brickyard Bank, payable to: F.R.E.E. Emergency Fund - Account # 0113109801.

Color Trends

by John O'Grady

People always ask me "What are the new and popular colors now?" I say, that is a difficult question to answer. Changes in color, as well as in furnishing styles is gradual. "What's new" may not get beyond the showroom of a seasonal buyers market.

I have my own ideas about color. I believe no color is ever out; each may be right for some individual, as well as on my first house call to a client, color discussion is an important first in my notations. I like to bring my client in on the subject of color; what do they like? what are the window exposures?

Sometimes important things, such as carpet, sofa, or woods which are remaining the same and should be color complimented for the best end result for the setting.

About current color trends; I see the color wheel still full of the peach family, going on to include warm rose hues. The greens, I like to call Jade, are all cool, and include the deep values like forest. Blues are always high in preference by the public, and we are seeing some return to the aqua and turquoise cast. Golds are scarce, and one of my favorites - yellow is in quiet retreat. While a whole new group of interesting beiges is appearing in carpet, find that color family not extensive in fabrics. Black, gray, and white are not considered colors at all, but are always standard.

I can't decide what creates a "color style change", except that it may be due to our wanting a change. We can only look at a color so long, like the Halloween Pumpkin or Red Poinsettia, they eventually have to go!

IRS encourages parents to obtain TIN's

The Internal Revenue Service encourages parents to get ready for the upcoming tax filing season early by obtaining taxpayer identification numbers (TIN's) from their day-care providers and making sure their dependents have social security numbers.

Anyone claiming the credit for child and dependent care expenses must include on their return the name, address, and TIN of each identification number (TIN's) from their day-care providers and making sure their dependents have social security numbers.

A TIN is a social security number if the provider is an individual. It's an employer identification number if the provider is a partnership or corporation. The same requirement applies to a person who receives benefits through their employer's dependent care assistance program.

Form W-10 can be used to request this information from the provider. To get a free copy of this form, call the IRS toll-free at 1 (800) TAX-FORM, (829-3676).

In addition, anyone claiming a dependent age one or over on their 1993 return must enter that person's social security number. For low and moderate income families taking the Earned Income Credit, a similar rule applies to qualifying children ages one and over. For help getting a number, call the Social Security Administration toll-free at 1 (800) 772-1213.

The ABC's of APY (Annual Percentage Yield)

by Jeffrey Cardella

Niles, IL 60714, (708) 470-8953

If you've shopped around for a certificate of deposit recently, you may have noticed a change in the way yields on these investments are stated. The new designation is known as annual percentage yield (APY) and is the result of the Federal Reserve Board's Truth in Savings Act Regulation.

The exact formula used to calculate annual percentage yield is rather complicated, and, quite honestly, it isn't important. You see, APY has no effect on the way interest on CDs is calculated or paid. What is important is the benefit it offers CD shoppers.

In the past, institutions that sold certificates of deposit could state the interest paid in any of several different ways. This obviously made it difficult, if not impossible, to compare CD rates.

Now, with the introduction of APY, all CD advertisements run by banks, brokerage firms or savings and loans that include an interest rate must include the annual percentage yield. This will allow CD shoppers to compare apples to apples or, in this case, CD rates to CD rates.

On CDs maturing in one year or less, the APY will appear higher than the simple interest rate. On CDs with maturities longer than one year, the APY will appear lower than the simple interest rate. The chart below gives a few examples of how APY compares to the simple interest rate of some common maturity of CDs.

Term of CD	Simple Interest Rate	Annual Percentage Yield
6-month	5.00%	5.06%
1-year	5.00%	5.00%
5-year	5.00%	4.56%
10-year	5.00%	4.14%

Of course, in reality the rates paid on 6-month CDs and 10-year CDs are not identical. We've used the same interest rate for all maturities to give a better idea of how annual percentage yield compares with simple interest.

What's important to remember is that APY does not affect the way interest is calculated or paid on CDs. If the rate is calculated using the simple interest rate, you will still receive that rate. For instance, if the simple interest rate is 5 percent on a 5-year CD, you'll still receive at least \$50 for each \$1,000 invested within a 12-month period even though the APY is stated as 4.56 percent.

Another important thing to remember about CDs is that not all CDs are created equal. They offer a variety of maturity, interest payment and liquidity options. Don't base your investment decision on yield alone. Make sure the CD you choose offers the options you desire.
