

### From the Left Hand

by Bud Besser

I was talking to Niles Director Of Code Enforcement, Todd Bavaro, some years ago when he mentioned he used to baby-sit with the child of the late Nellie Fox, the White Sox second baseman of the 1950's.

When I lived at a residence on the corner of Ozanam and Monroe our across-the-street neighbor told me she boarded in the same rooming house with comedian Shelly Ber- man. She mentioned he had to eat Wheaties every morning. The young up and coming comedian insisted on the breakfast of champions each and every morning.

Fifteen years ago my oldest daughter was an elementary school teacher in Des Moines. One of her first grade students was the son of Leon Spinks, then the heavy-weight boxing champion.

My cousin was with a Signal Corps outfit stationed in Rome after its fall in World War II. The movie director, Frank Capra, was a colonel in his outfit. The director of Mr. Smith Goes to Washington and It Happened One Night, directed many of the propa- ganda films which were used during the war.

I brushed shoulders with many famous people during my 33 months in the army.

I was in an air cadet program in 1943. At a base in Greensboro, North Carolina, Charlie Trippi, an All Ameri-

### Chicago man held in Alert TV robbery

A Chicago man was being held following the unsuccessful attempt to rob Alert TV, 7658 Milwaukee, on Monday. Police report no one was injured during the robbery attempt.

According to Niles Police Sgt. Dennis McEnerney, two suspects entered Alert TV on Monday morning with the intentions of loading televisions and video recorders into a rented truck parked in front.

The suspects, who were armed, tied up two store employees and a female customer. However, before being bound, an employee activated a silent hold-up alarm linked to the Niles Police Department.

Arriving on the scene, a Niles Police Officer walked in the front door, announced his presence and heard a suspect flee through a rear door. The employees then told police a second robber may have

### 87 year-old Niles woman & 65 year-old Morton Grove woman die during 100+ degree days

## Two area seniors victims of record heat wave

by Rosemary Tirio

Despite the five-day long heat wave last week that is expected to result in an estimated 300 heat-related deaths in the Chicago metropolitan area, only two weather-related deaths were reported in the Niles-Morton Grove area.

Martha Hahn, 87, was found face down on the floor in a bedroom of her second floor apartment at 6704 Albion in Niles by an 80-year-old friend who had been given a key to the apartment by Hahn's family. Niles Fire Department personnel were unable to find vital signs. Hahn, who had a history of heart problems and was on medication, was pronounced dead in the Resurrection Hospital Emergency Room at 7 p.m. July 14.

Although the victim apparently had no air conditioner, two fans were in Hahn's apartment, but they were not in use. Windows in the apartment were open, but a wall thermometer read 104 degrees when fire officials arrived at the scene.

Cathy Anne Glauner notified the Morton Grove Fire Department when she discovered Mar-

ministered body cooling techniques to Menconi in the apartment and enroute to Lutheran General Hospital where she was pronounced dead at 12:47 a.m. July 15. The cause of death was listed as hyperthermia and cardiac arrest.

Hyperthermia, or heat stroke, occurs when core body temperature reaches 105 degrees or more,

**SJB Golden Agers join in 4th of July festivities**

Independence Day came in with a bang...actually a lot of bangs...thunder-bangs! Club President Bob Bianchi and Vice President Joe Lucas served as float soldiers, accompanying the float and giving out sweet goodies.

The Golden Agers were well represented at the Maine Township Bingo held recently at Chateau Ritz. George Roth and Mary Michalski were crowned King and Queen for the day. A good time was had by all!

Betty and Bill Clawson attended the 50th (Golden) Anniversary Mass celebration at Holy Name Cathedral on Sunday, June 25. Their niece Marilyn and grandniece Theresa volunteered to

drive and accompany them to the affair. When their niece arrived to pick up the couple, Betty and Bill were surprised, delighted and amused when a large white limousine appeared at their home. They all enjoyed a wonderful, relaxing and worry-free ride down the busy expressway to the church. The Clawsons had second-row seats and became quite involved in every minute of the solemn service. This special day ended with a lovely dinner with Marilyn's immediate family. Also attending were George and Margaret Roth. Congratulations Betty and Bill!

Bob Bianchi returned to his alma mater, Franklin & Marshall College, in Lancaster, PA for his 50th reunion on the weekend of June 9. Bob was honored for his dedication to the college by being inducted into the Neovontan Society at a special dinner held at Mayser Center. Bob was amazed at how the college had grown and that it was now co-ed. When he was a student, F & M was an all-male school. After a marvelous time on campus, Bob and his wife, Shirley, whom I am glad is feeling better, toured President James Buchanan's home in Lancaster; Roselyn, another estate; the Amish countryside; Winterthur and Longwood in Delaware; Bedford Village; and other interesting places. The couple enjoyed a week filled with great memories.

As the Fourth came in (with booms), so it went out, with great fireworks displays. Now's the time for all good Golden Agers to ready the barbecue equipment, dust off the picnic tables and chairs and buy more sunscreen. It's picnic time!

**State to declare station a landmark**

The Illinois Historic Sites Advisory Council at its June 16 meeting voted 9 to 3 to recommend placing the former train station at the Dempster Street mass transit facility on the National Register of Historic Places. The recommendation now goes to the State Historic Preservation Officer for final state approval, and then goes to the federal government.

"We're disappointed at the outcome of the vote," Village Manager Albert Rigoni said today. "The Village has supported the cause of historic preservation for years. In the case of the Skokie Swift site, we have been trying to balance the interests of historical preservation against the interests of having a safely designed and efficient commuter mass transit facility."

The Village received \$1 million capital-improvement grant from the Illinois Department of Transportation (IDOT) to improve access into and out of the mass transit commuter facility. The improvement project, part of the state's Operation Green Light program, was aimed at easing vehicle congestion and improving the flow of car, bus, taxi and pedestrian traffic. The project was to complement major improvements already completed, including all-new track and train cars, the new Skokie Swift station-house, improved accessibility to the Swift and 217 parking spaces in the new north lot.

The Illinois Historical Preservation Agency (IHPA), IDOT, the Chicago Transit Authority (CTA), owner of the site, and PACE had all given approval to the Village of Skokie as project administrator to remove the old North Shore station to make way for the Operation Green Light im-

## Osteoporosis: are you at risk for this age-old problem?

Osteoporosis, one of the most debilitating and costly diseases striking the elderly, can be prevented. "Osteoporosis is a decrease in bone mass and strength, which makes bones brittle and susceptible to breaking," says Ira Melnicoff, DO, a board certified rheumatologist on staff at Holy Family Medical Center. "It is the major cause of fractures in postmenopausal women and older people in general. More than 25 million women in the United States are affected." Dr. Melnicoff, a member of the American College of Rheumatology, says the body continues to store calcium, the building blocks for bones, until age 35, after which, reduced bone density reflects progressive calcium loss. Individuals with more rapid declining of bone density experience brittleness, which predisposes individuals with more severe osteoporosis to more than 140,000 hip fractures annually and their associated complications which includes 28,000 deaths in the United States alone. Once bone mass is lost, the body cannot readily replace it and we must settle for the reduced loss of this vital mineral. "Recent developments permit us to identify the major risk factors which cause or accelerate osteoporosis," says Dr. Melnicoff. "And our knowledge for prevention and slowing of the disease is constantly improving."

A variety of medical and lifestyle factors may increase bone loss, making osteoporosis worse. The risk factors include:  
• Early menopause (natural or surgical), with loss of estrogen  
• High consumption of alcohol or carbonated beverages  
• Cigarette smoking  
• Lack of menstruation (amenorrhea) in athletes or women with severe weight loss  
• Certain medications, especially long-term corticosteroids, some blood pressure medications and asthma treatments  
• Medical conditions such as thyroid disease, inflammatory arthritis which block intestinal absorption of calcium  
• Low dietary calcium or Vitamin D deficiency over a prolonged period of time, especially during adolescence or young adulthood  
• Lack of exercise, particularly walking

Dr. Melnicoff says people with these risk factors should be concerned about developing osteoporosis. He recommends they should contact their doctor for evaluation and initiation of preventive measures. Prevention ideally begins well before bone loss begins and requires adequate calcium consumption and plenty of exercise, particularly during adolescence and young adulthood. Early hormonal replacement with estrogen and progesterone (HRT) slows bone loss in postmenopausal women, especially when utilized in the immediate perimenopausal period. This therapy requires close, regular medical supervision, although the uterine cancer risk is really quite low. "Individuals should not wait for a broken hip, vertebra, rib or pelvis before seeking treatment," Dr. Melnicoff states. For more information about physicians who specialize in the treatment of osteoporosis, call MedConnection, Holy Family's free physician referral and appointment service at (708) 297-1800, ext. 1110. Holy Family Medical Center is a comprehensive community medical center and a 252-bed trauma center located at the corner of Golf and River roads in Des Plaines. Holy Family is a member of the Rush System for Health.

## Ducks flock together at Glenview Terrace

For years, the backyard pond at Glenview Terrace Nursing Center has been home to ducks and geese who have found a friendly handful of bread and the necessary trees and shrubs for protection.

Friday, June 30, the feathered pond population doubled when the residents and staff released 19 mallard ducks born and raised in the Glenview Terrace Activity

Department.

The ducks first arrived at Glenview Terrace on April 29 as eggs, along with a small incubator for hatching them. Erika Salmen, Director of Activities, thought that raising these ducks would give the residents the responsibility of their care and nurturing, not unlike what they may have done at home raising a pet.

"They took an instant interest

in the care of the eggs and would help with weekly 'watering.' They were the first people to notice that the eggs were hatching and helped me take them out of the incubator," said Erika.

A temporary duck pen was built in the Activity Department for ducklings to sleep, eat and swim about until they were mature enough to be released into the wild. The pen was recently moved outdoors to acclimate the ducks to outdoor weather conditions. Throughout the day, residents and staff alike go to watch the ducks, mesmerized by their peeping sounds and hopping about. Erika had not realized, however, that the ducks would soon form a bond with her — so much that the staff has nicknamed her "Mama Duck."

Erika believes that duck-raising will be an on-going activity for the residents of Glenview Terrace, as they begin to raise new generations of the duck population for the pond and see past generations live to a ripe old "duck age."

Glenview Terrace Nursing Center, a 293-bed skilled care nursing center facility, is located at 1511 N. Greenwood Road in Glenview. For more information regarding the activity program call (708) 729-9090.

Erika Salmen, Director of Activities, kissed each duck "good-bye" as they were released into the Glenview Terrace pond.

Approximately 100 residents gathered outside to see the ducks released. Leah Elliott took the opportunity to hold one of the ducks before it joined the others.

## Fun Fest '95 at Glenview Terrace

How do you make a fund-raiser that has been successful six-year tradition in Glenview even more successful? Make sure that more people can share in the fun and games by moving the date to a Sunday?

And, that is exactly what Glenview Terrace Nursing Center is doing with its 7th Annual Community Fun Fest which will be held on Sunday, Aug. 13, from 11 a.m. to 4 p.m. The Fun Fest, which last year raised over \$7,000 toward research and community education programs for the American Heart Association, will be the biggest yet with rides and games and fun for the whole family.

Serving as Chairman of the Fun Fest, Curtis Fletcher feels it is a natural extension of Glenview Terrace's philosophy of "Care with the human touch." "Our residents and employees look forward to this event all year and work together to make it fun for all who come and a real success for the American Heart Association. 'Home with Heart' has come to reflect not only the day's theme but also how we work with each other all year round," says Curtis.

"Because of the Sunday date this year," says Curtis, "we are expecting this Community Fun Fest to be much more of a family event." And, the games, rides and booths will reflect a family carnival atmosphere. A 25-foot Giant Sled and the ever-popular Ferris Wheel will create excitement for kids of all ages. A new entertainment addition will be the Jessi White tumblers. And, one of the busiest attractions of the day will again be the "Wide World of Taste," a tent filled with a variety of ethnic foods made by staff members and families from favorite family recipes. This tent gives everyone an opportunity to

pitch in and contribute in their own unique way to this day of fundraising for the American Heart Association.

"Residents and their families play an integral part in the day by collecting tickets and supervising booths," says Maggie Harris, Director of Social Services at Glenview Terrace. "Their partici-

pation helps them feel that they are a vital part of the fund-raising effort. They feel good about themselves and their ability to help others."

In addition to the food, booths, games and rides, there will be an opportunity to receive a massage and have blood pressure and cholesterol levels checked.

A highlight of the day will be a raffle of items donated by local businesses. "This raffle gives the entire Glenview Community a tangible way to support the Community Fun Fest and contribute to the American Heart Association."

All monies raised will help the American Heart Association con-

duct research and community education programs in the fight against cardio-vascular disease, the nation's number one killer.

Glenview Terrace Nursing Center is located at 1511 Greenwood Road in Glenview. For more information regarding the 7th Annual Community Fun Fest, call (708) 729-9090.

## Volunteers needed for SeniorNet

Are you looking for a rewarding and interesting volunteer opportunity? Do you enjoy working with computers? Would you like

to help people 55 and over learn new skills? Become a SeniorNet volunteer.

The SeniorNet Computer Learning Center, located at the Mayer Kaplan JCC, 5050 Church St., Skokie, is recruiting mature, energetic classroom instructors, assistant instructors and "open lab" monitors who can spend two to six hours per week helping people 55 and over learn and/or expand their computer skills in a Windows environment. The Learning Center is a cooperative program between Council for Jewish Elderly and Jewish Community Centers of Chicago.

You don't have to be a computer guru to volunteer at the Learning Center. SeniorNet volunteers have a variety of backgrounds. Some people become volunteers after taking the SeniorNet Intro-

duction to Computers class; others have moderate experience; while others have worked with computers for years. "We're looking for people who understand the use and value of computers and who want to teach from a non-technical "grass roots perspective," said Marc Michaelson, Volunteer Coordinator.

A non-profit organization, SeniorNet was founded in 1986 and now serves more than 15,000 members through 75 Learning Centers. Its mission is to provide older adults access to the information age and to allow their wisdom to influence and benefit the technology shaping our society.

Volunteer information can be obtained by calling Jill Strassler at (312) 508-1089.

## Information about Social Security earnings

Q. How can Social Security estimate future benefits without knowing how much a person will earn in the years ahead?

A. For purposes of the benefit estimates, Social Security assumes the person will continue to work and earn at least as much as he or she made in the most recent years on our records. For 1995 statements, this will be 1993 or 1994 earnings.

Q. How can I get a Personal Earnings and Benefit Estimate Statement?

A. You can request a statement by calling Social Security's

toll-free telephone number, 1-800-772-1213. You'll be sent a Form SSA-7004 (Request for Earnings and Benefit Estimate Statement). You should receive your estimate statement within six weeks of the time your completed form is received by Social Security. The statement is available in English or in Spanish (on request).

Workshop II is for participants with artistic ambitions who will learn how to use their treasured photos, letters and other memorabilia to create artwork that can be framed or use as a gift. (There is a \$10 supply fee for this workshop).

Participants do not need writing or artistic skills.

## Oldest living Maine High alums

Rufus Holbrook, Maine Township High School, Class of 1916, still lives in Park Ridge in the house where he grew up. Although he's the oldest living graduate, Holbrook isn't the only one still around who graduated from the school on Thacker Street in Des Plaines. There's also Milton Lipnick, '17, of Morton Grove, Savena Abbe Gorsline, '19, Mabel Steil Wankle, '21, Helen Purves Loftis, '21, and Jessie Purves, '23 all of Des Plaines.

These six nonagenarians are still reaping the benefits of the foresight displayed by the people from Des Plaines and Park Ridge who in 1902 looked into the future and saw the need to provide their children with an education close to home.

A total of 134 living graduates of the original school are among more than 85,000 people who have graduated from the Maine Township high schools since

1907. These graduates are listed in the first alumni directories for the Maine schools which are on display at area libraries.

Three directors have been published. One includes graduates from Maine, Maine East and Maine North; the second, Maine West; and the third, Maine South. Published by the Graduate Connection, the project was done with the full cooperation of District 207. "The project costs District 207 nothing," said Karen Larsen, director of public relations, who added that in return for its cooperation, the district will receive an updated data base that includes every graduate that Harris was able to find.

A limited supply of directories is still available from the Graduate Connection at 800-877-6554 for graduates who have not yet purchased one.

### UOA Chapter to see demonstration

Exercises that are especially appropriate for people who have had ostomy surgery will be demonstrated when the United Ostomy Association's North Suburban Chicago Chapter meets at 8 p.m. Wednesday, July 26, in the East Dining Room (10th floor) of Lutheran General Hospital, 1775 Dempster Street, Park Ridge.

Marty Malmin, a personal trainer, will present a program that focuses on basic exercises that can be performed without placing undue stress in the abdominal wall.

There's no reason why people who have had ostomy surgery can't continue to enjoy the physical and mental benefits of regular exercises that can be performed in an upright position using only the most basic exercise equipment.

The chapter meets the fourth Wednesday of each month at Lutheran General. People with ostomies, family members and friends are welcome. For more information on the group or the meeting, phone (708) 677-8284.

### Immunize for healthy lives

Throughout August, CIGNA Healthcare, McDonald's Restaurants of Chicagoland and Northwest Indiana, and local boards of health join forces to sponsor "Immunize for Healthy Lives." The program is designed to educate parents about the importance of childhood vaccinations and to offer a network of sites where children can receive needed inoculations free or for a nominal charge.

Because many of the sites located in Chicago, the suburbs and surrounding six counties and Northwest Indiana offer inoculations on a regular schedule throughout August, parents are sure to find a convenient location and time to have their children immunized.

According to age and inoculation history, children will have access to immunizations for:

- Diphtheria, Tetanus, Whooping Cough (DPT)
- Polio
- Measles, Mumps, German Measles (MMR)
- Hepatitis B
- Haemophilus influenzae type B (Hib)

Parents should bring their children's immunization records with them to the site.

"Immunize for Healthy Lives" sites in this area are: Evanston Health Department, 2100 Ridge Civic Ctr., Evanston, IL 60201, Ms. Karen Seals, (708) 866-2947, August 2, 16, 23, & 30, 1-5 p.m.; Evanston Hospital, 2650 Ridge Ave., Evanston, IL 60201, Ms. Pat Leonard, (708) 570-2407, August 15 & 31, 9 a.m. - 3 p.m.; Highland Park Hospital Education Center, 718 Glenview Ave., Highland Park, IL 60035, Ms. Christine Vicki, (708) 480-3787, August 25, 9-11 a.m.; Skokie Board Health, 5127 Oakton, Skokie, IL 60077, Mr. Robert Johnson, (708) 933-8252, August 9 & 23, 1:30 - 4 p.m.; Trinity Lutheran Church, 975 Algonquin Rd., Des Plaines, IL 60016, (708) 818-2880, August 17, 9-11 a.m.; Holy Family Medical Center, Wheeling Professional Building, 201 Strong Ave., Wheeling, IL 60090, Ms. Linda Melton, (708) 297-1800 ext. 1177, Monday - Friday, 9 a.m. - 3 p.m.; Wheeling High School, 900 Elmhurst, Wheeling, IL 60090, (708) 537-6500, August 14, 5:30-7:30 p.m.

### Niles

**Unlawful use of credit card**  
A 68-year-old Niles woman living in the 6900 block of Touhy Ave. reported July 12 that she began receiving collection notices for unpaid bills due to a bank credit card. The victim told police that she had not applied for a credit card from that bank.  
When the victim ordered a copy of her credit report, she discovered that the offender had somehow obtained her personal credit information and had obtained credit cards from the bank and a department store. The unknown offender made purchases totaling \$2,072 with the bank card but was unable to make any purchases with the department store card.  
The victim requested a follow-up investigation to determine where the purchases were made and said she will sign a complaint.

breath and that his eyes were in a glazed condition. The driver failed the sobriety tests and was taken into custody and charged with Driving Under the Influence and driving on a revoked license.  
A search subsequent to the arrest revealed a plastic bag containing a green plant substance suspected of being cannabis in the offender's left front shorts pocket.  
A \$3,000 bond and an August 14 court date were set.

**Criminal Damage**  
Sometime between 2 a.m. and 7:15 a.m. July 12, an unknown offender using a six-inch diameter chunk of asphalt smashed out the south facing thermopane window at the west end of the foyer in the restaurant in the 8600 block of Golf Road.  
No entry to the restaurant or additional damage could be detected. The window was valued at \$250.

**Injured child**  
A 6-year-old Chicago boy playing at the pool at 7800 Milwaukee Ave. July 10 at 6:35 p.m. fell from a height of about 6 feet and landed in the sand on his back side. As a precaution, a pool attendant and others placed the victim on a backboard and called the Niles Fire Department.  
Niles police officers at the scene found the victim awake, able to talk and in good spirits. The Niles Fire Department transported the victim to Lutheran General Hospital.

**Tips on traveling with your RV**  
Recreational vehicles (RVs), including campers, trailers, conversion vans and motorhomes, are a convenient and comfortable way to travel. Before setting out on the road, follow all maintenance procedures outlined in your owner's manual, and review your RV driving skills.  
Q. What routine maintenance is necessary?  
A. Change fluids and filters, lubricate and tune-up the RV, inspect the lights and check the brakes and tires. In addition:  
• Flush holding tanks with clean water. The drinking water tank should be flushed and refilled, adding one ounce of bleach, and flushed again. Check all water pumps for pressure and proper operation.  
• Inspect the air conditioner, furnace, water heater and appliances for proper operation, and check batteries, the converter unit and battery charger.  
Q. What safety measures should I be aware of?  
A. • If pulling a trailer, make sure you have the correct hitch and that your vehicle can handle the weight. Most trailers require a 3 or 4 class hitch.  
• Be sure the propane tanks are secured and the sewage cap is on tight.  
• Make sure the lights of the RV are hooked up.  
Q. What precautions should I take when driving an RV?  
A. • Because of the size and weight, you need to allow more distance when stopping and make wider turns.  
• To compensate for sluggish acceleration, allow plenty of time and room for lane changing and merging.  
• When backing up with a trailer in tow, turn the steering wheel in the opposite direction you want the rear of the trailer to go, using the hitch as a pivot point.

**Battery/Dispute**  
A dispute over use of the public pay phone at a Niles Park District swimming pool at 6:40 p.m. July 13 resulted in a battery incident.

Five windows, each 21" x 50, on the southeast side of the school in the 8300 block of Harlem Ave. were broken by unknown offender(s) sometime between 7 p.m. July 10 and 6:30 a.m. July 11.

**Violation of Protection Order**  
A 40-year-old Niles secretary told police at 2:25 p.m. July 12 that her ex-boyfriend had left a message for her at work saying that he had no money to pay for his motel room and that he would to to the victim's home to stay there.

The victim told police that the order of protection against the offender was active until July 20 and requested a special watch for her home.  
On routine patrol police observed the garage door of the woman's home open and upon investigation found the woman's ex-boyfriend inside the house drinking a beer. The offender said he had returned to the victim's house with her permission and entered through the unlocked patio door.

The girl was transported to Holy Family Hospital by her mother. Two physicians who examined the victim said they suspected food poisoning. Code enforcement was advised.

The offender then left the scene. The victim was uninjured and refused medical assistance. The offender returned to the scene and confirmed to police that most of the allegations were true. The victim was unsure whether she wanted to sign a complaint but requested a follow-up investigation at a later date.

**Retail Theft**  
A 35-year-old Niles woman with no previous record attempted to leave the department store at 220 Golf Mill with \$104.45 worth of clothing concealed in a shopping bag. The incident took place July 13. A \$1,000 bond was set.

The waitress said she saw the offender stand next to the table where the victim was eating, bend over quickly and walk out of the restaurant with the purse. A male suspect described as six feet tall in his 30s, weighing 130 pounds with brown eyes and thin build followed the female offender from the restaurant. **Possession of Cannabis**  
A 40-year-old Chicago man living in the 6000 block of Newark Ave. was driving his 1985 Chevrolet Caprice southbound on Harlem Ave. in the 7300 block near Chase ave., when a patrol officer noticed his vehicle, which was in the center lane, begin to straddle the lane dividers into the curb lane for approximately 30 feet.

The witness said she observed the pair walking around numerous tables in the restaurant and said she can identify them.  
The stolen purse contained a tan wallet with \$50 cash, a Discover card, an Illinois Driver's License and house and car keys.

When the officer initiated a traffic stop and asked to view the driver's license and proof of insurance, the driver was unable to produce either and said his license was suspended.  
The officer observed a strong odor of alcohol on the driver's

The subject was placed under arrest and transported to the Niles Police Department where the victim signed a complaint. A no-bail bond was set for the offender, but at 7:30 p.m. the subject complained of chest pains and was transported to Lutheran General Hospital for treatment. He was later released and transported to his cell at the Niles Police Department.

**Threat of more mosquitos**

Our weather this season has been abnormal enough to confuse the mosquito world. May rains should have produced a bumper crop of annoying floodwater mosquitoes but ensuing cold weather kept the brood to a moderate level. However, the heat at the end of June combined with widespread rains should renew the threat.

Aedes vexans, the floodwater mosquito, follows a predictable life cycle. Eggs can remain viable for several years. They are activated by rain-swelling ponds, lakes and rivers. How quickly the swarms develop depends on the temperature over the next two weeks. Cool or moderate temperatures will slow the maturing; heat will accelerate it. But barring extremely cold weather, the brood should arrive by the middle of July. Floodwater mosquitoes have a flight range of fifteen to twenty miles from its larval development site.

Aedes is not a carrier of diseases affecting humans, though it can carry dog heartworm spores.

The main problem is annoyance. When the brood reaches the proportions expected, that annoyance can disrupt all outdoor activities.

Larviciding, a system utilizing environmentally friendly biological controls, has been intensified. Broods will be monitored continuously. Adult control applications may be needed when they reach a point of intense discomfort.

If weather conditions develop to diminish Aedes vexans, Culex pipiens, the northern house mosquito will increase. Though not as annoying as Aedes, it can be more harmful to humans.

Culex is the carrier of St. Louis encephalitis. Unlike the floodwater mosquito, it stays close to its breeding grounds. It develops in stagnant waters. Certain individuals precautions can be taken to disrupt its development. Empty or get rid of old paint cans, tires, bottles or other water holding shrubbery trimmed. Keep gutters clean and ditches and culverts clear of weeds and trash.

**Anti-Cruelty Society stays up late with 'Moonlight Madness'**

The Anti-Cruelty Society will be open for adoptions from noon until 10 p.m. on July 21. This annual "Moonlight Madness" adoption day is designed to introduce the shelter to potential adopters and supporters who may have never visited during regular hours. The event will also give visitors the opportunity to see the Society's newly renovated Cycle Pet Food Dog Adoption Room.

In addition to taking advantage of extended adoption hours, "Moonlight Madness" guests will have the option of sampling a variety of dishes donated from local restaurants. A buffet will be available for \$10 per person. All funds raised will directly benefit the animals in The Anti-Cruelty Society's care.

The Shelter will adhere to its usual adoption policies during "Moonlight Madness" and emphasizes that this event is not an "animal sale". Interested adopt-

ers should bring along a photo I.D., their landlord's telephone number or a copy of a lease allowing animals in their residence, and proof of vaccinations for any other animal living in the home.

The adoption fee for any animal is \$45 and includes a veterinary exam, preliminary vaccinations, a feline leukemia test for cats and a heartworm test for dogs, spaying or neutering, collar and I.D. tag, and a dog leash or cat carrier. For an additional \$10, adopters can receive life-time microchip identification for their animals.

The Anti-Cruelty Society is a full-service humane society located at the corner of Grand Avenue and LaSalle Street. For further information about "Moonlight Madness" or other Anti-Cruelty Society programs and services, please call (312)644-8338.

**River Trail Nature Center youth programs**

To enable children to better understand nature and to discover year-round fun with adults, the Forest Preserve District of Cook County is presenting "Small Wonders", a free nature program, on Saturday, July 22 from 1:30 to 2:30 p.m. at the District's River Trail Nature Center, 3120 Milwaukee Ave., Northbrook. In conjunction with the nature program, from 1 p.m. to 3 p.m., Chicago author Ann Bayse will autograph copies of her book, Kids in the Loop.

"The 'Small Wonders' program illustrates that the District provides many fun and interesting year-round educational and recreational activities which are affordable and close to home for everyone," said Cook County Board President John H. Stroger, Jr.

During the "Small Wonders" program, District naturalists will conduct a series of sensory activities and nature games that will enable children between six and eight years of age to experience and gain a better understanding of the natural environment.

For additional information about the "Small Wonders" program or the autograph session, contact the District's River Trail Nature Center at (708) 824-8360.

## Ryan releases 1994 DUI Fact Book

Secretary of State George H. Ryan recently released the 1994 DUI Fact Book and said Illinois' latest tool in the war against drunk driving - the new "Use It & Lose It" law - is working to increase awareness about the problem of drunk driving among young people.

Releasing the Fact Book on the eve of the Fourth of July holiday period is also a reminder to motorists that a lot of alcohol-related traffic deaths occur during the holiday travel period around Independence Day.

Ryan noted that in 1993, the last year for which statistics are

available, 11 people died in alcohol-related traffic crashes during the Fourth of July travel period, compared with nine alcohol-related deaths recorded during the New Year's celebration.

"Most people might not be aware that the Fourth of July can be just as dangerous a time on the road as New Year's Eve," Ryan said.

Ryan also noted that during 1994, the number of DUI arrests in Illinois declined by 5.6 percent to 43,547. This continues a long-standing trend that began in 1986 when Illinois passed one of the toughest anti-drunk driving laws

in the nation.

On average, 3,600 people were arrested every month during 1994. In 1993, the last year in which statistics are available, 629 lives were lost on Illinois roads due to alcohol-related traffic crashes.

"These are sobering numbers," Ryan said. "The statistics included in this book should serve as a warning to everyone that we still have a considerable drunk driving problem in Illinois."

For the first time, the annual DUI Fact Book also includes statistics from the 6-month-old "Use

It & Lose It" law, which Ryan initiated and shepherded through the General Assembly last year.

Through June 22, 1,429 "Use It & Lose It" license suspensions have been issued to young drivers for driving after consuming even the slightest amount of alcohol. Young drivers face a 30 month suspension for a first offense under "Use It & Lose It."

The law requires the Secretary of State's office to suspend the driving privileges of motorists under age 21 if they are suspected of driving after having consumed any alcohol. Minors can lose

their licenses even if a blood-alcohol content test indicates that the driver's BAC is less than the .10 percent drunk driving limit established for adults.

Helping Ryan unveil the 1994 DUI Fact Book were Laura Murphy of Orland Park, an employee of the Secretary of State's office and the victim of a drunk driver, and a group of high school students from Jerseyville who produced an anti-drunk public service announcement that won a statewide contest sponsored by Mothers Against Drunk Driving of Illinois.
