Unabomber search focuses on Niles, Maine schools

FBI interviews teachers of 1970's students

The nationwide search for the Unabomber now includes teachers at North Shore Elementary School on Glenview Road, East Maine High School on Glenview Road, and Maine North High School. The FBI is especially interested in teachers who actually taught the Unabomber at some point in his career. It is not known exactly when the Unabomber went to Maine Township High School, but they are all included in the search.

Glenview Air Base commemorative

There's an old saying, "Old soldiers and sailors never die, they just fade away." The staff of the Glenview Base Closure Magazine is determined that this will not happen when Glenview Naval Air Station has its Closing Ceremony September 10. The staff of the magazine is working tirelessly to make sure that the history of the base is preserved and remembered.

Fire Safety Day demonstrations

Fire Safety Day demonstrations took place last Saturday, Aug. 26 at Golf Mill Mall. Local firefighters displayed their equipment and demonstrated the safety rules. Situations such as Niles firefighers demonstrating the proper way to use a fire hose.
Proceeds from the event benefit the American Heart Association and despite the warm temperature, little stogie copy

PASSAGES LEC TURE DISCUSSES CHICAGO'S HISTORY

More home safety tips from ComEd

Suburban Home

Believe it or not, there are some fairly common, yet surprisingly dangerous, home hazards that you may not be aware of. Here are some tips to ensure your safety:

- **Damp floors and hands**: Keep your hands dry and electrical appliances dry. If you are handling electrical equipment, make sure it is unplugged. In particular, avoid using electrical appliances while standing on damp floors.
- **Hot water**: Check the water heater and literally leave you in the dryer has a defect, don't fish it out.
- **Buzzing**: Don't fish it out.
- **Certain practices**: Observe certain precautions. The hazards exist in the bathroom.
- **Insulated**: Really well-insulated, you should have been "engineered" for guard in potentially dangerous areas. He or she is especially conscious of what is safe. In industrial surroundings, generally seem more dangerous incidents happen at home than in an industrial environment.

Always keep your hair dryer so that your hair more efficiently.

With Weather-Master, you can get it all at:
