BB attack shatters 15 car windows

By Rosemary Tirio

Although Santa's judgment about naughty and nice is usually above reproach, it's just possible that Santa made a mistake this year when he left a BB gun under the tree of some little boy or girl in Niles.

Fifteen cars had windows shot out by a BB-type gun between 12:30 a.m. Dec. 31 and 10 a.m. Jan. 2. The damage occurred in roughly a square-mile area bounded by Dempster Street on the north, Harlem Avenue on the east, Milwaukee Avenue on the west and Oakton Street on the south, with Oconto Avenue and Churchill Street bearing the brunt of the attack.

Village of Niles Cold Alert Policy

The Village of Niles has established a Cold Alert Policy which will correspond to the National Weather Service guidelines. When the combination of the wind and temperature goes to 35 degrees below zero or the temperature falls below 20 degrees, the Village of Niles Cold Alert Policy will take effect. This is for emergency weather situations, during non-working hours such as evenings and weekends. Cold related problems during Monday through Friday workdays should be directed to the Code Enforcement Department at the Niles Village Hall at 967-6100.

In the 8100 block of Oconto a 46-year-old data processor reported the driver's window of his 1994 Pontiac Trans Am was broken between 3 p.m. Jan. 1 and 5:15 a.m. Jan. 2. A 1992 Jeep Sport parked in a driveway in the same block also sustained a shattered driver's side window.

In the 8200 block of Oconto, two teachers reported that their cars, a 1991 Mercury Sable and a 1991 Ford Tempo, had windows shattered by BB gun pellets between 11:30 p.m. Jan. 1 and 10 a.m. Jan. 2. A 1992 Geo Tracker belonging to a 24-year-old male

Maine Township OKs 1995 tax levies

The Maine Township Town Board recently approved the township's 1995 property tax levies for the General Town, General Assistance and Road District funds.

The combined levy for the General Town and General Assistance funds totaled \$2,490,968, up just 2.7 percent over 1994 levels.

Township Supervisor Mark Thompson pointed out that the minimal levy hike was just enough to keep up with inflation. The 2.7 percent difference is the cost-of-living increase allowed under the state's tax cap.

"The 1995 levy is simply the 1994 levy adjusted for inflation," Thompson said. "Beyond that, there's really no change at all in the levy itself."

The township's Road District levy decreased by 1.32 percent, to \$1,160,750.

Citizens protest construction plans & closing of Jozwiak Park

Uproar over Niles College development plans

by Kathleen Quirsfeld

Though temperatures outside were frosty Monday night, the body heat from inside the Trident Center burned intensely at some points as Niles residents listened and reacted to a presentation being made to the Niles Plan Commission and Zoning Board.

Over 150 people, including several Niles Park District Commissioners and the School Superintendent of District 73, turned out to hear the Zoning Board determine the fate of the former Niles College property at Harlem, Milwaukee and Touhy Avenues. Most had pointed opinions about what should be allowed there.

Despite the sentiment of the gathering, the Board unanimously voted to permit the zoning request of Pontarelli Development to construct nine condominium buildings which would provide 420 luxury housing units and a public park at 7135 Harlem Avenue.

John Thomas, Vice President of Pontarelli Development, began the presentation by describing the anticipated construction plans, titled the "Renaissance of Niles," for the 21-acre parcel that was

once owned by the Archdiocese of Chicago and formerly known as Niles College.

Thomas stated that the development of a seven-and-a-half-acre parcel that was

Clerk has spree with stolen credit card

by Rosemary Tirio

A check-out clerk at the supermarket in the 5600 block of Touhy Avenue is suspected of withholding the credit card of a customer and then going on a shopping spree with it, according to Niles police.

A senior bank card agent of the bank in the 700 block of East Lake, Cook Road in Buffalo Grove came to the Niles Police Department at 8:40 a.m. Jan. 4 to report that a bank cardholder did not receive her card back after using it at the Jewel store on Dec. 30 around 2:04 p.m.

The offender charged a total of \$2,179 at several stores, restaurants, gas stations and other supermarkets before the card was confiscated at an Old Orchard department store in Skokie.

The bank will attempt to positively identify the user of the card through contacts with sales people and others, police

Democrats honor Bonnie Lindquist on her retirement

Bonnie Lindquist was presented a testimonial plaque and bouquet of roses from Maine Township Democratic Committeeman Andrew Przybylo (left) and Niles Mayor Nicholas B. Blase (right), celebrating her retirement from local government public service and politics. The former Maine Township Trustee was honored by the Maine Township Regular Democratic Organization at their monthly meeting.

Lindquist, the only Democrat elected to Township office so far in the 20th Century, is relocating with her husband, Ken, to southern Illinois. A long time Des Plaines resident, Lindquist has been a party leader for many years.

In honoring Bonnie, Maine Township Democratic Committeeman Andrew Przybylo noted "Bonnie has been a tireless worker and an inspiration to all of us in the party."

Former Committeeman and Niles Mayor Nick Blase added, "It's through the effort of people like Bonnie that we now have a vibrant party throughout Maine Township. I personally will miss her constant smile, and her outstanding leadership."

People want to meet People - Volunteer

Holy Family Health Center is proud and happy to have Evolina Sisol on their volunteer staff. After retiring from working in a department store downtown and now widowed, Evolina chose to do volunteer work. Because Evolina loves to work and loves to be with people she receives much enjoyment working in the gift shop.

Her personal philosophy encompasses love and work for the good of others. Although Evolina was born in Belarus, she has been living in the United States for fifty seven years. Her cheerful personality extends to the residents as well as to the visitors and staff as evidenced by their frequent trips to the gift shop.

Evolina spends five hours a day from Monday to Thursday in the gift shop. As a volunteer she also takes time in between sales to crochet blankets, scarves, booties, etc. from the donated yarn to sell in the gift shop. She is also willing to bake for the fundraisers sponsored by the Center. The word "no" is not to be found in her vocabulary for if you ask Evolina for help, you will hear "sure" or "yes, yes."

Shown above is Evolina Sisol, a volunteer worker in the Holy Family Health Center's gift shop.

Volunteers are welcome at Holy Family Health Center. The volunteer program at the Center is designed to satisfy your need to be wanted. It benefits the individual volunteer and is also meaningful to the residents.

We have a variety of morning, afternoon, and weekend volunteer opportunities. Areas of interest to you might be: activities, clerical, one on one 'friendly visiting,' etc.

If you are interested in exploring these or any other volunteer opportunities at the Center, contact Sister Mary Luke, 296-3335, ext. 239.

Better sleep tips for women

When it comes to the role of hormones in getting a good night's sleep, many women need a wake-up call.

A nationwide survey of 500 women conducted for the Better Sleep Council showed that while 74 percent of women know that their hormones can affect their mood, just 44 percent of those surveyed know that they can also affect their sleep.

The survey sounds an alarm: women's lack of knowledge about their bodies has more serious implications than losing an occasional night's sleep. It puts them at great risk for severe sleep-deprivation. In fact, 78 percent of the female population is in the at-risk age range for hormonal-affected sleep. This means millions of women may suffer the consequences of sleep deprivation, including daytime drowsiness and impaired concentration and judgement.

Here are some tips from the Better Sleep Council that will help ensure that you get the sleep you need:

Menstrual/PMS
 Resist sugar cravings. After causing an initial energy boost, the sugar "high" plunges, creating an even greater feeling of fatigue. Try eating breads, pasta or rice-complex carbohydrates help PMS sufferers feel more alert.

Get the sleep you need. Go to bed earlier or take naps during the early afternoon to combat the effects of changing hormones.

Create a restful sleep environment. Be sure to sleep in a cool, quiet, dark room on a comfortable supportive mattress.

Pregnancy
 Feel free to take naps. Your body needs more sleep during

pregnancy. If you work and can't take naps, put your feet up and rest.

Menopause/Hot flashes
 Practice slow, deep breathing. This can decrease the frequency of hot flashes.

Unwind early in the evening. Try to deal with worries and distractions at least an hour before going to bed.

A informative tips card on better sleep for women is available free by sending a stamped, self-addressed business-size envelope to: Better Sleep Tips for Women, P.O. Box 19534, Alexandria, VA 22320-0534.

New Electrology Clinique open in Golf Mill

"All electrolysis treatments are NOT created equal!" That is the basis upon which treatments are designed at Golf Mill Electrolysis. Each treatment is tailored to fit the individual client's hair removal needs. Therese Davis, the owner of GME has perfected her skills, having been educated at one of Illinois' finest Schools of Electrology and thereafter having honored her skills working as a staff electrologist at a prominent Michigan Avenue area electrology salon, prior to opening her own offices at the Golf Mill Professional Building.

She uses the latest equipment available and educates her clients, giving them knowledge of the theory behind how electrolysis works. "Education is the best tool for my clients to understand how best to schedule their treatments and the advantage of using manual equipment (which the electrologist has full control over in designating current) versus a computerized machine (which if used incorrectly may not disburse enough current to do an effective job)."

GME offices follow the most up-to-date sterilization procedures including disposable needles of the highest quality. "The standards at GME are high - so are the results." Appointments are available Wednesday through Saturday by calling Therese at 297-2221. Call and experience the difference in a treatment which is tailored to your individual needs.

Edward Jones Brokers rank firm first in survey

Edward Jones brokers gave the firm a first-place rating in a national survey of nine investment companies, Jeffrey L. Cardella, the Niles investment representative, announced today. Even more impressive is the fact that Jones received a near-perfect score when it comes to putting clients first and doing what it promises.

"Although we'd love to take credit for these recent achievements," Cardella said, "we know it really belongs with those who have played the most important roles in making our firm a successful organization - our customers and friends."

This is the fourth consecutive year that Edward Jones has ranked either first or second in the survey, conducted every October by Registered Representative magazine. The survey results, which appear in the December 1995 issue, are based on anonymous telephone interviews with 50 brokers from each company. The brokers rate their firms on such factors as overall ethics, freedom from pressure to sell certain products, quote and information systems, and quality of research.

In the four main categories of the survey - work environment, support, product and management - Jones scored higher than any other firm.

Additionally, Jones received an "A" letter grade in all sub-categories except research, for which it received a "B". The firm scored especially high in the category of freedom from pressure to sell certain products and in the ethics category. Jones received an overall score of 9.05 out of a possible 10 points.

"This survey reflects the opinions of our brokers, the people who are on the front lines dealing with our customers," said John W. Bachmann, managing principal of the St. Louis-based company. "Because of that, we are very proud of the high scores we received."

"In addition, our investment representatives are members of the community in which they work, so their opinions about our firm are significant. We are very happy that we are providing the support they need," Bachmann said.

Edward Jones is one of the largest financial-services firms in the nation with more than 3,100 branch offices in 49 states. The firm serves more than 2 million clients and specializes in investments tailored to the needs of individual investors. It offers such investments as certificates of deposits, taxable and tax-free bonds, stocks and mutual funds.

The Niles office is located at 8143 N. Milwaukee Ave. or (708) 470-8953.

Ebert files for 13th District seat

Reagan Ebert, Maine Township trustee, is seeking the 13th District seat of state representative currently held by Democrat Ralph Capparelli. Ebert, a Republican, together with the support of local party members amassed over 1,000 signatures in a 48 hour petition drive.

The 13th District covers Niles, Glenview, Park Ridge, Morton Grove, northwest Chicago and a portion of Skokie.

Aurelia Pucinski, Honorary Mothers March Chair

In 1950, mothers began going door-to-door to raise money for the March of Dimes Birth Defects Foundation in the annual January campaign called Mothers March. But much has changed since then.

The first years of the campaign helped conquer polio. Today, the volunteers have helped the March of Dimes become the leading national volunteer organization dedicated to infant health.

Also, as a matter of safety and convenience, rather than facing the area's winter weather

conditions, the volunteers now ask for donations by a letter addressed to: "Dear Neighbor."

Today, people of all backgrounds, including dads, teenagers and grandparents, as well as mothers, participate in the annual drive.

This year, Aurelia Pucinski, Clerk of the Cook County Circuit Court, has been named by the March of Dimes to serve as honorary chairperson of the 1996 Mothers March campaign.

During Birth Defects

Prevention Month in January, more than 54,000 volunteers are expected to take part in the campaign in the Greater Chicago area.

The proceeds will support research, community services, education and advocacy programs aimed at improving infant health.

For more information about the 1996 March of Dimes Mothers March, call (312) 435-4007.

The BUGLE BRIDAL GUIDE

Wedding ceremony recognizes children in remarriage

"When we gave my daughter the Family Medallion during the wedding we did not know what she would do," says Stacey Bush of Port Neches, Texas. "We wanted her to feel included but, instead of grinning as we expected, Courtney had everyone in tears. She was so touched. Scott

and I felt we were all getting married as a family." At approximately 10,000 weddings this year, parents with children from previous relationships will use the Family Medallion wedding ceremony to strengthen their newly formed family circle. The cornerstone of the ceremony,

is the presentation of a Family Medallion to each child after the couple exchanges vows. The medallion consists of three intertwined circles, signifying each spouse and the children either spouse brings to the relationship.

The Family Medallion and presentation ceremony, "Celebrating the New Family," was developed in 1987 by Dr. Roger Coleman, Chaplain of Urban Ministry at the Community Christian Church in Kansas City, Missouri. Since then, 50,000 couples nationwide have used this special ceremony to recognize that, with children present, marriage is more than the coming together of two persons—it is the creation of a new family.

There is a growing need for a way to acknowledge the important role children will play in a

parent's remarriage. Every year nearly 500,000 couples bring to their marriage children from previous relationships. National statistics show that over 25% of the annual 2.2 million marriages in the U.S. involve single parents, with an average of two children per family.

Marjorie Engel, author of "Weddings for Complicated Families—The New Etiquette," sees the Family Medallion as serving a vital function in blending families. "Children often feel like they are losing a parent," Engel explains. "By involving their children in the ceremony, sensitive and creative parents can turn the wedding day into a resource rather than a wedge."

When Mary Jo Klein of Pottsville, Maryland, told her children, ages three, four and six, that she was remarrying, she explained that they were all getting married together. "The Family Medallion, with the three linking circles, made that fact clear to them," Klein explained.

"Giving the special medallion to children can help them adjust to the sensitive situation of their parent remarrying," acknowledged Rev. Roger Laitzenhiser, pastor of Lakewood Village Community Church in Long Beach, California. He presided over the remarriage of Wendy Nelson, who used the Family Medallion ceremony.

Ms. Nelson looked for a way to include her two sons in the wedding and found the answer in the medallion ceremony. "The wedding usually revolves around the couple exchanging rings. We

wanted the boys to receive special symbols as well." As part of the ceremony, Rev. Laitzenhiser asked the couple to pledge their continuing love to the children and then concluded the service by introducing the couple and the two boys to the congregation.

Ellen Hart, of Roslyn, Pennsylvania, appreciated the simple sweetness of the medallion presentation ceremony. "It was so beautiful, it brought tears to my eyes. My son was obviously touched because it's been five weeks since the wedding and he hasn't taken off the medallion yet."

For additional information on the Family Medallion ceremony, call 1-800-237-1922.

Must be the first man up,
and last man in bed;
With the Sun rising he
must walk his grounds,
See this, View that, and all
the other bounds;
Shut every gate; mend
every hedge that's torn,
Either with old, or plant
therein new thorn;
Tread o'er his glebe, but
with such care, that where
He sets his foot, he leaves
rich compost there.

- Robert Herrick

The BUGLE BRIDAL GUIDE

Brides should register

A recent survey conducted for Lenox, the nation's only manufacturer of both fine china and crystal products, shows that 36.7 percent of those who have attended a wedding in the last year selected an item from the bride's registry.

The Lenox Report on Wedding Gift Giving also cited that china, crystal and flatware remain enormously popular with gift-givers, figuring in nearly a third (31 percent) of all wedding gifts.

Still, couples sometimes end up with an incomplete registry after the wedding. To help, Lenox is offering tips to brides in a free guide entitled "Making Your New Life Complete: A Plan to Completing Your Bridal Registry." It's available by writing Lenox Bridal Registry Pamphlet, P.O. Box 55180, Trenton, NJ 08638. It can also be found in bridal registry sections of many department stores nationwide.

The 4C's: Key to buying a diamond engagement

Putting a diamond ring on a woman's left hand has been a seal of betrothal: The diamond engagement ring has been a symbol of love and romance since 1477 when Archduke Maximilian of Austria gave Mary of Burgundy a gold ring set with a diamond as a token of his love. Today, tradition of giving a diamond engagement ring is growing stronger and stronger. According to a new consumer survey, 70% of all brides-to-be receive one.

A diamond is an expression of individuality. Just as love is unique, no two diamonds are alike. Each diamond has its own personality and sparkle. Therefore, when purchasing a diamond engagement ring, it is important to become an informed consumer.

To help carry out this very special tradition of love, a little knowledge can go a long way to help unearth the best quality diamond within a budget. Understanding diamonds requires knowledge of the 4C's: cut, color, clarity, and carat-weight. These four variables are keys to answering the elusive question as to how two diamonds of equal size may not be of equal value.

Cut—Although diamonds can be cut in several shapes such as oval, marquise, pear or round, it is the quality of the cut which gives the stone its brilliant sparkle. Light is reflected best when all of the facets are perfectly proportioned.

Color—The best color is no color. A totally colorless dia-

mond best allows white light to pass effortlessly through it and be dispersed as rainbows of colors.

Clarity—The term clarity refers to a diamond's lack of naturally occurring inclusions, often called "nature's fingerprints." Most of which aren't visible to the naked eye. The fewer the inclusions the more valuable the diamond.

Carat—Carat refers to the weight of the stone. There are 100 points in a carat, therefore, a diamond of 50 points weighs 1/2 of a carat.

Deciding how much to spend on a diamond engagement ring is very personal and obviously depends on income. Most people find the two months' salary guideline to be helpful in determining how much to spend. Most importantly, choose the finest quality diamond affordable, because a diamond engagement ring is a unique symbol of commitment that will be treasured for many years.

To find out how to get the best diamond, consumers should visit a reputable jeweler whom they know and trust. The diamond engagement ring is an investment in a couple's future, and like love can grow more precious with time.

Take advantage of "club plans" for any items not received. Department store club plans often offer generous discounts and repayment options at no interest.

Bridal registries are a convenient and proper alternative to a cash gift. According to the Lenox Report, 91 percent of gift-givers who used a bridal registry found it made the gift selection process easier.

The bridal consultant can offer appropriate suggestions within one's budget. Since the wedding couple had originally selected the item, it is sure to suit their entertaining style.

As a special service to gift-givers, many registries will wrap, ship or hand-deliver the gift to the bride's home.

When managed properly, the registry system can offer the gift-giver ideas for future holidays or special occasions that the couple will celebrate.

half acre public park is also a part of Pontarelli's plans for this site. He continued to briefly describe how this new park is intended to be a substitute for Jozwiak Park, which would eventually become part of the Niles Public Works Commission.

Final details on the park transfer have not been worked out, Thomas said.

Jack DiClementi, a landscape architect with Pontarelli, presented the developer's plans for preserving and maintaining as much of the "existing college campus" like grounds as possible.

After he spoke, the thinning patience of the crowd became evident when Jerry Lingren, a traffic engineer, spoke about how Pontarelli planned to handle the increased traffic congestion that additional cars from the future condominium residents would generate.

Lingren mentioned several different ways to get in and out of the property that he felt would alleviate traffic congestion onto three of Niles' most heavily traveled streets, Harlem, Milwaukee and Touhy.

At several points during the discussion, residents heckled the presenters and the Commissioners. Once such flare-up occurred when Paul Tasch, President of the Fountain View Condominium Association, attempted to present his group's grievances with the proposed condominium development, despite objections from Commissioner Angelo Troiani.

Tasch's carefully outlined and drafted presentation, hailed by Commissioner Sidney Mitchell as one of the "best ever" to be presented to the Board, detailed four major points of concern for residents of Fountain View, particularly population density, traffic congestion, additional taxing of utilities and fire and police protection for an already heavily populated area.

His remarks drew rousing applause from the impatient crowd, many of whom were anxious to raise their own complaints to the Board. Several homeowners did get their chance to do so when Chairman James Callero invited them to speak.

One resident, Jim Maher, President of Park Place condominium Association, said that his organization was "concerned about the mud and dirt" that would be created by the construction of the buildings.

"This will reduce the value of our property when the trucks are going in and out for three-and-a-half years," Maher said.

A large contingent from the Niles Baseball League was also present at Monday night's Zoning Board meeting. Joe Jensen, a resident of Burning Bush Condominiums, and a member of the Niles Baseball League, noted the concern many people have over the possible closing of Jozwiak Park and whether the

proposed new park would sustain the same facilities.

Paul Kolpak, an attorney with Kolpak and Lerner, Niles, representing Pontarelli Development, attempted to calm the concern. Kolpak told the group that "under Illinois law, an exchange of land cannot be made unless the property transferred is of equal or greater value."

Kolpak told the audience that the new park would be "in better shape than what you have now at Jozwiak. You will end up with facilities better than Jozwiak."

The matter will be determined by the Niles Village board at their February 27 meeting.

The Niles Park District is planning to host a meeting to let residents air their views about the proposed park transfer and closing of Jozwiak Park. That meeting has yet to be scheduled.

Elaire Heinen, president of Park District said that the meeting would not be before the Board's next meeting, set for January 23 at Ballard Hall.

working, call your landlord, management company, or family member and give them a reasonable amount of time to respond. If they are unavailable or cannot give you any assistance and it is during non-working hours, call: Niles Police Department (708) 647-2131

2. The Police Department will assist someone from the Code Enforcement Department to come and look at the situation. If the heat cannot be fixed or it will be several hours before someone can fix it, the Village will transport you (if necessary) to a local motel for temporary shelter. Residents will be responsible for the cost of that housing.

Non-Rental Units
1. If you have a heating problem, first contact a heating contractor, or family member to attempt to get it fixed. If you are unable to get it resolved, and it is during non-working hours call: Niles Police Department (708) 647-2131.

2. The Police Department will assist by notification to family or transportation to shelter at a local motel. Residents will be responsible for the costs of that housing.

3. If special situations arise, Niles Human Services will be notified to respond.

The Village of Niles will maintain a list of local licensed heating contractors and cold weather related tips which will be available to residents at the Village Hall, Trident Center, and the Police Department. The cold weather preparations are prepared by the National Weather Service Bureau.

up artist also parked on the street sustained a shattered driver's side window during the same hours.

A 69-year-old woman in the 7700 block of Dempster Street reported that a BB pellet projectile caused \$150 damage to the rear window of her car, and a 45-year-old project coordinator reported that her 1995 Hyundai Sonata sustained a shattered window in the 7700 block of Nora between 9:15 p.m. Jan. 1 and 8 a.m. Jan. 2.

But residents of the 8000 block of Churchill were hit hardest. Eight vehicles parked on the block had windows shattered by someone wielding a BB gun between 6:30 p.m. Jan. 1 and 7:45 a.m. Jan. 2. A 1994 GMC pick-up truck, a 1986 Dodge Caravan, a 1995 Jeep Cherokee, a 1994 Ford Taurus and a 1991 Volkswagen owned by the same 49-year-old man, a 1994 Chevrolet Cavalier, a 1985 Toyota Corolla and a 1987 Chevrolet Nova were all reported damaged.

In addition to the cars, a 69-year-old woman living in the 7700 block of Dempster Street reported that a 2' by 2' window in her home was shattered by a BB-type projectile between 12:30 a.m. and 12:30 p.m. Jan. 1.

"I would say they're [the BB gun attacks] probably all related," said Sgt. Roger Wilson, Niles Police public information officer. "It's just an assumption on my part," he added.

In addition to poor judgment, Santa is actually breaking the law when he leaves BB guns for anyone under the age of 18, according to Wilson. It is technically illegal to sell, buy for or otherwise provide a BB gun to a minor, Wilson said.

Wilson called for more parental control and stressed that parents should know their children's whereabouts at all times.
