

### From the Left Hand

by Bud Besser

We recently finished reading James Fallows' book, *Breaking The News - How The Media Undermine American Democracy*. It's an important book which unfortunately will be read mostly by media people, rather than by the general public.

The book left us with the question, "What can we do in our local community to enhance and improve communications between the private and public sectors?"

We thought if we received a reasonable response we would get together on a regular basis with interested residents who would like to discuss local community issues. We could coffee and donut one morning a month or spend an evening munching and musing our way through a bit of chow and ideas concerning local problems in our towns.

Because of our absence during recent months we have lots of questions which we would like answered about local matters.

\*We would like to know how much the library people are paying for the rental space for the temporary library which is located on Caldwell Avenue. Several library expansions have been done without such a costly move. The improvements to the beautiful Skokie library were done while its library continued operating at its home base. Similarly, other

### Annunzio appointed new village attorney

In another Village matter, the Board unanimously appointed Joseph Annunzio as Village Attorney, a position left vacated recently by the death of Richard Troy. The Park Ridge resident admits he's "no Dick Troy, but vows he'll work hard to do the job."

Annunzio, a commercial real estate transactions attorney for the past two-and-a-half years, was approached by Mayor Blase for consideration of this post.

He stated he will consult the Board with "what needs to be done in order for it to be in compliance with the law."

He quipped that part of his job would be as a "glorified collection agent," because he would be helping the Village to sort out their obligations and determine who pays for it.

Annunzio, 48, and his wife Terry, parishioners of Our Lady of Ransom Church, have three children, Lindsay, 14, Andrew, 12 and Kaitlin, 8.

### How did Niles get its' name?

The NILES HISTORICAL SOCIETY is making an urgent plea to all residents (former and present) as we prepare to help celebrate the Village of Niles memorabilia -- letters, pamphlets, books, leaflets, handbills, advertising giveaways, pictures, documents, newspaper clippings, artifacts, photos, history. The entire Museum will be devoted to early days and we need your help.

Does anyone know how Niles got its' name?

### Tam Golf Course names interim director

Tom Mulcahy, food and beverage operations manager of the Tam Golf Course, was named interim manager of golf operations replacing Greg Genz.

Genz resigned to take a similar position at the Bolingbrook Park District's Boughton Ridge Golf Course. The interim appointment was made March 27.

Board President Myrna Breitzman praised Mulcahy for his management background.

Mulcahy will be in charge of day-to-day operations at the golf course.

After a new executive director is hired, the job will likely be advertised in professional journals or newspapers, Breitzman said.

## District 219 Board OKs firing 34 teachers

by Rosemary Tirio

Just as memories of last fall's bitter 11-day teacher strike had all but faded from the collective consciousness of area residents, the president of the Niles Township Federation of Teachers may be spearheading another teacher protest.

At issue now are the 34 teachers who may be given what amounts to a pink slip for their continued employment next year as a result of the District 219 School Board's Monday night approval of two resolutions allowing the dismissals.

The vote was 4-1, but several board members said they voted with reluctance, being forced to do so by state laws and budgetary considerations.

The positions of first- and second-year teachers are on the block. Administrators contend that such dismissals are made each spring as a matter of course because state law requires school

districts to inform teachers of their employment status for the coming year 60 days before the end of the current term.

More dismissal notices are being sent out this year than in other years because the incoming

### Shoplifter leads MG cops on Edens chase

A 31-year-old Chicago man was apprehended by Morton Grove police Thursday, April 3, but not before he had led them on a not-so-merry chase down Dempster Street and the Edens Expressway ending in a collision with a tree near the Peterson Avenue exit ramp.

Police responded to a retail theft report from the Marshall's store, 6831 Dempster Street, at 11:30 a.m. The suspect was fleeing the vicinity of the store, driving east on Dempster in a beige Cadillac.

and the subject was broadcast to the responding officers and shortly later, police spotted the suspect driving east on Dempster Street at Austin Avenue.

As police attempted to stop the suspect, he drove onto the sidewalk in an effort to bypass local traffic and elude police. The pursuit continued on Dempster Street and then onto the east-bound Edens Expressway.

The suspect stopped his vehicle on the Edens near Touhy Avenue. As police approached the car on foot the suspect accelerated

## OBITUARY

### Ken Adreani, Norwood Builders VP, dies at 43

Noted area home builder Kenneth J. Adreani, 43, was pronounced dead April 5 at Lutheran General Hospital after suffering an apparent heart attack.

Adreani, son of Raymond Adreani who founded Norwood Builders in 1950, was vice president of construction for the firm.

"Ken was a person who touched a lot of people in a lot of good ways," said his older brother Bruce Adreani. "He ran the construction of all our companies. He was a remarkable fellow, and he'll be greatly missed."

Adreani was on the Board of Directors of the YMCA Camp Pinewood in Des Plaines, a member of Ridgemoor Country Club, past president of the Suburban

Contractors Association, a member of the Home Builders Association of Greater Chicago, and an officer and director of the Northwest Builders Association. He was a graduate of St. John's Military Academy in Delafield, Wis.

In addition to his father and brother, Adreani is survived by his wife, the former Marge O'Shea, three children, Ray, Anthony and Tricia, his mother, Virginia Adreani and three sisters, Kathleen (Jerry) Thiel, Susan (Mick) Smith and Gail (Marty) Didier.

Funeral Mass was celebrated for Mr. Adreani at 10 a.m. Wednesday, April 9 at Our Lady of Ransom Church. Interment was at Ridgewood Cemetery.

## Drunken teens bring real-life drama to theater

What was going on in the rear of the Golf Glen Theater in 9100 block of Golf Road around 8:50 p.m. March 25 was every bit as exciting as what was happening on the screen.

Police arrived at the theater to find a 17-year-old Niles youth and an 18-year-old Des Plaines man intoxicated and yelling and screaming in the theater during the showing of a movie. The theater manager told police the subjects were also urinating in the rear of the theater.

Admission and refreshments are free; donations will be accepted.

The Niles Historical Museum is open every Wednesday and Friday 10 a.m. - 3 p.m., other times by appointment only. Call (847) 390-0160 for more information.

Police asked the young men to leave the theater, at which they became angry and combative. When they finally left the theater, the 17-year-old subject began to punch the hood of the police squad car. Police informed him that he was under arrest, at which he took off his shirt and began throwing punches at the officers.

The offender was restrained and placed under arrest, but while police were attempting to place the 17-year-old into the squad, the 18-year-old offender attacked the officers, striking one of them repeatedly. The police officer, warned the offender four times to stop striking him. When the offender refused to stop, the officer sprayed him once in the face with oleoresin capsicum, a mace-like substance, and took him into custody.

During the medicine check-up, pharmacist Gene Bernstein, R.Ph. or Ms. Weiss will review each medicine and discuss individual medicine-taking routines. The conversation is private and confidential and there may be follow up with the individual's personal physician about serious concerns. ### Oakton offers healthy living classes

Alliance for Lifelong Learning (ALL), the continuing education program at Oakton Community College, is offering healthy living classes at the DesPlaines campus, 1600 E. Golf Road, and at local high schools throughout the district.

New Standard Aid/C.P.R. combines adult CPR with first aid. Learn emergency action principles for medical emergencies such as heart attack, fractures, bleeding, poisoning and others. Receive a one-year CPR and a three-year standard first aid certification card through the American Red Cross after completion of the course.

The class meets for two Saturdays, April 19 and 26 from 9 a.m. - 1 p.m. at the DesPlaines campus. The fee is \$48.

Cardiopulmonary Resuscitation (CPR) (HEA E05 10, Touch-Tone 2355) is designed for non-medical personnel. Students learn the artificial respiration and circulation measures to be administered before emergency medical services arrive. Practice resuscitation techniques for adults, children and infants using training mannequins. The class meets on Saturday, May 3 from 9 a.m. - 3 p.m. at the DesPlaines campus.

The fee is \$45.

For information and a brochure on these and other classes, call (847) 982-9888.

### Center of Concern offers In-Home Health Service

The Center of Concern, 1580 N. Northwest Hwy., Park Ridge, offers a referral service for in-home health care.

The Center has a registry of people who are skilled in assisting homebound people. Some are Certified Nurses Aides; others are people experienced in helping the elderly and incapacitated. They will assist with personal care, perform light housekeeping tasks, grocery shop and escort the patient to his doctor's appointment.

The staff interviews these individuals to determine their qualifications and thoroughly checks their references. Some of these caregivers work full-time, others part-time or live-in. You pay these helpers directly. The Center does not receive any part of their remuneration.

If you, or someone you know, could use such help, call Mary Maroney at The Center, (847) 823-0453.

### Holy Family Gala raises \$\$\$ for new community program

From left to right are Holy Family's Women's Board: Nancy Cottrell of Park Ridge; Mary Jobski of Mt. Prospect; Barbara Raff of Long Grove; Monika Kiefer of Long Grove; Debbie Mattana of Libertyville; Marie Sawlani of Oak Brook; and Cathi Lauth of Riverwoods. Also pictured is character "Frankie Knit" getting in on the fun.

On Saturday, March 15, more than 300 attended Holy Family Medical Center's Capone and Caviar Gala at the Rosemont Convention Center. The event, sponsored by the Medical Center's Women's Board, raised over \$100,000 earmarked for a new community service program called New Beginnings, providing health care and assistance to single pregnant women and their newborns.

The Donald E. Stephens Ballroom was transformed into an elegant roaring twenty's venue with guests arriving through a "back alley" entrance constructed especially for the event. Full scale dance and production numbers were performed to entertain and involve guests throughout the evening, while authentic characters including Frankie Knit, Sal Capone, Baby Louie and Bubbles LaRue "worked the crowd."

Dinner, contests, raffles and a silent auction rounded out the evening, as a "roaring good time" was had by all.

# Caring is in the details

As a nurse, it's great to know you're doing something important - not just for your patients, but for their families, too. I'm convinced that caring is in the details - that everyday tasks, done conscientiously, add up to important results. Whether I'm teaching a patient how to live with diabetes or assisting a doctor with a procedure, I feel I'm making a difference. And when someone who has come through a serious operation is ready to walk out of the hospital with a second chance at life, I know I've played a vital role. That's the most fulfilling part of my day.

### This is fun, Mom!

Oakton also has a Center at its Ray Hartstein Campus, 7701 N. Lincoln Ave., Skokie. ### Nutrition Wise

**Q: Are shrimp and other shellfish low or high in fat?**

**A:** When they are not deep-fried or dipped in melted butter, shellfish such as shrimp, crab, lobster and oysters are very low in total fat and saturated fat (the type of fat that raises blood cholesterol). While they are not necessarily low in cholesterol, improved methods of analysis show that they are not as high as was once thought. Of these factors, the amount and type of fat one gets is more important to health matters such as cancer and heart disease risk than cholesterol. For a healthy diet that includes seafood, simply avoid the cream sauces and deep-fried batters that can add a tremendous amount of fat.

**Q: Are grits a whole-grain food?**

**A:** The corn grits, or hominy grits, which are available in most grocery stores are not whole-grain because they have had the corn's hull and germ removed. They contain less fiber and reduced levels of several vitamins and minerals than whole-grain cereals. Whole corn grits are available in health food stores and some larger grocery stores (especially in the South) and have greater nutritional value than regular grits since they contain the grain's central germ. Because the germ spoils more quickly than the rest of the kernel, whole-grain

grits (and cornmeal) should be stored in the refrigerator or freezer.

**Q: Can breast-fed babies react to foods eaten by their mothers?**

**A:** While we don't understand how, it appears that if a woman is breast-feeding, certain components of the food she has eaten can pass into her bloodstream and into her breast-milk. Some women report that their babies seem to have an upset stomach or intestinal cramps after they (the mothers) have eaten spicy foods or onions, however no substance from these foods has been identified in breast-milk. Although it is inconvenient, the mother's nutrition won't suffer by limiting her intake of these foods. Some babies seem to develop colic in response to their mother's consumption of milk, especially in large amounts. A nursing mother needs the calcium and nutrients in milk. Therefore, if she chooses to limit milk to less than four eight-ounce glasses daily, she should take a calcium supplement and be sure to get adequate protein from meat, fish, poultry and beans. Some researchers suggest that babies with a family history of asthma or allergies may reduce their chances of becoming sensitive to foods that can trigger allergies if the mother limits her own consumption of those foods (milk, eggs, nuts and fish).

### Host a Russian Student

If you'd like to bring the excitement of hosting a foreign student into your home, the non-profit World Heritage Students Exchange Program would like to introduce you to a very special person. Host homes in this area are needed for a high school boy or girl from the former Soviet Union, for the upcoming 1997-98 academic school year.

The students are 15 to 18 years old, have been well screened for flexibility in adjusting to busy working households, have insurance, and receive a monthly program allowance. Additionally, each student is under the prestigious US FREEDOM SUPPORT ACT, which enables scholarship recipients from the former Soviet Union to learn about America's culture and democracy while living with a caring family and attending school. The hosts provide room, board, and the possibility for a young person from one of the Newly Independent States to experience everyday life in America.

According to Michelle Deck, the Eastern Program Director, "We've found that large families, as well as couples, suddenly find that their home is filled with special laughter-wrapped in a curious accent. It truly is a once in a lifetime opportunity for families to expose themselves to a foreign culture without leaving home."

Families, couples with or without children, and single parents are encouraged to apply. For more information on hosting a foreign student in your neighborhood, contact Ms. Deck

### Register now for Basic Nurse Assistant Training at OCC

Applications are being accepted for the next session of the Basic Nurse Assistant Training Program (BNAT). Those who are interested in pursuing a nursing career can register now at Oakton Community College's Ray Hartstein Campus, 7701 N. Lincoln Ave., Skokie. Classes begin on Tuesday, April 8.

Upon completion of the 10-week program, students will be certified nursing assistants, able to work in nursing homes, hospitals and home health agencies.

The program, funded by the Private Industry Council of Northern Cook County, is tuition-free to qualified residents who meet the standards of the Job Training Partnership Act (JTPA) and certain income guidelines.

A potential student must be at least 18 years old, a resident of north suburban Cook County, healthy and physically able to care for others, and genuinely interested in helping sick, older or disabled individuals. Tutoring is available for students who speak limited English.

For information or to arrange an interview, call (847) 635-1461.

at 1-800-785-9040 (eMail: WHeast@aol.com), or the local representative in Naperville: Dale Mohr, at 630/305-7265.

Under the Freedom Support Act of 1992 the United States Congress created a program to help build democracy in the former Soviet Union. Under one element of this program, more than 1,600 students are spending the current academic year studying in US high schools, living with host families, and experiencing community life.

The United States spent billions of dollars over four decades to defeat communism in Eastern Europe and the Soviet Union. Now Americans have an opportunity to help build a better world for the children raised under the communist system. The funding provided by Congress under the Freedom Support Act enables the U.S. Information Agency to bring these future leaders from Russia and the other New Independent States to our country.

Although the students receive a monthly stipend of \$100, this does not cover all of their needs. We are relying on Americans in

the hundreds of communities that are hosting these students to help in whatever way they can to ensure that the students have the best experience in our country and return home inspired to make their new societies work. Some of the ways that American citizens can help are the following: families can provide home hospitality and a nurturing home environment; businesses can contribute goods and services to support them; schools can offer lunches and enable them to be admitted without cost to social and sport activities; and doctors and dentists can provide services that are not covered by health insurance plans. Whatever way people contribute they are likely to have a profound impact on these visitors from a formerly hostile area of the world.

Four different types of volunteers will be acknowledged and thanked for their time and support of our schools and children: Board of Education Members, Community Partners, Certified School Volunteers, and PTA and other volunteers.

Board of Education members who will be recognized are Vincent Bugarin, Clifford Drexler, John Lombardi, Veronica Meyer, Barney Namovic, Dave Scheler, and John Zuckerman.

Good schools have strong ties to the community. ### Willows Academy opens new lunchroom

The Willows Academy officially opened a new lunchroom in the basement of its 1012 Thacker St. facility.

Volunteers from both the Mothers Club and the Fathers Club were responsible for cleaning up and installing a required sprinkling system in the new eating area.

"The opening of the lunchroom is the culmination of our move-in," said Willows Academy Director Barbara Sunko. "The girls are looking forward to having a lunchroom to eat in."

The school moved last summer to DesPlaines from Niles. The move allows the school to accommodate more students and provide more space for various activities. Previously students had been eating in the school gym.

The 1,500 sq. ft. lunchroom seats 160 students. It also has a fully stocked pantry and a kitchen with a stove and refrigerator. Cooks can provide hot lunches, but any hot-lunch program must be staffed by volunteers, according to building manager Mary Georgopoulos.

The Willows Academy is an independent college preparatory school for young women in grades 6 through 12. Inspired by the teachings of the Catholic Church, The Willows is an accredited member of the Independent Schools Association of Central States.

For more information about The Willows, contact Admissions Director Gemma Cremers at (847) 824-6900.

### St. Francis attends in-service at RDHS

Aimee Lovas, St. Francis Xavier teacher and RDHS alum, Class of 1990.

From using desktop publishing for bulletin boards, to surfing the net for teacher idea sites, Regina Dominican technology coordinator Leslie Baker instructed 25 St. Francis Xavier faculty members on the practical points of educational technology. The all morning in-service, held in the computer resource center at RDHS, highlighted several methods to integrate technology into the elementary school curriculum. The in-service was arranged with Leslie Baker by Geraldine Majcin, Regina Dominican English teacher, and Rich Majcin, assistant principal at St. Francis Xavier.

Teachers from St. Francis Xavier School in Wilmette visited the Library of Congress and the Global School Network via the Internet to search for different and exciting methods to teach their respective curricula. RDHS library director John Steper took the educators on a cyber-journey through the Electric Library, an on-line resource similar to inter-library loans, and the library's CD-ROM reference materials used to find citations and full text from hundreds of print media sources.

The St. Francis group included alumnae Aimee Lovas '90 (Northbrook), Margaret Beck O'Keefe '62 (Skokie), whose two daughters, Elizabeth '91 and Megan O'Keefe '93, are also alums, Jennifer Fairbairn Ehler '88 (Chicago-Wrigleyville) and graduate parent Diane Bansley (Evanston), whose daughters, Bridget Bansley '87 and Beth Bansley McCarthy '89, graduated from RDHS. O'Keefe summed up the need for the in-service this way, "We have this wonderful technology at our disposal and many teachers don't know how to use its fullest potential. Leslie [Baker] was very helpful and tailored the lessons to our varying abilities."

### Dudycz bill prohibits benefits discrimination

The Senate Executive Committee has approved a measure by Assistant Senate Majority Leader Walter Dudycz (R-7th, Chicago) to prohibit local municipalities from selectively offering insurance benefits only to certain non-married domestic partners of their employees.

Senate Bill 228 is in response to a proposed ordinance in Chicago that would allow the city to extend health benefits to same-sex domestic partners of city employ-

ees under certain conditions, but not to an employee with a live-in domestic partner of the opposite sex.

"If this ordinance is to become law, any two men or women who share an apartment, checking account, credit card and a will could be recognized as domestic partners qualified to receive taxpayer-funded benefits, as long as one of them is an employee of the city, and only if they are both of the same sex," Dudycz said.

The 7th District Senator says an unmarried employee with an identical status, living with a member of the opposite sex, could not qualify for benefits under the proposed ordinance.

Senate Bill 228 stipulates that any unit of local government or school district that grants benefits to same-sex couples under any criteria, must provide equal benefits to heterosexual couples under the same criteria.

"I am not disputing the rights

of a city council to extend benefits to dependents of its employees. I am objecting to the selective nature of the qualifications to receive those benefits," Dudycz said. "Divorced, single or widowed heterosexual employees who choose to live with someone of the opposite sex are being punished for their lifestyle. Yet their gay co-workers are rewarded for theirs. This is not equal protection under the law."

The 7th District Senator says the legislation preempts home rule and does not require the state to reimburse employers for expenses resulting from its implementation.

Senate Bill 228 now moves to the full Senate for further consideration.

### Senate Republicans sponsor college tuition program

A prepaid tuition program that will allow Illinois parents to pay for their children's future college education at today's prices is being cosponsored by Assistant Senate Majority Leader Walter Dudycz (R-7th, Chicago).

Senate Republicans, in conjunction with the Illinois Student Assistance Commission, have introduced the initiative to offer a low-risk college affordability program for parents as an alternative to borrowing money for their children's college education.

"Today's families are already juggling mortgage payments, day-care costs, taxes and the ever-increasing expenses of daily living, and then they start wondering how they're going to pay for college," Dudycz said. "It's important that we find a way to help parents pay for college without assuming too much debt. This pre-payment plan lets us do that."

Senate Bill 878 would give parents, grandparents, family members and friends a chance to purchase tuition and mandatory fees for future college students, for a semester of college credit up to a full four years of college, with payments as low as \$50 a month.

They could choose among Illinois public universities and community colleges and have the flexibility to have benefits transferred to private or out-of-state higher education institutions. Refunds would be made if the child does not choose to attend college.

The 7th District Senator says this legislation would provide students and parents an affordable savings plan that would assure coverage of tuition and mandatory fees, be a sound investment program backed by the state of Illinois and offer federal and state income tax advantages.

Federal legislation enacted in August of 1996 provided federal income tax benefits for qualified state tuition programs. The earn-

### Do you have to file?

Will you have to file a Federal tax return for 1996? Generally, this will depend on three factors--you gross income, filing status and age. The best place to find information on whether you'll have to file is in your tax package. Included in the instructions are three charts which will help you make that determination.

The first chart covers most people. For example, if you're single, under age 65, and have gross income under \$6,550, you probably won't have to file.

The second chart covers children and other dependents. If you're single, under 65, but also the dependent of another person, you'll have to file a tax return if your combined income from wages and unearned income, such as bank interest, is more than \$650.

The third chart covers special situations. Self-employed people, for example, need to file when their net self-employment income is \$400 or more.

Finally, there are times you

should file even if you're not required to do so. For example, if you had Federal tax withheld during the year, you must file to get your money back. Also, you should file if you qualify for the earned income tax credit (EITC). That's the only way to get the money you're entitled to.

When you file your taxes for 1996, it's important to use the correct tax form. The forms in the tax package you receive in the mail are generally the same as the ones you used in the previous year. However this year, one out of five Illinois taxpayers will receive the special TeleFile package for filing by phone.

You can probably use Form 1040EZ if your taxable income is less than \$50,000 and comes from wages, unemployment compensation, or taxable interest of \$400 or less. And, you can claim the EITC. You can be either single or married and use the 1040EZ, but you can't be 65 or older or blind, or claim a dependent.

You might use Form 1040A if you had income from wages of less than \$50,000 had interest or dividend income over \$400, received pension or annuity income, or taxable social security benefits. You may also use the 1040A and claim the EITC, the child care credit, and the credit for the elderly, as well as take a deduction for contributions to an I.R.A., if you qualify.

You must use Form 1040 in all other instances. Use it to report all types of income, deductions and credits, including those you can't put on either the 1040EZ or 1040A.

Part of filing a return is deciding which filing status to use. Your filing status is based on your marital and family situation as of December 31, 1996. For example, you're considered married as long as you were married on December 31, and you should file either as married filing jointly or married filing separately. Figure your taxes both ways to see which is best for you.

You're considered single if you're unmarried or separated from your spouse by a divorce decree or separation agreement on December 31. You may file using the single filing status.

You may file as head of household if you're considered unmarried, and have paid more than half the cost of keeping up a home for another qualifying person for more than half the year.

You may file as a qualifying widow or widower with dependent child for two years following the death of your spouse. This means that if your spouse died in 1995, you can use this filing status in 1996 and 1997, if you haven't remarried and you still have a dependent child. This entitles you to use the tax rates for married filing jointly.

## Letters To The Editor

### Editorial Response

Dear Editor:  
I am writing in response to your editorial "Residents need to take back control of the Niles Park District".

As the Department Head in charge of the staff and operations of the Park Services Department I feel the need to respond to your editorial comments. You comment that "It has been no secret that there have been constant problems for at least two decades, in getting a day's work from park employees." This is an unjust and outrageous comment, one which had no place in print. Since 1987, each and every park has had new playground equipment installed, Oak Park was developed - Jozwiak Park had new batting cages and a mini-golf installed - new swimming pools - year around indoor ice rink - athletic fields improved each year - the list could go on and on. How do you think all of these things are accomplished? Let me tell you - they are accomplished by the hard working staff of the Niles Park District. They're out there working to maintain and improve the buildings and grounds of the Niles Park District and have done an excellent job. You owe them an apology - they're dedicated to making our

parks the best in the area and put in more effort than would be expected each day. They're the ones out there making ice for our children to skate on in below zero temperatures - they're the ones plowing snow for our safety on holidays - they're the ones spending their own time designing new parks and facilities - they're the ones on call 24 hrs a day for you! Please, before you make blanket statements in the future - make sure you have all of the facts. I would invite you to spend a day time - so that you may see first hand all that is accomplished in a day.

The Niles Chamber of Commerce highlighted many of our parks in their recent cable advertising campaign in an attempt to draw new families to Niles. If we are such a "problem-plagued district" which "has had a decades-old tradition of being professionally operated" HOW DID THESE PARKS GET TO BE WHERE THEY'RE AT TODAY?

Sincerely,  
Michael Rea  
Superintendent of Parks  
Niles Park District

### Township supervisor offers '97-98 budget proposal

Maine Township Supervisor Mark Thompson on Tuesday presented the township's proposed budget for 1997-98 to the Town Board.

The proposed budget for the General Town Fund totals \$2,602,981, down 8 percent from \$2,825,632 this year. Spending in the General Assistance Fund also is expected to decrease, dropping 9 percent to \$586,100 from \$644,175 in the current budget year.

The largest change in the General Town Fund comes from a \$325,000 reduction in building addition costs. An addition to the Town Hall was completed last year, so no further expenditures are expected in that area.

The General Assistance Fund budget also expects to see a

### CUB commends the Village of Niles

Dear Editor:  
The Citizens Utility Board (CUB) would like to commend the Village of Niles for endorsing the Principles of the Campaign for Competitive Electric Rates--principles that, if adopted by the state legislature, will reduce electric bills for consumers across Illinois.

Lawmakers in Springfield are currently debating ways to introduce competition into the electric industry and a decision on this crucial issue is expected this spring. At the crux of the issue is who will benefit from competition and who will shoulder the risks. The big utility companies, like Commonwealth Edison and Illinois Power, want to maintain their monopoly over residential customers for another 13 years, forcing consumers to continue paying the highest rates in the Midwest.

And under the utilities' plan, rates could go up even higher, to subsidize price breaks for big businesses and to guarantee high profits for the utility companies.

CUB has a better way. We have proposed legislation that would reshape Illinois' electric

industry in a way that would reduce rates for all consumers beginning in 1998. This measure, known as the Ratepayer Equity Plan, also would protect consumers from paying for a bail-out of the utility companies' bad investments and it would implement important safeguards to protect consumers as the competitive electricity market unfolds.

CUB is leading the fight against the ComEd/Illinois Power scheme, but we can't do it alone. That's why we helped launch the Campaign for Competitive Electric Rates, a statewide coalition of more than 70 citizens groups that are mobilizing to fight the plan proposed by the big utility companies. By adding its support to the campaign, the Village of Niles is sending an important message to our lawmakers in Springfield.

The state legislature is already debating these issues and there are more than 40 utility industry lobbyists working in Springfield trying to influence lawmakers. But if enough consumers make their voices heard, the legislature will respond. Thank you to the Village of Niles for helping CUB

make sure that changes in the electric industry benefit all consumers by lowering our rates, not raising them.

Sincerely,  
Martin R. Cohen  
Executive Director

### Thompson thanks voters

Dear Editor:  
On behalf of the Maine Township Republican '97 slate, I would like to thank all those in the community who came out to vote for us on Election Day and returned us to the Town Board. We are gratified by the overwhelming level of support you demonstrated for us.

This mandate clearly illustrates that you approve of the job we've done in the past four years, and want us to continue our leadership in the township. We are looking forward to serving you with continued responsive, efficient and fiscally responsible government in the future.

Thank you for your confidence in us and the work we have done. Sincerely,  
Mark Thompson  
Supervisor, Maine Township

### Alcohol-free life-style promoted

A German language group is planned by Jupiter Lodge #3 a branch of the International Org. of Good Templars. The first event in this direction, with a German touch, is planned on Sunday, April 20th at 3 p.m. in Victory Hall of Irving Park Lutheran Church, 3938 W. Belle Plaine Ave., Chicago (one block north-east from Irving Park Rd. & Pulaski Rd.). Note Spring Concert - same place & time Sun. May 11th.

We will start out with an informative meeting and then the program will be presented by Ron and Ingrid Gardner from the Rockford area. Ingrid hails from Germany and her husband Ron is of Swedish heritage. There will be music and singing and refreshments served.

The Order of Good Templars is active in countries around the world and is quite prominent in Germany and has its headquarters in Hamburg. The organization started in Utica, New York in 1851. We enjoy a world-wide fellowship gathering together men and women regardless of race, nationality, creed, social position or political opinion. The IOGT is most noted for its stand of total abstinence from alcohol and non-medical use of dependence-creating drugs, striving to make way for an alcohol-free culture. It is a little known fact that about

350 persons die every day in the US from alcohol-related causes.

Chicago is blessed with a wide diversity of ethnic groups and we want to reach out to all of them with our message of brotherhood, temperance and peace. A number of our chapters have a Swedish and Norwegian background and are today truly international in composition. At this time we want to start reaching out to various ethnic groups and we voted to start by inviting our friends of German heritage to possibly start a chapter using that language.

Jupiter Lodge No.3 or IOGT started on the 23rd of Aug. 1884 in the Turner Hall at Sheffield and Diversey in Chicago by Swedish immigrants. Now the group has quite an international membership. Welcome to join us on Su. May 24th for an enjoyable afternoon! For more information call (847) 825-8408.

### Help for parents under stress

Being a parent is one of the toughest jobs in the world. Call the 24-hour Parental Stress Hotline, (312) 3-PARENT, to talk over your frustrations or concerns with a trained volunteer who cares, or to obtain information on support groups and parenting skills classes. We understand and we can help!

### No-Smoking in restaurants: Should it be the rule?

Smoking has been prohibited on domestic flights for a number of years. United Airlines recently announced that it will phase out smoking on all of its international flights as well.

Many businesses prohibit smoking anywhere on premises, others are less restrictive. California has restriction on smoking, as have some cities and villages outside of Illinois.

Smoking is recognized as a health menace. Following this trend the Village of Arlington Heights, at the request of its department of Health, is considering whether it should impose a no smoking rule on restaurants.

The problem is at what point do the private rights of individuals collide with the collective rights of others in the society who are impacted by the smoking habits of others? Whose rights should prevail. What is the role, if any, of government in resolving these issues.

Join Bill Blaine, host of PLAIN SPEAKING, as he discusses these issues with Steve Daday, Village Trustee, Village of Arlington Heights, and Steve Fels, partner, Sages Restaurant, Arlington Heights.

PLAIN SPEAKING can be seen on TCI channel 65 (68 some communities) on Tuesday, 5:30 p.m., Wednesday 11:30 a.m., and Sundays at 6 p.m.

## From the Left Hand

Continued from Page 1

suburban library expansions were completed while its libraries continued operating without moving from its primary building. Could Niles have upgraded its library without such an expensive temporary movement?

In Park Ridge-Niles school district 64 votes approved additional construction for more classrooms. We wonder why the two Niles schools, Jefferson and Emerson, couldn't be re-opened as public schools rather than building additional classrooms while leasing the Niles schools for private use?

The very wealthy school district in Wilmette turned down a recent referendum to upgrade its school district. If this very money-rich district can oppose adding taxes for improved schools, what can our districts do to overcome voter opposition? East Maine school district 63 is obviously frustrated in its efforts to move forward when voters oppose any tax increases.

When the local Democratic political force (the then Blase-led machine) and the local newspaper (The Bugle) opposed the last referendum, district 63 people felt unopposed frustration frustrated their well intentioned efforts. There should be lots of discussion to explore ways of selling referenda which might meet with voter approval.

We recently visited the new Niles Park Administration building alongside Little Tam golf course. It's a handsome building with beautiful floor to ceiling window vistas of the emerald green golf course surrounding much of the building. But 3/4 of the building was unused. Was taking this building off the tax rolls and transferring it to the public sector a wise decision? And was the "reason-

able" plus-million dollar expenditure either necessary or prudent? The bargain price for such elegance might have been a wasteful extravagance.

Other park issues which might be discussed is what can be done with the Tam restaurant to overcome the present deficit it is operating under? Would a private entrepreneur better operate the dining area?

In retrospect, have the ice rink and the golf course been worth the efforts and money spent to operate them under the public aegis? We've been told only about 10% of the Tam golfers are local Niles residents. And the ice rink, which for many years operated in the red, was also used mostly by outsiders. Should Niles taxpayers have to support and operate such facilities which are mostly non-resident recreations?

Both in Niles and Morton Grove the same political parties have dominated local politics for many years. How can both communities attract new people to join the political process? The days of the Blase and the Morton Grove ACTION eras are likely to end during the next five or ten years. How can we draw new people into the political system who will grab the torch from the present office-holders?

On Monday, Bulls broadcaster Tom Dore extended his condolences to the Adreanni family, whose 43 year old son, Ken, died of a heart attack Saturday night. Tom noted what a fine young man Ken was and how he died much too soon in the prime of his life. The Adreanni family own Norwood Builders, which has built hundreds of homes in Niles in past years.

his vehicle and drove at the officer, who attempted to get out of the path of the approaching vehicle firing a single shot into the right front tire of the suspect's vehicle.

The suspect then sped off eastbound on the Edens until he lost control of his vehicle and struck a tree near the exit ramp at Peterson. The suspect then fled on foot with police in close pursuit.

At one point during the foot chase, the offender, in an effort to evade police, changed direction and ran right into the side of a squad car breaking off the outside mirror.

The suspect was finally taken into custody, and the traffic accident was investigated by the Illinois State Police.

Investigation revealed that the suspect's vehicle contained

\$1,520 worth of stolen merchandise from the Morton Grove Marshalls and T.J. Maxx stores.

The suspect, Michael Anthony Hearon of West Evergreen Street in Chicago was charged with two counts of felony retail theft, aggravated assault, fleeing and eluding police, criminal damage to property, driving on a revoked driver's license, reckless driving and six other assorted traffic charges.

Bond was set at \$100,000 and the suspect was given a preliminary court date of April 8.

The police officer's use of force in discharging his weapon during the incident is under investigation by the Public Integrity Task Force, a unit composed of members of the Illinois State Police, the Cook County Sheriff's Police and the Cook County State Attorney's office.

freshman class is smaller and fewer teachers are retiring, district officials said.

It is possible that some of the dismissed teachers may be rehired when actual enrollment for next year is known.

Union officials, however, accuse administrators of being vindictive because they have not yet gotten over the bitter 11-day strike that took almost six weeks to ratify.

Frank Mayfield, president of the Niles Township Federation of Teachers, said District 219 has a reputation of being a "revolving door district."

District Supt. Vickie Markavitch said the district would not want to lose any of the teachers slated for dismissal if it didn't have to.

## Drunken teens ...

When the offender was asked if he wished to rinse his eyes out with water, he responded with a vulgar epithet.

The two offenders were transported to the Niles Police Department where the 18-year-old offender had his eyes flushed out with cold water and both were charged with battery to a police officer, resisting a peace officer and disorderly conduct.

Bond was set at \$1,000 for each offender.

## Free White Flowering Dogwood Trees

Ten free white flowering dogwood trees will be given to each person who joins The National Arbor Day Foundation during April.

The trees will be shipped post-paid at the right time for planting in April or May with enclosed planting instructions. The six to twelve inch trees are guaranteed to grow or they will be replaced free of charge.

Members also receive a subscription to the Foundation's bimonthly publication, *Arbor Day*, and *The Tree Book* with information about tree planting and care.

## Weight Loss versus Weight Control

While we may talk about needing to "lose weight," it's body fat that we actually hope to lose. Recent reports may help us differentiate between the two, and realize the need for comprehensive, individualized approaches to weight control. The medications now prescribed to assist with weight loss may be helpful for some people, but they should not be used unless the patient is ready to establish new lifestyle habits. Renowned obesity researcher C. Wayne Callaway, M.D., notes that there is "absolutely no data" that drugs are beneficial if used without "structured programs to establish sound eating patterns, regular physical exercise and self-monitoring of these behaviors."

A recent journal of the American Dietetic Association study of overweight middle-aged men compared the effects of exercise and diet. Those in the "diet" group (with no change in exercise) lost the most weight, but 40 percent of the weight they lost was muscle. This result could make it difficult to maintain a normal metabolic rate and keep off weight since muscle burns more calories than fat.

Men in the exercise group (with no change in diet) pursued mostly aerobic exercise (walking, swimming, jogging, biking) on three to seven days per week. The total amount of weight they lost over the year long study averaged less than six pounds but 80 percent of it was fat.

The study illustrates the reason for recommendations to combine physical activity and changes in eating habits. While much of the weight loss may result from eating less fat and calories, activity is the key to maintaining muscle tissue and reducing the chance of regaining weight.

A recent statement by the American Dietetic Association notes about a third of obese people seeking treatment may suffer from binge eating disorders, featuring frequent incidents of out of control eating.

research suggests that traditional weight loss programs may be particularly unsuccessful for these people, and they may need help from dieticians and therapists who specialize in this area.

Whether due to inherited tendencies, or for other reasons, some people may be so overweight that trying to reach publicized "healthy weight" goals may be unrealistic. The dietetic association statement endorses a second concept of "healthier weight" goals, which aim for achieving and maintaining a loss of 10 to 16 pounds, regardless of whether this results in an "ideal weight."

The dietetic association's statement declares that all weight management programs should "at the very least" include the development of a lifestyle that includes gradual change to a healthful eating style with increased whole grains, fruits and vegetables; a nonrestrictive approach to eating based on internal hunger signals; and a gradual increase to at least 30 minutes of enjoyable physical activity each day.

Experts emphasize that there is a big difference between weight loss and long-term healthy weight control. They urge us to aim for good health and let an individual healthy weight come along as just one of the benefits.

### Looking for Galesburg Alumni

Do you remember when the University of Illinois was in Galesburg?

After World War II, the Urbana-Champaign campus did not have the facilities to accommodate all the students returning to school.

The solution was to open a campus in Galesburg and at Navy Pier in Chicago. Recently, Navy Pier celebrated the 50th anniversary of the University of Illinois at Navy Pier, and now plans are underway for a 50th anniversary celebration of the University of Illinois at Galesburg.

The campus existed from 1946 to 1949. Some 1,800 students attended. The University of Illinois Alumni Association has records and addresses for 275 alumni who continued at the U. of I. We would like to locate as many Galesburg students as possible.

On September 12 and 13, we will celebrate in Galesburg. Several alumni have asked to help organize the event. It will be two days of programs, displays, tours and reminiscences.

If you attended Galesburg and you haven't heard from the U. of I. Alumni Association, it means we probably don't have a mailing address for you. If you are interested in reconnecting and participating, call the Alumni Association at (217) 333-1471 or 1-800-355-2586. We'll send information the same day you call. We're looking forward to hearing from you.

Wolszczak, a resident of Niles and a graduate of Maine Township High School, is a freshman fashion design major at Rosary.

### DesPlaines residents raise "Bail" money

The American Heart Association of Metropolitan Chicago is "arresting" DesPlaines residents and asking them to raise "bail" money to fight the community's number one killer. Cardiac Arrest, the AHA's community-based fund raiser, will take place on Thursday, April 10 from 11:30 a.m. - 1 p.m. at the Heritage of DesPlaines retirement community at 800 S. River Road.

The Cardiac Arrest "parole board" is made up of business and community leaders in the area. The parole board "arrests" co-workers, business associates and friends and asks them to raise "bail money" for the American Heart Association.

Arrestees will present the funds on the day of the event - their "court date" - where they will have their mug shot taken and "Judge Heartless" will sentence them to perform amusing "punishments" such as doing a Tarzan impersonation, singing the alphabet song, or whatever else the judge may decree.

"Cardiac Arrest is a fun event, but we don't take heart disease lightly," said Jorie Ouimet, regional director of the American Heart Association. In 1994, cardiovascular disease caused more

than 43% of all deaths in DesPlaines.

The Cardiac Arrest parole board is led by nine business and community leaders from Holy Family Medical Center, First Federal Bank, Oakton Community College, UOP of DesPlaines, LaSalle Bank, Loyd Creative Staffing and the DesPlaines Public Library.

"Our parole board members are well-acquainted with the community," said Ouimet. "We hope to arrest about 40 people for a goal of \$5,500." The AHA uses donations to support cardiovascular research at Chicago area hospitals and prevention-oriented educational programs for schools, businesses and individuals.

To get involved with your local American Heart Association, contact Jorie Ouimet at the American Heart Association's north suburban regional office at (847) 362-0808.

The American Heart Association of Metropolitan Chicago is the Chicago area's largest voluntary health agency fighting heart disease and stroke, which kill more than 954,000 Americans annually.

### Twelve area routes planned for 9th annual MS WALK

A goal of 10,000 walkers, one for each person served by the Chicago-Greater Illinois Chapter, National Multiple Sclerosis Society in 73 northern and central Illinois counties, has been announced for the nonprofit organization's 9th annual MS WALK presented by Mercedes-Benz to be held on Sunday, April 13 in 12 communities.

Proceeds of this major annual effort offered by MS chapters nationwide benefit national research and local client services programs. The dollar target established for the Chicago-Greater Illinois Chapter is in excess of \$1 million dollars, a figure achieved in the 1996 Walk.

Multiple sclerosis is a chronic, often disabling disease that attacks a person's central nervous system. The progress, severity and number of symptoms vary from one person to another and may include slurred speech, double vision, unusual fatigue or paralysis. The disease is most often diagnosed in persons between 20 and 50 with some 200 new cases determined each week nationwide.

Walkers in the local chapter's event will seek pledges from sponsors in support of their effort as they follow routes varying from 7 to 9 miles. Participants may walk on their own or as part

of teams composed of families, friends or coworkers. In addition to Chicago's lakefront, routes are developed for DeKalb, Fox Valley (beginning in St. Charles), Joliet, Kankakee, McHenry County, Morris, Naperville, the North Shore (Highland Park), Northwest Suburban (Elk Grove Village/Schaumburg), Oak Forest and Rockford.

Each MS WALK route will be staffed by volunteers who will help with registration and provide snacks and beverages at rest stops. All participants who raise at least \$100 receive a 1997 MS WALK T-shirt; at \$200 the walker earns a WALK sweatshirt. A choice of Lettuce Entertain You or Spiegel's certificates in increasing value are awarded at levels from \$300 to \$5,000 raised. The top MS WALK fund raiser and a companion will be awarded round-trip airline tickets to anywhere in the continental U.S. courtesy of American Airlines.

MS WALK registration forms, information about each route, suggestions for how to organize and promote participation as a team, pledge fulfillment tips and details of volunteer opportunities are available by calling the Chicago-Greater Illinois Chapter, NMSS at 312/922-8000 or 1-800-922-0484.
