Diana Salon good grooming for the whole family

Despite though she opened the
Diana Salon just four years ago, she
has been doing hair and makeup for
years. She and her husband, Alex,
avoid many of the same talents as
her husband.

The Diana salon offers many of
the services that Dianna offers at
her salon, including the best of the
business and hair coloring.

For example, a group of people
were getting ready for a wedding
time. They were enjoying the
service, and Diana structured a
special event for them.

After the event, the group
enjoyed the food, and Diana
was able to provide them with
different menu options.

In addition, Diana offers
services for men, women, and
children. She also provides
services for people with
special needs, including
people with disabilities.

In honor of Richard’s
disability, she has opened a
free salon for people with
special needs.

Diana also offers
services for people
with hair loss, and
she provides
services for people
who are under
18.

She offers a variety
of services, including
haircuts, hair coloring,
and hair styling.

Diana also provides
services for people
who are
pregnant.

While she is located
in the Cook County
Healthcare, she
also offers
services
for people
who are
elderly.

Diana offers a
diverse menu

Jerry Lewis thanks Niles residents

Dear Editor,

The people of Niles have done a great job! They really pulled out all the stops when they were asked to do so in the wake of Hurricane Katrina. Through your efforts, Niles is up and running again. Thank you for all your hard work.

Sincerely,

Jerry Lewis

FAQ's about the Flu

Being one of America's "safest kid" is a state of mind. It's a state of being. It's a state of being where you are always thinking about safety. Do you know about safety? Do you know about flu? If you do, you know that the flu is a virus that can cause serious illness and even death. It's important to be aware of the flu and to take steps to protect yourself and your loved ones.

What is influenza? Influenza is a viral respiratory infection that can cause fever, cough, and other symptoms. It's contagious and can be spread from person to person through coughing, sneezing, or touching contaminated surfaces.

Who should get the flu shot? The flu shot is recommended for everyone over the age of 6 months. It's especially important for people who are at high risk of severe flu, such as:

- People over age 65
- People with certain chronic health conditions, such as diabetes, heart disease, and asthma
- Pregnant women
- People who live in a nursing home or other long-term care facility

The flu shot can help prevent flu and reduce the severity of illness. It's safe and can help protect you and those around you.

Flu symptoms:

- Fever
- Cough
- Headache
- Muscle aches
- Fatigue
- Nausea or vomiting

Preventing the flu:

- Get vaccinated
- Wash your hands frequently
- Avoid close contact with sick people
- Stay home when you are sick
- Use a mask when you are sick

The flu vaccine:

- Is made each year to protect against the flu strains expected to be common that year
- Can prevent illness and hospitalization
- Can reduce the severity of illness
- Is recommended for everyone over the age of 6 months

The benefits of the flu shot:

- Protects you from flu
- Protects others from flu
- Helps save lives
- Helps prevent hospitalizations

The flu shot:

- Is safe
- Is effective
- Is recommended for everyone over the age of 6 months
