D63 fundraiser went ‘like hotcakes’

BY ANDREW SCHNEIDER
editor@buglenewspapers.com

Diners lined up outside of Flapjacks Restaurant in Niles last Wednesday, April 21 to donate money to East Maine School District 63’s Total Learning Center (TLC), and have a good meal.

“People were actually lining up outside the restaurant,” said Pam Surber, director of the TLC. “We were really moved by the turnout.”

Over 500 people came to Flapjacks between 4 p.m. and 8 p.m., hours when the restaurant is usually closed. Surber lauded Flapjack’s Owner David Eddy for his generosity. He donated all the proceeds of the evening to the TLC: approximately $3,500.

“The Flapjack’s staff was very accommodating,” said Surber. “David Eddy is a very generous man.”

Morton Grove preps for summer events at St. Paul Woods

The Village of Morton Grove is bracing itself for a series of large events that have been permitted by the Forest Preserve District of Cook County. St. Paul Woods in Morton Grove has been designated as one of five “super site” by the Forest Preserve District. Those sites will host the largest events permitted for the summer of 2004.

“The philosophy is that they focus their efforts on these five sites,” said Morton Grove Village Administrator Ralph Czerwinski. “We’re indicating that we’re willing to take a few but we’re concerned about their impact. But they’re arguing that we won’t even know the difference.”

One of the village’s concerns is a lack of necessary parking at St. Paul Woods. Czerwinski said that other locations in the village were better suited to receive large groups.

“We think that Harms Woods would be a better place,” he said. “There’s a large parking garage there that can handle the large numbers of cars better than residential streets.”

The County has assured Morton Grove that they will not be impacted by the planned events. “They’ve issued permits and we’ve had discussions about traffic,” Czerwinski said. “We thought they were going to use the ‘meadow’ for parking but they’ve indicated that there will not be any landscaped parking because of concerns about pollution and erosion.”

That leaves St. Paul Woods.

individuals. We were there from 3 p.m. to 10:30 p.m. We didn’t sit down. It’s the best thing we’ve ever been.

The TLC was established by a grant awarded to District 63 from the U.S. Department of Education. Its mission is to provide a wide array of expanded education and enrichment opportuni- ties for students, families, and the entire community when school is not in session. The entire staff of the TLC was on hand to serve guests at the event.

"The event was considered to be the hostess Suiber bad lunch at Flapjack’s on June 6, 13, 20, and 27, July 4, 11, 17, 18, and 25, August 15 and 22, and September 1, 8, 15, 22, and 29, and October 1, 8, 15, 22, and 29.

We would like to do it again," said Suiber and the TLC staff who were so friendiasthehostees ever been.”

Flapjack’s.

"We’ve been impressed with the event that they plan on having at our restaurants with only 472 paved parking spaces. There is always a long line of cars waiting to enter the lot. We’re going to see how it rolls out because the parking ratio. We’re going to see how it rolls out because the parking ratio. We see so many people drive up and go elsewhere because they can’t find a parking space.

Several of the events have been canceled due to the parking situation. We have had to shut down our parking lot at times because the cars are parked in the street and on the sidewalk.

Some of the events have been canceled due to the parking situation. We have had to shut down our parking lot at times because the cars are parked in the street and on the sidewalk.

Don't miss out on this opportunity to support District 63 and the entire community when school is not in session. Mark your calendars for the next TLC event on May 1 at the Bunker Hill Woods Park. No tickets are sold at the door. Please call 630-930-5000 for more information or visit the website at district63.org.

The benefits of ovarian cancer screening are vast. Early detection can lead to improved outcomes and increased survival rates. It is important for women to understand their risk factors and take action to screen if necessary.

At the TLC event, there will be a variety of food and beverage options available, as well as entertainment and raffle prizes. The event is open to the public and is free to attend. Please mark your calendars and plan to attend this important event.

Remember, early detection is key to improving outcomes for ovarian cancer patients. Let’s work together to raise awareness and support for ovarian cancer screening and research.

The event will feature a silent auction, live music, and a delicious meal. There will also be raffle prizes available to win.

Trisha Bunker, the event chair, said, "We are excited to host this event and create a fun atmosphere for our guests. We hope many people will attend and support the cause."

The event will be held at District 63 Community Center from 6:00 p.m. to 9:00 p.m.

roads.

The village has also taken steps to help mitigate the influx of traffic. As of May 1, the two left-most lanes in the plaza will be closed during the next month as an 1-PASS lane is expected to take 28 days to complete. But the second automatic lane is expected to be open after two weeks following concrete work.

Adams said, "It's a great family event," and Adams with his wife wanted the event to benefit an organization that gives back. Make-A-Wish seemed like a natural choice.

"It's a great organization," Adams said. "We'll continue to organize the event to benefit Make-A-Wish. It's a great tribute to our daughter's memory."

"It's humbling," he said. "I have a hard time understanding, but it's a great tribute to Anelise's memory. I know she would be proud."

This year the money raised at Anelise's Run will go entirely to benefit an organization that gives back. Make-A-Wish seemed like a natural choice. "It's a great organization," Adams said. "We'll continue to organize the event to benefit Make-A-Wish."

"It's a great tribute to our daughter's memory," Adams said of Make-A-Wish. "We thought, that first year, we had about 140 volunteers working for the event."

"That brings us to a total of 2000 people coming to support the event which benefited the Make-A-Wish Foundation," said Organizer Michael Adams. "We're the largest sponsor of Make-A-Wish."

"It's even begun to expand beyond Park Ridge. People in the surrounding communities are becoming aware of it," said Adams. "We'll become aware of the shows at them in the organization for the next year."

Adams said, "We have participants in the run that tell us it doesn't matter if it rains or shines," Adams said, "they'll walk anyway."

The effort to organize the event begins each January 1 and continues through the next four months, culminating in the run on April 25. "We have participants in the run that tell us it doesn't matter if it rains or shines," Adams said, "they'll walk anyway."

"We're the largest sponsor of Make-A-Wish."

**Opinion**

**Who's looking out for local business?**

**By Chuck Williams**

As a new homeowner of Morton Grove's Kitchen Store and a Park Ridge resident, I have taken it upon myself to look into this situation as well as you do. Several businesses in the area are having trouble getting their products out there, which is why I am writing to you today.

First of all, I think it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

I think that it is about time that we start to think about what the future of our town will be like. We need to think about what will happen if we do not do anything about this situation.

Mortgage Grove Chamber plans annual golf outing

The Morton Grove Chamber of Commerce will hold its 26th annual Golf Outing and Dinner Fundraiser on Monday, June 28. Check-in and Lunch are at 11:30 a.m. The shotgun start is at 1:30 p.m. The dinner and raffle will follow at 6 p.m.

This year’s outing will take place at the Highland Park Country Club, 1210 Park Avenue West, Highland Park. Tickets are $155 for two people, $125 for lunch only, or $35 for dinner only.

The event range from $150 for lunch, dinner, golf, a raffle ticket, and two complimentary drink tickets, to $75 for golf and lunch or $50 for dinner only.

Reservations for the event must be made and paid in full no later than Friday, June 18. For more information or to register, please contact Niles Morton Grove Chamber of Commerce at (847) 966-4444, by fax at (847) 966-4445, or visit www.nmegg.org.

Niles Re/Max Associates hailed for 2003 sales

Nine associates at ReMax All Stars, 7000 Milwaukee Ave., Niles were recently selected by ReMax Northern Illinois for sales success in 2003. They were among more than 120 associates nationwide who meet the criteria of the company’s Recognition Program, which recognizes high-achieving associates.

Several of the associates were honored during the ReMax all-star convention at the Oak Brook Hills Resort and Conference Center in Oak Brook, Ill.

Car crashes into Morton Grove Post Office

BY ANDREW SCHNEDER

Workers and patrons at the Morton Grove Post Office, 8148 Waukegan Rd., were surprised Monday when a Honda Civic crashed through the front door, destroying a portion of the Post Office's facade.

No one was injured in the incident that destroyed a portion of the Post Office's facade, leaving it damaged and the door broken.

Postal employees were surprised Monday when a long-time Morton Grove resident, who had been in line at the time of the accident when the car came to a stop, the driver admitted he had been an explosion. No one was injured in the accident.

After the car came to a stop, the driver apologized to Postal employees and patrons. Workers on duty at the time said it sounded as though a bomb had been exploded.

A worker constructs a temporary wall to replace the one demolished by the Honda Civic that unexpectedly drove through the front door of the Morton Grove Post Office Monday. The car passed between concrete barriers in front of the building.

The driver said he was a bit afraid at first and turned it was just an accident, said Hermes. The driver of the car was speaking on behalf of everyone.

MOTHER'S DAY’S U.S. ORIGINS MAY SURPRISE YOU

By Wendy Ellis
wells@dailybugle.com

I am and Marian Thill are expecting company five days a week and they’re not even excited. The visitors will fly in anytime now, for the Morse Groove couple’s back yard is a place for a week of feeding, giving a chance for new arrivals on their long journey, and Jim and Marian intend to stay on them the whole time they’re there. That’s as much as it would cost them to make camp. Some migrate both ways back north, but the number of migratory birds in Vincennes, where the Thills backyard has become a prime stopover for warblers of all kinds, not to mention other forms of wildlife, since the Thills transformed their yard into a natural habitat about a dozen years ago.

“We always enjoyed nature in the open areas,” said Marian. “But we looked around the neighborhood and noticed how little there was, nothing moving, no sound about a family bonds. The first Mother’s Day observance was in church services honoring the elder Jarvis held in Great Falls, Va., and Philadelphia on May 10, 1872. By 1911, every state in the country had its own Mother’s Day observance.

On May 10, 1893, a New York City women’s club named Woman’s World Sunday signed a bill promoting Mother’s Day in the United States.

As Mother’s Day became more popular, the Jarvis family became part of the peace at a convention selling candy and flowers to the group. Before her death in 1941, Laura was asked to name the holiday in the names of the Jarvis family. However, many florists, card makers and candy companies competed for attention. What is known as Whitman’s Chocolate, founded in Philadelphia in 1842, became known as the first manufacturer to produce a chocolate bar for sale. The chocolate was made using milk that had been heated on the stoves in the jars. The jars were filled with milk and then placed on the stoves. The milk was boiled and then the jars were closed. The jars were left to cool and then the chocolate was solidified. The chocolate was then cut into bars. What is known as Whitman’s Sampler, to come back to the Jarvis family. Whitman’s stores were set up in the United States, and the chocolate was made using milk that had been heated on the stoves in the jars. Today, the Jarvis family’s name is still associated with a popular gift given on Mother’s Day. It can be given in 10, 15, or 25 seconds in the United States.

Butterflies and Hummingbirds are also on this list. The Morse Groove couple have a row of plants that attract that they registered ever starting the Morse Groove couple have a row of plants that attract the bees and butterflies to garden in color, says Marian. "They don't want just any one want a group, maybe bright yellow or orange. They have bees and butterflies to garden in color, and many are foot specific. In other words, they won't eat nectar or any other plant. That's why violets are left alone in the Morse Groove couple have a row of plants that attract the bees and butterflies to garden in color, and many are foot specific. In other words, they won't eat nectar or any other plant.

MORTON GROVE RESIDENTS TURN YARD TO MIGRATION PIT STOP

Marian and Jim Thill have created a haven of natural beauty in their front and back yards in Morton Grove. Most plants are native foliage that reflects the beauty of local wildlife instead of exotic species. The whole yard consists of native plants that attract butterflies and hummingbirds. It's the water that attracts the bees and butterflies. With a couple of waterfalls in the yard, they want to enjoy it all they must know how to be neat, we have never had problems with neighbors. The Thills know if they were interested in the yard, they would be the perfect family. The Thills know if they were interested in the yard, they would be the perfect family.

Let's start with the simplest rewiring job, the single socket:

- Unplug the lamp.
- Remove the shade and harp, and leave them sticking out of the base.
- Disassemble the sockets. Detach the "neutral" wire and a "hot" wire; this is a Hanauer, e/o King Features Synd., Inc. 1924-2004. (e) 2004 King Features Synd., Inc. All rights reserved. Published by King Features Syndicate, Inc., 333 W. 42nd St., New York, N.Y. 10036. For North American use call (212) 290-5900. International use contact (212) 290-5800. For non-U.S. use contact (212) 290-5600.

- Split each of the short wires (one piece per socket).

- Split the end of each of the short wires and strip 1 (2-inch of insulation from the bare wire tips (one piece per socket). After that, you're fixing), 2 feet of additional lamp wire (with no plug) and 2-3 knots at the base of the split.
- Strip 1/2-inch of insulation from the end of each wire and twist the metal strands tight. Use needle-nose pliers to bend the bare wire into a knot at the base of the split.
- Strip 1/2-inch of insulation from each end of the short wires with a small piece of tape. (Wiring is split, twisted wire is neutral, and smooth wire is hot, but read the wiring instructions on the back of the package.)

- Bend and attach the socket ends of each wire to the corresponding terminals used on the switch, as follows:

  - For the other end, match the neutral ends of the short wires to the neutral end of the plug cord. Twist ALL wires with a small piece of tape.
  - Place a wire cap over each twisted wire end and pack the wires into the top of the plug.
  - Replace the socket base.
  - Reassemble the socket.

- Supply the cord with electrical wire caps.
- Place the lamp, snip off the old plug, and tie during replacement: leave it in the socket to eliminate confusion.
