

Niles North mourns murdered student

by Rosemary Tirio

Outside Niles North High School the flag flew at half staff Feb. 15. Inside, waves of grief, anger and sadness swept over students and teachers as Principal David Schusteff's P.A. announcement confirmed the awful news. "My Le Truong was killed last night in a domestic dispute at her home."

Truong was killed Valentine's Day evening in a bedroom of her home in the 9400 block of Kilbourn Avenue in Skokie by Them Dang, 24, a Chicago production worker with whom Truong had broken up.

After shooting Truong in the head and neck with a .25-caliber handgun, Dang turned the gun on himself, critically wounding himself in the head. He was taken to Evanston Hospital. Skokie police charged Dang with first de-

gree murder and attempted murder for shooting at Truong's younger sister.

Truong, an 18-year-old junior, was "very well liked and well known by students and staff," said Jeff Berkwitz, public relations coordinator for District 219. "This was a good kid," Berkwitz added.

Berkwitz said the Niles North students were very shocked and grief-stricken by news of the murder. Fourteen individuals trained in grief counseling, including the school's regular counseling staff, two social workers, the school psychologist and directors of student services and special education, were available to students and staff all day to assist them in dealing with the tragedy.

MG Park District receives award

Trying to make its parks and recreational programs safe and cost effective to the public has been a constant goal of the Morton Grove Park District. Apparently, their efforts have paid off.

Since 1983, the Morton Grove Park District has been a member of the Park District Risk Management Agency (PDRMA), which is a self-insurance risk pool made up of 118 Illinois park and recreation agencies. The risk pool annually conducts a review of its members' loss prevention programs. This week, the Morton Grove Park District learned from PDRMA that its loss control program was rated as Excellent-

Level A. PDRMA awarded Morton Grove Park District a final score of 98.5%. Points are awarded in areas such as recreation safety practices, claims management, hazard identification, and many other loss prevention areas.

In addition, the Morton Grove Park District was awarded PDRMA's highest award which is accreditation. This award is in recognition of the Morton Grove Park District having implemented a comprehensive safety program by averaging a 95% score on the past two safety program evaluations.

Friends rally 'round area accident victim

By Rosemary Tirio

Mike Marco, 32, formerly of Des Plaines, who attended Our Lady of Ransom elementary school and Maine East High School, has spent the last seven months being shuffled from hospital to hospital to nursing home following the June 1995 automobile accident just outside DeKalb that rendered him paralyzed from the chest down.

While he can speak, swallow and breathe without assistance, the only other movement Marco has is in his fingers and one arm, according to a story in the Feb. 1 Pioneer Press.

Niles now has 14 banks; village officials say more are coming

Officials expect even more banks to settle in Niles

by Kathleen Quirsfeld

Is Niles becoming "bank crazy"? Does it seem as though a new bank is opening up somewhere in Niles every month?

Every month might be a bit of an exaggeration, but the Niles Plan, Commission and Zoning Board has heard at least five petitions from banks seeking to come into Niles, or expand or remodel their facilities within the last year.

What's going on? It's not like there aren't enough banks to go around already. In fact, there are currently 14 banks in Niles, and according to Todd Bavaro, Director of Code Enforcement, there are a few more that want to come in.

So, what's the big deal with Niles? "It's the location," Bavaro said, "our proximity to Chicago and other suburbs." This is what he thinks makes coming to Niles desirable.

Denise McCreery, Executive Director of the Niles Chamber of Commerce agreed. Though she admitted that she is a bit surprised by the number of banks in Niles and with the number that want to

open there, she also feels that it is the area that is attracting them.

"Niles is a very well established area. It is pretty much in the center of things."

The boundaries of the Village of Niles are another reason. The town is more long from North to South than it is wide from East to

West, and as a result it has a totally different customer base at each end.

"Niles draws from Chicago, Park Ridge, Evanston and Skokie on the south and from Glenview, Morton Grove and Mount Prospect on the north," McCreery

Counterfeit clothing seized at Niles store

The Niles Police Department in a joint investigation with Edward R. Kirby & Associates, Inc. announced the February 14 arrest of Hyo Kwan Kim of 405 Larchmont, Vernon Hills, age 41. Kim, the owner of Major Fashion, Inc. is charged with five (5) counts of Unlawful Use of a Trademark. Kim's arrest culminates a three month investigation into the business operations of Major Fashion, Inc., 5697 and 5651 W. Howard Street, Niles. Kim will be tried at District 2 Headquarters, 5600 W. Old Orchard Road, Skokie, on March 8.

Edward R. Kirby and Associates, Inc. is a company employed by several major apparel companies to investigate trademark piracy. After they obtained information regarding Major Fashion, Inc., they came to the Niles Police Department and requested assistance. After extensive investigation a search warrant was obtained for the Howard St. premises. On February 14, at 2 p.m. a search of those facilities discovered over \$750,000 worth of sweatshirts, T-shirts, caps, and other clothing apparel. Continued on Page 20

"Guns and Hoses" competition

Pictured above with Trustee Bart Murphy and Mayor Nicholas B. Blase are six of the eight man team (Firefighters Doug Fuller, Tim Neubauer, Scott Guerino, Frank Lauris, Greg Schmidt, and Jon Riaz) from the Niles Fire Department who competed in the "Guns and Hoses" competition held on Nov. 5. This was a weight lifting event for Police and Fire Departments sponsored by the Village of Rosemont. Proceeds from the competition went to the "Burn Camp," a free summer camp for juvenile burn victims. Niles placed third in the competition and firefighters Tim Neubauer and Greg Schmidt won individual third place trophies in their weight class.

St. John Brebeuf Golden Agers brave winter's cold

Despite the icy fingers of old man winter tickling everyone's bones, the stalwart members of St. John Brebeuf's Golden Agers Club managed to keep to their appointed rounds and attend their regular meetings.

All the club's officers presented their monthly reports at the last meeting.

Carl Ferina reminded members of the trip to Texas in April. Because of his health problems, Carl is resigning from his position as Travel Coordinator. Hope you feel better real soon, Carl.

During the meeting, information about cellular telephones was distributed by representatives of Ameritech who also gave members a short detailed speech about owning one of these telephones.

The club's nominating committee was composed of the following members: Henry Piontek, Chairman; Joan Provenzano; Michael Provenzano; and Dorothy Warman. According to Henry, the club's official slate of officers for next year is: Chester Bonk, President; Carl Ferina, Vice President; Frances Pawelek, Secretary; and Steve Bochenek, Treasurer.

A great big "thank you" is in order to the nominating committee for its work in procuring this excellent slate of officers for the club. The election will be held in March. Anniversaries in February are being celebrated by George and Margaret Roth (51 years), and Casimir and Lillian Bielski (49 years). Congratulations to all.

Frank Knapp warned members to beware of solicitations from "phony" Social Security letters regarding "Notch" babies. Katherine Dellinger's family increased in January because of the arrival of two more great-grandchildren.

All the members were shocked to hear of the death of Rudy Proszek. Rudy was one of the most popular and likable members of the club. All will miss his smiling face at the club activities. He and his wife, Marie, made a most delightful couple and gave everyone much joy during their many years as members of the club. One can almost picture Rudy and Marie dancing together in heaven the way they did here on earth.

Edward Jones: The big funds just might be a better mouse trap

Introduce a good investment, and two things will happen. First, investors will beat a path to your door. Then, the skeptics will appear, telling everyone why the investment won't work. This has been the case with the giant mutual funds for at least a decade.

Ten years ago, a \$1 billion mutual fund was said to be unmanageable. Today, according to Morningstar mutual fund research, the 15 largest stock funds each manage an average of \$17.1 billion in assets, for a total of \$256 billion of investors' money (see chart). The largest stock fund has assets of more than \$50 billion.

Despite what the skeptics believed, these big funds have been successful, and they continue to grow. Why have so many people flocked to these funds? More and more, individual in-

vestors are looking to the professional money management found in mutual funds instead of relying on individual stock picking. Considering trading costs and taxes, mutual funds offer investors a less expensive alternative for serious money. In addition, more employers are offering mutual funds in their retirement plans. Finally, as interest rates plummeted, conventional savers in banks and other institutions found mutual funds an attractive way to earn a higher return.

As more investors bought mutual funds, some of the more successful ones began to grow quite large, and some people became concerned. So far, their concerns have proven unfounded. In fact, according to Lipper Analytical Services, the large mutual funds consistently outperform smaller and mid-sized funds.

There are several advantages to owning a big fund. Their size generally restricts their investing to well-established companies with large capitalization. In other words, they have large sums of money to invest and they often buy companies with large numbers of shares outstanding -- and these are generally the more established corporations. While this in itself does not assure safety, it does focus on more predictable evaluation of a company's stock.

In addition, expenses, which can claim a large part of a stock analyst's group of analysts can uncover more market and security information than a single researcher.

Of course, along with all the benefits of big funds come reasonable concerns. The most serious is that as the funds become

larger, they could have an unsettling influence on the market if they opt to sell large blocks of stock. However, many industry experts say that millions of shares can be traded without noticeably affecting the market. Like them or not, the big funds

are not only here to stay, they'll probably get even bigger. So far, they have disappointed their critics and made their shareholders happy. It just might be that the big funds have proven to be a better mouse trap. Investors have surely beaten a path to their door.

GlenBridge responds to community blood shortage

Responding to a community blood shortage, Kathy Doherty, activity director for GlenBridge Nursing and Rehabilitation Center, 8333 W. Golf Rd., Niles, contacted LifeSource Blood Services in Glenview. On Friday, Feb. 16, GlenBridge hosted the first of what will be an annual community blood drive.

Kathy's on-going goal is community involvement. She feels you need to be supportive of the community in which you live and work. With that concept and the guidance of LifeSource, a strategy was developed to make the blood drive successful. Thirty-one local businesses displayed posters promoting the blood drive. With the permission of Mr. Miller, store manager for the Niles Venture, GlenBridge staff handed out 850 flyers on Valen-

times Day urging people to "have a heart and give blood." GlenBridge is one of five nursing homes operated by Health and Home Management. Kathy presented her plan at a corporate activity meeting to have each of the homes in the organization

sponsor a blood drive in their community. GlenCrest, 2451 W. Touhy, Chicago, will host the next blood drive in April. Sidney Glenner, President of Health and Home Management, pledged his support by being the first blood donor of the day.

How many good-hearted people are in your family?

When it comes to health, good people don't always turn out to be good-hearted people. Heart problems - yours, mom's or grandpa's - can impact your entire family. Cardiac risk factors such as high cholesterol, high blood pressure, obesity, smoking, family history, lack of exercise and stress can all compound your family's chances for heart disease. To practice good-heart prevention, you need to know your cardiac risk factors, and then learn how to do something about them. Ravenswood Health Care can help with our 9th Annual Healthy Heart Screening.

Our two-visit screening includes a complete heart-related physical, a blood exam (HDL/LDL cholesterol and triglyceride levels), an electrocardiogram (EKG) and face-to-face recommendations for a healthier heart from a doctor affiliated with Ravenswood Hospital Medical Center.

This good-hearted offer is just \$55 between January 29 and March 15, 1996! Call the Center nearest you today to make your appointment!

Search to find world's best granny begins

The search is on to find the world's greatest granny. The Washington Apple Commission announced the official beginning of its annual Search For Granny Smith—a nationwide hunt to find the perfect grandmother to promote the state's famous green fruit.

"We're looking for on-the-go grannies," said Jim Thomas, search coordinator for the commission. "Someone who personifies the healthful attributes for our apples."

Thomas said a successful candidate should meet the following guidelines:

- Be sweet to the core and have good moral fiber.
- Be handpicked by children, grandchildren, spouse or friends.
- Have beauty that's more than skin deep, and just the right amount of maturity.
- Have "a-peel."

Those wishing to nominate a noteworthy grandma should write, in 100 words or less, why the nominee should be considered and enclose a non-returnable photo. Nominations should be sent to Granny Smith, P.O. Box 18, Wenatchee, WA 98807, and received no later than April 15.

"We've extended the deadline this year so more grannies can participate," said Thomas. "Nominees don't need to have the last name 'Smith,' and the photos sent to us, like our Granny Smith apples, should be in good taste."

New technology enhances Pap tests

The traditional Pap test has saved the lives of thousands of women threatened by cervical cancer in the past half-century.

A new visual cervical exam, Speculoscapy—when done in conjunction with the Pap test—is more effective than the Pap test alone in detecting cervical abnormalities.

The exam, developed by the Trylon Corp. of Torrance, Calif., was recently cleared for marketing by the U.S. Food and Drug Administration.

The procedure adds about \$25 to the cost of a Pap test.

Pharmacia & Upjohn, Inc. has exclusive U.S. distribution rights to Pap Plus Speculoscapy.

For more information about the availability of Pap Plus Speculoscapy, call (800) 253-8600.

Estrogen may help prevent heart disease

Researchers at Loyola University Medical Center, Maywood, are seeking volunteers for a study to determine whether hormone replacement therapy, specifically the use of estrogen, can protect older women from heart disease.

"For women, the rate of heart disease increases after menopause, suggesting that decreasing estrogen levels may significantly affect cardiac risk," said Sue Penckofer, Ph.D., R.N., associate professor at Loyola and principal investigator for the study. The two-year project is being supported in part by a grant from the American Heart Association of Metropolitan Chicago.

Volunteers for the study must be at least 50 years of age, no longer experience monthly ovulatory cycles and neither smoke nor suffer from any known heart disease, high cholesterol, high blood pressure, diabetes, cancer or liver disease. Participants will include women who are already receiving estrogen therapy, as well as those who are not Penckofer said.

Earlier research indicates that estrogen may act as an antioxidant. Antioxidants, such as vitamin E and beta carotene, fight "free radicals," unstable molecules in the body that attack and destroy cells and may lead to disease, including heart disease.

Synthetic estrogen often is prescribed as a replacement for the natural female sex hormones at menopause. The hormone is used to prevent bone loss in women at risk for osteoporosis.

Estrogen also may be used to control abnormal body temperature fluctuations, commonly called "hot flashes"; mood swings; vaginal dryness; depression; and other symptoms that occur when menstruation stops. Its protective effects on the heart are still being explored.

"A number of women are taking estrogen, but we do not know everything about its benefits and risks," noted Penckofer.

"As women age and go through menopause, they may be more susceptible to disease," she added. "However, there are risks associated with estrogen replacement therapy, such as uterine and breast cancers. We need to weigh the benefits against those risks to determine whether or not the therapy should be given to females at risk of heart disease."

An initial time commitment of one hour will be required of those women accepted into the study. Individuals will complete questionnaires and undergo free diagnostic testing, including blood pressure and heart rate measurements, at Loyola's medical center campus, 2160 S. First Ave., Maywood. No hormones or antioxidants will be prescribed in the study.

More information is available by calling Penckofer at (708) 216-9303.

The Power House presents course on nuclear energy

Where does nuclear energy come from? How are radioactive materials created? What are X-rays? And how does radiation affect our daily lives? If you've ever had questions like these, then the nuclear energy course at The Power House has got the answers you're looking for.

On Saturday, Feb. 24, The Power House's programming will be devoted to teaching kids how nuclear energy works, how to recognize common radioactive materials and the everyday uses of nuclear energy. The program includes video presentations and take-home information booklets that demonstrate such things as how radioactive materials are used in household items and how to read radiation hazard signs.

Blaine for State Senate

William M. "Bill" Blaine, Jr. has announced that he would seek the position of Illinois State Senator, 28th District, in the November 1996 general election. The 28th District covers portions of Park Ridge, Des Plaines, Mount Prospect, Prospect Heights, Arlington Heights, and Wheeling. Bill is a Democrat. Bill first ran for 28th District Senator in 1992 when he won a substantial 39% of the vote. Following the election he

concentrated on rebuilding his business after the extended stress of the campaign. However, he felt issues raised in the campaign needed further discussion. Bill started a community TV access program called "Plain Speaking with Bill Blaine" in March 1993. As host, Bill and his guests have addressed a wide range of issues including High Speed Rail; The Nursing Home Question; and Newspapers. A Community Asset. Currently

"Black Americans... The Suburban Experience" can be seen on TCI Channel 65. Tapes may be borrowed from the Mt. Prospect Public Library. After serving as a Mount Prospect Library trustee for 16 years he felt it was time for someone else to bring new ideas and new approaches to library services. He ran for the High School District 214 Board of Education in the fall of 1993. Bill was the highest vote getter in this contested race. He is starting his third year as a member of the Board of Education.

When asked why he is running, Blaine said, "I am disappointed with value judgments being made in Springfield. I am very apprehensive about decisions that will be made when block grants place additional decision making responsibility at the state level."

Blaine added, "Anyone wishing to help in the campaign can send a contribution to Friends of Bill Blaine, P.O. Box 165, Mount Prospect, IL 60056. Persons wishing to be on the campaign's email or regular mailing list should include a post card with name, address, phone number and email address."

Water Reclamation District finds illegal dumping

Vice President Kathleen Therese Meany of the Metropolitan Water Reclamation District presents a resolution to Kelly Keatts recognizing his recent efforts to help apprehend an illegal dumper. The dirty water was pumped into a storm sewer, and about 800 gallons of it spilled over into a storm-water retention basin of a nearby realty company. The District will assist law enforcement officials as they collect evidence in this case. Anyone noticing illegal dumping into sewers or waterways should call the toll free Hot-Line Number, 1-800-332-DUMP.

WPS volunteer training program

The Northwest Chicagoland Widowed Persons Service, a special project of Rainbow Hospice, a not-for-profit organization, will host a Spring Volunteer Training Program beginning Feb. 24, at the Rainbow Hospice office. The training program is for volunteers who are widowed themselves and want to reach out to newly widowed persons in the northwest suburbs and northwest Chicagoland area. Call Susan Glasman at (708) 699-3605 if you are interested in working with newly widowed people.

Parents without Partners (PWP) Seminar

Parents without Partners will be hosting a paternal parenting and divorce educational lecture on Feb. 25, 5 p.m., at the Discovery Zone in Orland Park. Lecturer for this evening event will be Chicago Matrimonial and Custody Attorney Jeffrey M. Leving. Mr. Leving, Chair of the Litigation Action Committee of the National Congress for Men and Children, recently appeared as a guest on Nightline with Ted Koppel and on 20/20. Leving is also the co-author of the 1986 Illinois Joint Custody Law, and has written numerous articles on the rights of divorced and single fathers.

The presentation will be held on Sunday, Feb. 25, starting at 5 p.m. It will take place at the Discovery Zone, 15131 LaGrange Rd., Orland Park. Among the topics to be discussed are:

1. Divorce
2. Changing Gender Roles in Parenting
3. Joint Custody
4. Is Sole Custody Outdated?
5. Child Support vs. Visitation Enforcement
6. The False Abuse Allegation Syndrome
7. Mediation

For those unable to attend, Leving's self-help video "Fathers and Divorce", is available through his office; the collection at the Chicago Public Library; and certain suburban libraries.

For further information concerning this lecture, call (312) 807-3990.

A tip from Steve Allen... recycle your eyeglasses

Steve Allen, entertainer, humorist and composer, is taking time-out of his busy schedule to offer a tip for the ultimate in recycling: "You can recycle more than newspapers, bottles and cans— and help share the gift of good vision at the same time. Recycle your eyeglasses and unwanted jewelry through New Eyes for the Needy."

New Eyes for the Needy has been in the forefront of recycling since 1932 by collecting discarded eyeglasses, jewelry, silver, watches, dental gold and hearing aids. Precious metal scrap is sold to a refiner to fund the program for needy Americans. Reusable plastic frames are tested by volunteers and sent overseas.

Donations of eyeglasses, jewelry and cash contributions are tax deductible and should be sent to: New Eyes for the Needy, Attention: Steve Allen, P.O. Box 332, 549 Millburn Ave., Short Hills, New Jersey 07078.

To organize a collection drive at your business or in your community call (201) 376-4903 or fax to (201) 376-3807.
