From the Left Hand
by Paul Rosen

If you want to catch a thief through a window, you wouldn't wait until you actually had a thief by the scruff of the neck before you do it, would you? A couple of weeks ago, that's what Mayor Nicholas B. Blase did. It was a big deal at the time, and it's still a big deal today.

The mayor's attention to crime prevention is just one of the reasons why so many people feel good about living in Niles. We have a mayor who cares, and he's making a difference. I'm proud to be a part of this community.

Chicago architectural river cruise

Calendar of Exhibits at North Pier

Chicago's architecture is on display in a variety of exhibits at North Pier. The exhibits include a model of the Chicago River, a scale model of the Adler Planetarium, and a display of the city's famous riverfront architecture.

Chicago's historical and cultural significance is highlighted in this exhibit, which features a detailed model of the city's famous riverfront architecture. Visitors can explore the history and evolution of the riverfront, including the development of the Chicago Riverwalk and the construction of the Millennium Park.

The exhibit also includes a display of Chicago's famous riverfront buildings, including the iconic John Hancock Center and the Willis Tower. Visitors can learn about the design and construction of these iconic buildings and the role they played in shaping the city's skyline.

Additionally, the exhibit features a display of the city's famous riverfront parks, including Grant Park and Lincoln Park. Visitors can learn about the history and design of these parks and the role they played in the city's development.

The exhibit also includes a display of the city's famous riverfront restaurants and hotels, including the 8726 Hotel and the Langham Place. Visitors can learn about the history and design of these establishments and their role in the city's cultural landscape.

The exhibit is open daily from 10 a.m. to 5 p.m. and admission is free. It is located at North Pier, 2200 N. Lake Shore Dr., Chicago.

For the first two days laying flat in bed. In 1983, a patient having an open heart surgery had a pacemaker implanted into his eye spent five days in the hospital. The trend toward earlier discharges is one way the experts have responded to the increased demand for quality care and to the rising costs. Hospitals and other providers are constantly looking for new ways to improve efficiency and reduce costs without compromising the quality of care.

In 1993, a patient having open heart surgery spent two days in the hospital. This is a significant improvement from earlier years. As technology advances, the hospital stay continues to decrease.

The Real Estate Institute at Oakton Community College is offering a new program for real estate professionals. The course is designed to provide a comprehensive overview of the real estate industry and to help individuals prepare for the Real Estate License Exam.

Oakton is offering two courses for the first time. The mornings course will focus on the technical aspects of real estate, while the evenings course will cover the business and legal aspects. The courses will be offered in a convenient format to accommodate the schedules of busy professionals.

For those interested in learning about real estate, enroll in Oakton’s Real Estate License Exam courses. The program is designed to help students prepare for the Real Estate License Exam and to provide a comprehensive overview of the real estate industry.
