

From the Left Hand

by Bud Besser

Three years ago we marched in Washington with several thousand women. It was a pro-choice march not too dissimilar to Monday's Million Man March.

We stood in the mall between the Washington monument and the Capitol building listening to tens of speeches from march leaders. But unlike Monday's non-marching march, we filed out of the mall and wended our way down Pennsylvania Avenue past the White House.

How much good do the marches do? They certainly call attention to the cries of the marchers. The marchers grab the front page headlines and dominate the lead stories on the television news shows. And the huge throngs must impress the people who make the laws in this country.

There's a more important "solidarity" reason for joining together in these protests. The marchers have a feeling of camaraderie which bolsters their efforts. There's a "them" against "us" feeling which is not unlike the psychology of team sports. Alone you can't win the game. But together, you... feel you can accomplish...you can win.

Two incidents mar school holiday

By Rosemary Tirio

Monday, Oct. 9, was Columbus Day, the first school holiday of the year. But sex offenders and pedophiles take no holidays.

Two incidents were reported in Niles three hours apart and within a mile of each other, as children were enjoying their day off.

An 11-year-old girl walking eastbound on Ballard Road from Milwaukee Avenue around 1 p.m. noticed a man in a black and light brown Blazer or Bronco-type vehicle with tinted windows looking at her.

When the driver of the vehicle pulled into a parking lot and turned around, the victim became frightened and cut through a yard coming out at Churchill and Washington where she again saw the subject looking at her.

The girl then ran to a residence in the 9100 block of Washington and called the police. The suspect fled the area, and police transported the victim to her mother.

The victim described the offender as a balding white male in his 40s, with a fair complexion.

Around 3:45 two 7-year-old girls were playing in a backyard in the 8800 block of Cumberland when a white male around 50 with gray hair, heavy build, medium complexion wearing black shorts and a T-shirt approached them and said he was lonely and

Park to host seminar on expanding cultural programs

Park approves \$975,000 general bond issuance

by Kathleen Quirsfeld

As part of the newly reinstated bonding authority granted to local taxing authorities by the tax cap legislation signed into law in August by Governor Edgar, the Niles Park District approved an ordinance authorizing the issuance of general obligation bonds in the amount of \$975,075 and the levy of a direct tax to pay for the interest on the bonds.

The tax cap law provides that taxing bodies, such as the Park District, cannot increase their spending by more than five percent or the rate of inflation, in any given year.

Park Board President Elaine Heinen urged all present at the Board's meeting to vote on November 7, and to lobby their state legislators not to vote for rescission of the tax cap bill as Rep. Cal Skinner of Crystal Lake is proposing.

"He thinks that we should go out to referendum every time we need a new roof. He doesn't know how costly a referendum

is," Heinen said. Peter J. Koukos, Vice President, Public Finance at Mesirow Financial told the Board that approximately \$600,000 of the money to be generated by the

bonds would be invested in open market securities at almost the same rate of interest that will be paid on the bonds. In another matter, and

Pepper spray ends parking lot dispute

by Rosemary Tirio

A dispute erupted in the parking lot of the Village Crossing Shopping Center, 5600 W. Touhy, around 12:25 p.m. Oct. 9 when a 37-year-old Chicago woman sped past a Chicago couple and their child in her 1986 Ford van as they exited the supermarket.

The complainant, a 21-year-old Chicago man, said that after an exchange of words and gestures, the offender sprayed the victims with pepper spray from a key ring canister, striking the 21-year-old woman in the face but missing the man and the child.

The offender fled the scene, but police learned through a license plate check that she is employed at a mill in the 7300 block of Harlem Avenue where they questioned her about the incident.

The offender said that the victims were swearing at her and that the man tried to block her parking space when she tried to leave and was spitting on her van.

When the offender left her van, the victim approached her in a menacing manner shaking his fists in the air. That was when she

Oak Park dedication ceremonies

On Sunday, Oct. 1, the Niles Park District dedicated Oak Park, the former site of Oak School. Park Board President Elaine Heinen led the ceremonies of unveiling the plaque and cutting the ribbon on the playground equipment.

"Today is a day that we can all be proud of. The Niles Park District worked hard with the residents and the Village to make this park beautiful. Superintendent of Park Services Mike Rea and his staff should feel great joy whenever they look at the park," stated Heinen.

Listed from left to right in the picture is Commissioner Val Engelman, Vice President Myrna Breitzman, Commissioner Rick Sheridan, Park Board President Elaine Heinen, Mayor Nicholas Blase, and Trustee Louella Preston.

We want your comments... Quickly!!

At every Niles Park District facility near you, there are the new quick comment forms. The idea was formulated for two reasons: (1) to allow our customers the chance to tell us what they think of their experience without taking a lot of time; and (2) to reaffirm our emphasis on customer service. The sheet has several questions which can be answered by writing an "X" on the line and an area to write further about your experience. The comment forms are located at every facility in which a program or activity takes place. All forms are reviewed weekly by Administrative staff. Sheets with names and either a phone number or address will be responded to by a staff member.

We hope that the next time you come to the Niles Park District you will take a minute to tell us about your experience. Help us make your Park District the best place for you and your family's leisure experiences.

County funds aid repairs for alley

A long-neglected alley in the unincorporated area of Maine Township is on the road to being repaired, now that the Cook County Board of Commissioners has approved \$163,184 in Community Development Block Grant funding.

The announcement was made at a press conference recently held by Maine Township Supervisor Mark Thompson and Cook County Commissioners Peter Silvestri and Herb Schumann.

"This alley is a problem the township has struggled with for a very long time," Thompson said. The grant allowing the alley to be repaired represents "a real team effort by a lot of people," he added.

Residents along the private alley just east of Sumac Road came to the township for help because no association or agency had been responsible for maintaining the alley since the area was developed in the 1960s. The township worked with residents to apply for block grant funds to pay for repairs, after which the township's highway department would take over regular maintenance of the area. The grant funding was approved last week by a unanimous vote of the Cook County Board.

The 17-foot-wide alley runs 950 feet between Emerson Street and Noel Avenue.

DesPlaines to replace Behrel parking deck

The John J. Behrel parking garage, built in downtown Des Plaines in 1974 to attract shoppers to the area, will be demolished early in 1996.

Long regarded as an eyesore, the 385-car, four-story structure was built for about \$2.4 million as the first phase of a development that would have included pedestrian bridges across the railroad tracks had the financial backing for the project not fallen through.

The City Council, after a five-year debate, has agreed to open the six-acre site to developers. City manager F. Wallace Douthwaite said the city owns almost all the land and will examine various proposals.

Work will start in November on temporary street parking near the deck for commuters, shoppers and office workers.

Cook County Treasurer's office extends hours

The Cook County Treasurer's Office, which has completed the mailing of all 1.5 million second installment real estate tax bills, has announced extended office hours to accommodate property owners who wish to pay their property tax in person.

Cook County Treasurer Edward J. Roswell said that effective Monday, October 30, the daily office hours will be 8 a.m. to 6 p.m. at 118 N. Clark Street and the five suburban offices at 1500 Maywood Square, Maywood; 16501 S. Kedzie, Markham; 5600 Old Orchard Road, Skokie; 10200 S. 76th Ave., Bridgeview; and 2121 Euclid Ave., Rolling Meadows.

Roswell said that all six of his offices will be open Saturday, October 28, for the payment of real estate taxes from 9 a.m. to 1 p.m.

The penalty date for the payment of the second installment is Friday, November 3. All offices will be open from 8 a.m. to 6 p.m. that day, Roswell said.

Roswell urged property owners to make their payments by mail to avoid long lines. Taxes paid after the penalty date will be subject to 1.5% per month penalty.

Any Cook County property owner who has not received his or her tax bill should contact the Treasurer's Office at (312) 443-5100, or make a personal visit to one of the six offices. Duplicate bills will be issued.

Bone marrow drive provides opportunity to save a life

Congregation B'nai Jehoshua Beth Elohim, Glenview, and the North Suburban Jewish Community Center, Northbrook, have joined forces with the Leukemia Research Foundation to sponsor a bone marrow registry drive, on Sunday, Oct. 29 from 10 a.m. to 2 p.m., at the congregation's building, 901 Milwaukee Ave., Glenview. The drive seeks to discover life-saving matches for leukemia patients waiting for a bone marrow transplant.

The bone marrow screening will be one of many projects undertaken by Temple B'nai Jehoshua Beth Elohim on their annual Mitzvah Day. On this day congregants are asked to participate in one of 30 service projects in the city and suburbs. Mitzvah day this year coincides with the national "Make A Difference Day," a Points of Light Foundation Program.

The opportunity to save a life takes only 30 minutes and a simple test using approximately two tablespoons of blood drawn from the donor's arm. Donors must be between the ages of 18-55 and in good health.

Once they are registered in the

National Registry, a donor is considered a potential match until they reach 55.

Participants will give hope to thousands of children and adults through the National Marrow Donor Program which matches potential donors with those suffering from Leukemia, a malignant condition in which the overproduction of white blood cells eventually interferes with the function of vital organs, and if uncontrolled, causes death. It is the most common cause of death among young people, second only to accidents. More than 19,000 persons will die from leukemia annually.

Questions about the program can be answered by the Leukemia Research Foundation at (708) 982-1480.

AAL Program offers tips for crime prevention

Today no one is immune from the possibility of theft or violence. Whether someone is a victim or a victor over crime may depend on what that person knows.

Together Against Crime will be presented by AAL Branch 3088 of Niles on Sunday, Oct. 22 at 4 p.m. at St. John Lutheran Church, 7429 Milwaukee Avenue.

This program helps people identify their personal risks and the risks in their community that could make them vulnerable to crime. It also suggests steps to take to reduce those risks.

For more information on the AAL Together Against Crime program, contact Arletta at (708) 647-9867.

Oklahoma City nurse visits Resurrection Medical Center

Mary Ann Schaefer, R.N., Manager, Family Birthplace at Resurrection Medical Center, looks on as Sister Donna Marie, C.R., Executive Vice President and Chief Executive Officer, greets Marquita Johnson-Bailey, R.N., Administrative Director of Nursing at Saint Anthony Hospital in Oklahoma City. The hospital treated many of the victims of the bombing of the city's Federal Building earlier this year.

Oklahoma City nurse Marquita Johnson-Bailey, Administrative Director of Nursing at Saint Anthony Hospital, recently visited Resurrection Medical Center. Saint Anthony Hospital treated many of the victims from the bombing of the city's Federal Building earlier this year.

During her visit, Johnson-Bailey toured Resurrection's nursing units and met with members of the nursing staff. She also gave the medical center a book containing photographs and accounts of the rescue efforts and events following the bombing. The book was signed by Cathy Keating, the first lady of Oklahoma.

In May, Resurrection

employees Mary Ann Schaefer, R.N., Manager, Family Birthplace, and Corrine Krueger, Assistant Staffing Coordinator, traveled to Oklahoma City with gifts donated by Resurrection nurses. Over 450 items ranging from bath powder and books to mugs and Chicago memorabilia were distributed to the staff at Saint Anthony for their efforts following the bombing.

The nurses at Saint Anthony and the other hospitals in Oklahoma City spent a tremendous amount of physical and emotional energy providing care after the disaster," Krueger said. "The gifts were a way for us to recognize the dedication and professionalism of our fellow nurses."

St. Francis Hospital offers Chest Pain Test

St. Francis - Hospital of Evanston marked another first in the fight against heart disease on Sept. 28, when physicians in the hospital's Chest Pain Emergency Center began using Cardiac Troponin-I, a biochemical marker that helps determine within minutes whether a heart attack is occurring in patients with chest pain.

Approved by the Food and Drug Administration in late July, Cardiac Troponin-I is a diagnostic blood test specific to cardiac muscle. The test is manufactured by Pade International of Deerfield, IL.

"Because early intervention is critical to patients who may be suffering from acute myocardial infarction," says Glenn Aldinger, M.D., chairman of St. Francis' Emergency Department, "the use of Cardiac Troponin-I will benefit patients by providing a more timely diagnosis. This will allow physicians to quickly establish whether the best treatment choice is the use of thrombolytic drugs or emergency angioplasty, both of which are readily available at St. Francis."

Cardiac Troponin-I has an analysis time of approximately 10 minutes that facilitates the reporting of STAT results back to the Chest Pain Emergency Center in as little as 30 minutes. These quantitative results can be delivered in time to complement other diagnostic tools such as patient history and ECG. As a result, physicians will find cardiac Troponin-I to be an invaluable tool in efficiently managing patients who may be experiencing acute myocardial infarction.

Avenues to Independence new name for NSAR

This summer, the Northwest Suburban Aid for the Retarded (NSAR), an agency supporting individuals with developmental disabilities since 1953, announced the change. "The name change occurred," said Avenues/NSAR Executive Director Robert Okazaki, "because for many reasons our old name no longer described who we are today."

Nearly 200 adults living in the suburbs and Chicago receive residential, vocational and community employment programming from Avenues/NSAR. The organization is headquartered in Des Plaines, with workcenter and residential sites in Wheeling, Park Ridge, Arlington Heights and Des Plaines.

Okazaki believes it will take some time for the community to recognize that Avenues to Independence was formerly NSAR. The agency intends to use both names at all special events and on all correspondences for the next year.

If anyone has any questions about the change they can contact Avenues (NSAR) at (708) 299-9720.

Laser procedure to relieve snoring and sleep apnea

A new laser procedure that alleviates snoring and sleep apnea is available at Resurrection Medical Center, 7435 W. Talcott Ave. The Laser Assisted Uvulopaloplasty (LAUP) procedure utilizes a CO2 laser to reshape the soft

palate and uvula, which hang from the back of the roof of the mouth and can block the airway during sleep.

Both snoring and sleep apnea, a temporary cessation of breathing, may occur if the soft palate is too long and blocks the airway. If this condition is mild, it produces only loud breathing or snoring. If it is more severe, it can cause intermittent blockage or sleep apnea.

Stroke Caregiver Support Group

A Stroke Caregiver Support Group will meet from 7 to 9 p.m., Thursday, Nov. 2, in Room G962 of The Evanston Hospital, 2650 Ridge Ave.

Many stroke patients receive daily care from family members or friends. This support group is designed for family, friends and caregivers of stroke patients. It is a discussion group dealing with coping and adapting to the changes in one's life that have been brought on by a family/friend's stroke.

The group is open to the public free of charge and meets the first Wednesday of every month. For more information, call Diane Fields at (708) 570-2030.

In the LAUP procedure, the laser is used to reshape the soft palate, creating a higher and smaller uvula, thereby opening the airway so patients can breathe better during sleep. The procedure is performed under local anesthesia in the Outpatient Department.

Patients undergo a full ear, nose and throat examination as well as sleep studies to determine whether the LAUP procedure is appropriate. Treatment is completed over a series of visits. Patients experience nothing more than a sore throat after the procedure.

To learn more about the LAUP procedure or to schedule an appointment, call (312) 792-5257.

Our maternity services are very well-rounded.

(The same thing could be said for Ann Murphy.)

Mom and baby need special care throughout pregnancy. That's why we've put together an expert team of maternity professionals.

St. Francis Hospital's prenatal educators, board-certified OB/GYNs and mother-baby nurses are just a few of the professionals who provide comprehensive medical care and compassionate support for expectant moms throughout pregnancy and delivery. After hospital discharge, home health nurses and lactation consultants are available for visits during the first few weeks at home. All this skill and support is especially comforting to new moms as they spend less time than ever in the hospital.

So how would we describe our maternity services? (Hint: see Ann.)

Red Cross offers safety tips for winter drivers

Slush, sleet, snow, ice and freezing rains are the stuff that Midwestern winters are made of, and they are lurking just around the corner. The American Red Cross, in recognition of National Winter Storm Safety Week, advises those who must drive in intense weather to prepare for whatever situations may occur.

How would you protect yourself and your family if the car stalled far from the nearest help? The Red Cross suggests carrying a winter storm emergency kit in the trunk of your car. The kit should contain such common items as:

- shovel
- tools (pliers, screwdriver, adjustable wrench)
- sleeping bags or blankets and winter clothing (caps, mittens and boots)
- food supply of high-calorie, non-perishable foods (canned nuts, candy, etc.)
- matches and candles
- windshield scraper
- first aid kit and pocket knife
- flashlight and transistor radio with extra batteries
- two empty three pound coffee cans (used to burn candles or for sanitary purposes)

To ensure your safety, always stay with the vehicle in a winter storm. Emergency crews will be more likely to spot the car, and frostbite and hypothermia are more easily evaded. Avoid extended exposure to the cold and try not to overexert by attempting to push the car or shovel heavy snow drifts.

The American Red Cross works around the clock, 365 days a year providing community disaster preparedness and relief, safety and health education and services to military personnel and their families.

For more information about cold weather safety or for a free copy of "Are You Ready for a Winter Storm?" or "Safe Steps for Winter Weather" brochures, contact your local Red Cross chapter.

Ballard to host annual Trick or Treat

Children up to age 12 and accompanied by parents are invited to Ballard, a healthcare residence in Des Plaines, for a safe Halloween on Tuesday, Oct. 31, from 5 to 7 p.m. Ballard is located at 9300 Ballard Road, between Potter Rd. and Greenwood Rd. For more information or directions, call (708) 294-2300.

The children will follow what the residents have named the "Trick-or-Treat Trail," visiting a Haunted House and more than a dozen Halloween booths designed and manned by Ballard residents. At the trick-or-treat booths, children can pick up small gifts as well as traditional Halloween candies. The residents, who have been planning the event for weeks, will be dressed up as witches, gypsies, ghosts and other Halloween characters. To contribute to the Halloween preparations, children from Kiddie Junction in Des Plaines will be coming over prior to the event to make decorations with the residents.

Regency Nursing Centre honors Alzheimer's Graduation class

Regency Nursing Centre held a very special celebration on September 28. Twenty-one members of the Regency Nursing Centre staff have completed a special Alzheimer's training program - "Pieces of the Puzzle." They were presented certificates of achievement. The course was given by instructors from the Rush-Presbyterian-St. Luke's Medical Center. The graduation was held today on Regency's Alzheimer Unit.

Catherine Schneider, R.N., M.S., Director of Clinical Operations for Rush-Presbyterian-St. Luke's Medical Center distributed pins and certificates to the class.

"Regency is very proud of the dedicated and hardworking staff that is involved with our Alzheimer's Unit. The staff has successfully completed a training program on caregiving for persons with dementia. The class included the psychosocial needs of residents, communication, activities of daily living, how to refocus behaviors, mobility, therapeutic activities, family

support and staff stress issues," states Kathleen Clyde, Director of the Alzheimer's Unit.

Regency's Alzheimer's Unit is recognized as one of only 36 Alzheimer's Units in the nation to be accredited by the Joint Commission. The longevity of the staff and the quality of care that they are providing are some of the key factors contributing to the home's high rating. Employees are selected on the basis of their qualifications within their specialized areas, as well as their interest in and knowledge of Alzheimer's Disease. Regency is staffed with fully licensed professionals specifically trained to understand and help persons with Alzheimer's Disease and their families.

Bounding toward retirement: baby boomer planning strategies

If you're one of the 76 million Americans born between 1946 and 1964, the Illinois CPA Society recommends you develop a strategy to ensure you'll have sufficient income to accommodate your needs during your retirement.

Social Security
Contrary to what most baby boomers think, some experts believe that Social Security still will be available when boomers retire. If those experts are correct, the problem will be that there may be less money to go around or that the benefits you receive will be taxed more.

The amount of Social Security you receive is based on how much you earn during your working career. Generally, the more you've earned, the more you can

collect. However, boomers should plan to supplement their benefits with other sources of income in order to maintain their pre-retirement lifestyle.

For an estimate of your future benefits, call the Social Security Administration at (800) 772-1213 and request a Personal Earnings and Benefit Estimate Statement.

Stop the flu before it stops you

Public health experts agree that vaccination before each annual flu season is the most effective measure to reduce incidence and severity of influenza.

Influenza is an upper respiratory illness that may cause fever, muscle ache, and sore throat, or may lead to more serious illnesses such as pneumonia and other respiratory-tract complications, especially among the elderly and those who have chronic health conditions.

Flu shots are a good investment. Throughout the U.S., over 383.3 million work and school days are disrupted annually due to the flu. Anyone who comes in contact with large groups of people is at increased risk.

Visiting Nurse Association North will be offering flu shots between October 3 and November 11 at 48 locations throughout the north and northwest suburbs and the north side of Chicago.

The flu shots will be administered by VNA North Registered Nurses and the cost is \$10 per shot. There is no charge for people who have Medical Part B as

their primary insurance. No appointment is necessary. Volunteers from the community will be assisting as receptionists at each site.

For clinic schedule/location, call (708) 965-6348; a flu shot clinic for your organization, call Wilma Nachsin, (708) 581-1717; medical information re: flu shots, call (708) 581-1717 for flu shot nurse.

Smart questions to ask reverse mortgage lenders

Everyone's talking about reverse mortgages these days. They're a great deal for homeowners age 62+ homeowners on a fixed income. Cash from your home equity, and no payments required until you sell your home or transfer ownership.

Some reverse mortgage programs look great at first glance - but are you asking the right questions? Interest rate is not the only factor you should look at. Do you know all the terms and all the costs, including many that are often somewhat hidden? Use this handy list of questions to thoroughly assess if a reverse mortgage program is right for you.

Ask your potential lender:

1. What types of fees do I have to pay and what's the amount of each fee?

- An origination fee?
- Annual fee?
- Servicing fee?
- Mortgage insurance premium?

• A fee when I close my account?

2. What interest rate do you charge?

3. Do you share appreciation of my home? (Some programs are set up so that you not only pay on the money borrowed, but also have to share the appreciated value of your home with the lender.)

4. When do I have to pay the loan off?

5. How do I access cash? Can I get it when I want it, and how long does it take to get it when I do want it?

6. How long does it take to process the paperwork from application through closing?

7. What income and credit requirements do you have?

8. What age requirements do you have?

Glenview Terrace helps gain physical independence

During the last 10 years, physical therapy has been one of the fastest growing fields within health care. It is no wonder. With advances in modern technology and physician practices, we are living longer. Our bodies in the interim, however, are breaking down through either normal wear and tear or a traumatic injury or illness.

Physical therapy's goal is gaining independence and functional mobility for either a chronic illness or a traumatic injury or illness. At Glenview Terraces' Transitional Care Unit, that could be through hydrotherapy, hot or cold packs, massage (soft tissue mobilization), TENS (transcutaneous electrical nerve stimulation) or exercise. All of these modalities work with range of motion, circulation, flexibility or wound care so that residents can increase and maintain their mobility and physical and emotional independence.

"Physical therapy within a long and short term setting revolves around the post stroke needs of a resident and after fractures or hip replacements," says Marte Wiedlin, PT, and Rehabilitation Manager. "Our goal is to regain motor skills such as walking and transfer training which deals with obstacles the residents may now have to work with. Transferring from bed to wheelchair, stairs or curbs."

In addition, physical therapy might be needed for:

- postoperative conditions such as joint replacement, abdominal or back surgery
- neuromuscular involvement such as loss through stroke, spinal cord injury or Cerebral Palsy
- orthopedic conditions such as fractures, spinal deformity and dislocations
- degenerative conditions such as Parkinson's Disease, Multiple Sclerosis, Alzheimer's Disease and Arthritis
- wound care healing from either a surgical incision or bed sore
- sports injury
- pain management

According to Ms. Wiedlin, each new admission to Glenview Terrace or to the Transitional Care Unit receives a physical therapy assessment; the physician is then contacted. All physician

One of Jennifer and Lisa's favorite things is the twinkle in Grandma's eyes. We intend to keep it there.

When a person's capacities are diminished by age or illness, that doesn't mean they've lost their thirst for life. Or their love of surprises. Or their need to maintain the same kind of dignity they enjoyed when living independently.

At Glenview Terrace, we offer skilled nursing care—with the human touch.™ Our facility, both inside and out, is modern, elegant and comfortable.

Our medical and nursing staffs are all superbly trained professionals who first, respect their patients and second, love their work.

Our daily programs are a mix of medical support services and planned activities designed to help residents live full, complete lives during their stay.

After all, there's nothing on earth like the twinkle in a grandma's eyes. Except, maybe, her smile.

Retired and working? Time for a reality check

Working beneficiaries whose benefit amounts depend on the earnings estimate they provided Social Security on the annual earnings report they filed last April should be sure to review their current earnings to see if they have changed. If so, the change should be reported to Social Security immediately, according to Nancy Dowell, Social Security Manager in Des Plaines, IL.

"Because it is difficult to estimate exact earnings for the year, we encourage beneficiaries who work to call us to adjust their estimated earnings if they get a raise, work overtime, or otherwise increase their income," Dowell stated.

Every year about a million people receive more money from Social Security than they were

entitled to receive as a result of unanticipated earnings. Most of these overpayments occurred because beneficiaries who work while drawing benefits earned more than they had estimated and their income exceeded Social Security's annual limits. The annual limits for 1995 are \$8,160 for persons under age 65, and \$11,280 for persons between age 65-69. If you are still working at age 70, the earnings limits do not apply so you no longer have to report your earnings to Social Security.

People who are overpaid by Social Security are required to return the money, either by direct refunds or by having their benefits reduced to cover the overpayment.

It's easy to report excess earnings and other events that would cause you to be overpaid. Visit the nearest Social Security office or call on the toll-free number, 1-800-772-1213, business days between 7 a.m. and 7 p.m.

King Home men remember WWII

Mr. and Mrs. Henry Suzukida (shown with Ten Twenty Grove health care nurse Marcia Mikkelsen) spent much of the war interned in a camp for Japanese Americans.

Out of 56 men in residential living at Evanston's King Home, 31 told of their experiences in World War II at a recent commemoration. Some stories were of heroism, some of death and horror, some were poignant, or funny, and most were the stories of men doing the job they'd been given to do until they could go home again.

Richard Douglass, Army, was on the editorial staff of Yank Magazine.

Bud Goff, Navy, remembered when he boarded the Japanese ship Negato at war's end. This battleship led the task force against Pearl Harbor and at the end of the war, it was the only battleship still afloat. He said, "When the war ended, my death knell, that of our crew, and two million other servicemen was canceled."

The variety of experiences of the King Home men has created a remarkable community of intelligent and experienced gentlemen. They have all chosen the King Home for its outstanding value, excellence in the health services, and its location near downtown Evanston. Call (708) 864-5460 for a free brochure.

Homesharing Program seeks participants

Council for Jewish Elderly's Homesharing Program will hold an information meeting on Wednesday, Oct. 25 from 11 a.m. to noon at 3003 W. Touhy, Chicago for those interested in this unique program.

Homesharing is a creative housing option that matches people with extra space in their homes with people who need an affordable place to live. One member of each homesharing pair must be at least 60 years old.

That individual is matched with another applicant of any age whose needs are compatible. This housing situation appeals to many college students or young professionals who receive reduced rent for providing shopping or yard work assistance.

Council for Jewish Elderly's professional staff screens all applicants and after a thorough assessment process, match applicants to find the most

compatible people to share a home together. Mutually satisfactory agreements are reached on such issues as smoking, pets, kitchen privileges and rent.

To register, or for more information, contact Council for Jewish Elderly's Homesharing Program at (312) 508-1000.

Is your credit report accurate?

Jeffrey Cardella
Edward D. Jones & Co.
Niles, IL

In today's world, your credit history is sacred. You can't rent an apartment, apply for insurance or obtain a credit card, car loan, or mortgage without a check of your credit history.

But you may not be aware of all the other companies and individuals who can gain access to your credit records. If you apply to a university, try to join a country club— even if you're a candidate for a new job—these organizations and companies also may be checking out your credit report.

What will they find in your report's history of your payments of loans, mortgages, credit cards and other debt. They will learn not only whether you made all your regular payments, but also how prompt you were. Judgments, bankruptcies, liens and other unfavorable events are there.

No problem, you say. You've always paid your bills on time, you never carry balances on your credit cards, and you've never been sued. So what if people are checking your records?

According to a recent report in Personal Finance magazine, up to 33 percent of all credit reports contain serious errors. These include incorrect tax identification numbers, limited data or words make mistakes that can be damaging. These very mistakes can result in your being denied a car loan, mortgage or even a new job.

Obviously, it's to your benefit to make sure your credit records are correct, and it's pretty simple to do so. There are three major credit reporting bureaus—TRW, Equifax and Trans Union—and all will provide you with a copy of your credit report. The report is free if you've been denied credit within the past 60 days; otherwise, there is generally a small charge. However, TRW provides one complimentary report each year.

To obtain a report, you must submit a written request, and each credit bureau has specific requirements about what information to include in your request. All three bureaus provide recorded phone messages that spell out all the details of obtaining a credit report. Here are the phone numbers:

TRW: 800-682-7654
Equifax: 800-685-1111
Trans Union: 216-779-7200

How do third parties get copies of your report?

They must submit requests with your signature approving release of information. However, you may sometimes give this approval unknowingly—for example, when you apply for credit. Offers of "pre-approved" credit, according to a TRW representative, can be misleading. Signing an application for a "pre-approved" loan or credit card simply means you agree to a credit check. If your credit report is negative, you'll probably will be denied.

These national credit bureaus store credit information as reported by your creditors. Each bureau's report may contain different information. If you find any errors, correct them immediately. To do so, you typically must file a dispute with the credit bureau and prove the error. Even if there are no apparent mistakes now, it's a good practice to recheck your credit reports during your annual financial check-up.

Credit is a way of life for most Americans. It's not only your responsibility to use it properly, but also to make sure it's recorded properly.

Planning on retiring in 1995? Contact Social Security now

If you're age 62 or older and thinking about retiring any time in 1995, you should contact Social Security now to discuss your plans. Social Security rules permit people to work and receive retirement benefits. So, it could be to your advantage to have your benefits begin now, even if you don't plan to retire until later in the year. In some cases, the choice of retirement month could mean additional benefits for the beneficiary and his or her family. For your application to be effective now, you should file for benefits any time before the last day of the month. For additional information or to make an appointment to discuss your plans, call Social Security's toll-free number, 1-800-772-1213, any business day between 7 a.m. and 7 p.m. The telephone lines are busiest early in the week and early in the month, so it's best to call at other times.

When To File For Benefits
Here are a few helpful points:
If you are age 62 or older and plan to apply for Social Security retirement benefits, contact Social Security in advance of retiring to see which month would be the most advantageous to start re-

ceiving benefits.
If you plan to stop working at age 62 and to begin receiving retirement benefits immediately, contact Social Security to file your application three months before your birthday.

If you work and your annual earnings are high, contact Social Security to see if you will be eligible to receive any benefits. During your first year of retirement, the amount of earnings you may have and still qualify for some benefits is higher than it will be in subsequent years. So, it pays to check.

If you are age 62 or older, work, and have substantial earnings, you may still qualify for some Social Security benefits. Check with your local office for more information. In 1995, beneficiaries under 65 may earn up to \$8,160 with no reduction in Social Security benefits. Beneficiaries aged 65-69, may earn up to \$11,280 with no reduction in Social Security benefits. If you are 70 or older, earnings do not affect your Social Security benefit payments.

Hats were flying at Edens Bank Senior Picnic

Edens Bank and the Wilmette Seniors Club held their annual picnic in beautiful Gilson Park on August 31. With free food, gifts, and entertainment the Wilmette seniors were treated to a good time.

This year, the group was entertained by the multi-talented Kirsten Synnestevedt. Mrs. Synnestevedt, a Wilmette native, entertained the seniors through a hat and song dance routine. By alternating songs with narration, she explained the various details and historical importance of each hat in her wide and varied selection. Mrs. Synnestevedt has degrees from Julliard Dance School, Syracuse University, and the University of Iowa. She has performed coast to coast and has sung the National Anthem at Wrigley Field.

This year's picnic was sponsored for the third year by

Edens Bank. Edens Bank offers seniors a free membership to the Wilmette Seniors Club to all seniors 55 years or older who open a free checking account. In addition to membership to the Club, seniors receive a year's

rental of a safe deposit box and no monthly service fees. Edens Bank has four locations at 3245 Lake Ave., 3232 Lake Ave., 915 Ridge Rd., and 9422 Skokie Blvd. in Skokie. The phone number for all banks is (708) 256-5105.

Medicare helps pay for cost of vaccines

With the approach of autumn, it's time for older Americans to take precautions against the pneumonia and flu epidemics that are on the horizon. The cost of both pneumonia vaccinations and flu shots may be covered by Medicare Part B (Medical Insurance) for those age 65 or older.

The Public Health Service recommends an annual flu shot for those over age 65, even if they are generally healthy. Typically, shots are given in the fall or winter. Medicare beneficiaries do not need a doctor's prescription or supervision to have this vaccination covered by Medicare Part B. And, beneficiaries do not pay a deductible or coinsurance amount.

Medicare Part B pays the reasonable approved amount for either shot. If the cost exceeds the approved amount, the beneficiary is responsible for the difference.

Generally, the cost will be paid if the vaccine is provided at a doctor's office or by a hospital, skilled nursing facility, home health agency, rural health clinic, federally qualified health center, outpatient physical therapy provider, or a comprehensive outpatient rehabilitation facility.

However, when Medicare beneficiaries get either vaccination at a community clinic that normally provides the shots free of charge to the public, these beneficiaries should not be charged just because they have Medicare coverage. Medicare Part B will not pay

Social Security began selected statement mailing

If you're age 60 or older, start watching your mail—but not for a sweepstakes announcement. In February, the Social Security Administration (SSA) began mailing its Personal Earnings and Benefit Estimate Statement to everyone age 60 or older who isn't receiving Social Security benefits but has earnings credited to his or her Social Security number. These initial mailings will continue through September. In October 1995 and each year thereafter, statements will be sent to individuals who attain age 60 during the year. By the end of the century, Social Security expects to send the statement to everyone age 25 or older.

The current mailing is intended to help those nearing retirement become better informed about what to expect in Social Security benefits when they retire. The statements show the taxable earnings reported by the worker's employer(s) and the estimated Social Security taxes the worker has paid on those earnings. The individualized estimates are based on the worker's date of birth and the earnings reported for work in jobs covered under Social Security.

Based on this information, the Personal Earnings and Benefit Estimate Statement shows the benefit amount a worker and his or her family can anticipate at ages 62, 65, and 70—based on an individual's current age. If, for example, you are 63, the statement will show the estimated benefits for your current age and for these shots or for shots administered under a plan where an employer arranges to have free shots for all employees.

Medicare Part B pays for pneumonia and hepatitis B vaccinations when the beneficiary is in the hospital, even though the hospital stay is covered under Part A (Hospital Insurance). Now, this is true for flu shots, too.

for ages 65 and 70. At age 68, you'll receive an estimate for both your current age and age 70. For individuals past age 70, the estimate is based only on current age.

Other essential information also is included in the statement. You will have an estimate of benefits that could be payable to you and/or your family if you should become disabled or die before reaching retirement.

You don't have to do anything when you receive your statement unless you believe the earnings information is incorrect. If the error involves earnings reported by your current employer, contact your payroll office or supervisor at work to see about a correction. If the error involves earnings from a former job, report the discrepancy to Social Security. Call the toll-free number, 1-800-772-1213, between 7 a.m. and 7 p.m. any business day to speak with a service representative. Please have your records of correct earnings, W-2s, pay stubs, and tax returns handy when you call. Social Security's phone lines are busiest early in the week and early in the month so, if your business can wait, it's best to call at other times.

If, after you receive your statement, you decide you want to apply for retirement or disability benefits, contact the toll-free number to arrange for an appointment at your local Social Security office.

If you're over age 60, not receiving Social Security benefits, and don't receive a statement by September 30, 1995, call Social Security's toll-free number and ask for a Form 7004 (Request For A Personal Earnings and Benefit Estimate).

Anyone—at any age—can ask for a Personal Earnings and Benefit Estimate Statement—at any time.

"Singin' In The Rain" at Pheasant Run

Grab your umbrellas! Pheasant Run Theatre and director Diana L. Martinez bring a downpour of dazzle to the stage in the singin', dancin' and splashin' spectacle of talent and technical triumph, "Singin' In The Rain." Based on the 1952 MGM classic film, this "Broadway Melody" pays a tap dancin' tribute to all the glitz and romance of Hollywood in the late twenties, the great soundstage era of movie making, the magnificent musicals of Broadway and the birth of talking pictures.

"Singin' In The Rain" tells the story of the dashing Don Lockwood, star of Monumental Pictures, and the demure Kathy Selden, a struggling young actress, who falls madly in love, much to the dismay of Lina Lamont, Don's co-star and adversary. Yet behind their stormy romance lies another pair of star-crossed lovers, sound and film. The history of talking pictures was one of mixed emotions.

"Singin' In The Rain" combines Hollywood glitz and glamour with fundamental Broadway traditions. The Broadway influence comes not only from its creators, but also from the play it was derived from, the 1930's hit "Once in a Lifetime." Betty Comden and Adolph Green wrote and adapted "Singin' In The Rain" for their cohorts of the Broadway Hollywood Connection. From the Hollywood point of view, it was also a musical tribute to the adolescence of the movies and a celebration of MGM.

We welcome you to celebrate with us in our tribute to the birth of talking pictures, the great stars of the silver screen and America's favorite movie. "What a glorious feelin'" we hope you'll have laughin', dancin' and "Singin' In The Rain" with us.

Monet exhibit Tuesday afternoon. It's a stunning show which we highly recommend (while all shows are sold-out we were told early morning ticket-seekers are likely to find cancellations available).

We have no more knowledge of art than most of you. But Monet is for the light and the soft pastel colors on the canvasses are often breath-taking.

We've force-fed ourselves a bit of culture which we ignored in our younger years. We see and hear the Chicago Symphony Orchestra several times a year. We sometimes fall asleep. We often don't like what we hear. But somehow we think a small amount of Mozart and Beethoven must do us some good.

We come from the Benny Goodman-Count Basie-Sarah Vaughan era of musicology. And while conductors Barenboim and Solti are internationally renowned, we still miss the sweet clarinet, the hard-driving band and the dulcet sounds of the Divine Sarah.

expanding on an issue raised earlier this year by the Village Board, the Niles Park District is planning a seminar to make it easier for park personnel to communicate with the many cultural individuals who live in Niles and participate in Park District programs. "We must learn how to deal with these people on a customer service level," Commissioner Myrna Breitzman said.

Consequently, the District is hosting a seminar on November 6, at Recreation Center, 6 to 9 p.m., on learning how to better serve these customers. Linda Lee Cole, a certified speaking professional and an authority on cultural awareness communication, will be the featured speaker. All full-time and part-time park personnel are required to attend.

Sarah Welker, Administrator/Coordinator, said that there were approximately 14 different cultures that currently live in Niles.

The Village Board had also been made aware of this situation by Mary Kay Morrissey, Director of Human Services. Morrissey's office was assigned the task of coming up with a plan that could be followed for Village personnel.

Responding to an erosion problem that was brought to the attention of the Niles Park District earlier this month by a homeowner on the 7000 block of Hamilton Drive, has now created

We've also force-fed ourselves with a bit of opera. Thirty years ago we sat in the peanut gallery at the opera house on Wacker Drive. Ten minutes into the first act I told my wife I'd meet her after the opera was over. I found myself a television set and a baseball game in a nearby tavern which made a great deal of sense. Subsequently, I've been to opera houses in Rome and Tel Aviv and Milan and Paris and Vienna. The staging is often incredible, the costumes are elegant and the stories are absurd.

This force-feeding of "culture" isn't all bad. We've seen many performances of Gilbert and Sullivan with the English D'Oyly Carte performers and find it enchanting. We'd pass up a baseball game to go to a G & S performance.

On the other hand, it's not likely we'd pass up a basketball game to hear Caruso or Pavarotti or Sarah Bernhardt perform. The sweet sounds of Michael's swish, the graceful ballet movements of Scottie and the joyful sounds of Dennis bouncing a guy off the hardwood is really all the culture we need.

other problems for other neighbors of this street. Several residents have complained that a retaining wall constructed to offset the erosion of Sherman Park into the backyard of one resident, is being blamed for water drainage into other yards.

Mike Rea, Superintendent of Parks Services, told President Heinen that a swail in the yard of the resident might be the reason for the water drainage. He said he had been to the homeowner's property and noticed that the land in her yard is higher than park property.

The Board agreed to ask an engineer from the Village of Niles to investigate this problem and provide a recommendation to possibly remedy the situation.

In other business, President Elaine Heinen reported that Jonathan Wedel, Manager of O'Shanter's Food and Spirits, would be leaving to open his own restaurant in Chicago. He has agreed to remain in his present position until a replacement can be found.

The Park District awards were noted at the October meeting. Joan Denning, a 21-year Park District employee was presented with an appreciation award, and Sara Welker and Tim Royster were awarded a 1995 Second Place Kudos Award, at the National Park District National Conference, in San Antonio, Texas.

"It also offers opportunities to provide communications services during natural emergencies like a tornado or flood."

Additionally, he noted, it is an excellent learning tool for young people because it includes information on math, science,
