Strzelecki promoted to chief of police

29-year veteran loves Niles

BY ANDREW SCHNEIDER

Niles Deputy Police Chief Dean Strzelecki was chosen to fill the soon-to-be vacant job of police chief by the village board Tuesday, July 27.

The 29-year veteran will replace Gerry Sheehan who has held the post since 2000 and will be stepping down this September. Strzelecki has served as a patrolman, detective, sergeant, watch commander, and was promoted to deputy chief in 2000. He is currently in charge of the Police Department’s Administration Division.

“Being forward to the challenge,” Strzelecki said. “I really love working with the staff.”

The village made a commitment to choose an internal candidate because the transition would be easier. But it wasn’t just about choosing a local, Niles Mayor Nick Blase said that Strzelecki was a highly qualified candidate.

“In the 44 years I’ve been mayor we’ve always done it this way,” said Blase. “If you have a quality candidate, you should go with them and Dean is a qualified candidate.”

Strzelecki has been a Niles resident since age 16 and has coached baseball and football. Now, he’ll be managing the department’s budget as well as overseeing its three divisions that are managed by two deputy chiefs and a division commander.

“This is a great town to work for,” Strzelecki said. “I’m not only looking forward to the challenge of managing the police department but also to giving back.”

When Trustee Tom Bondi announced a motion to promote Strzelecki to the chief’s position, the board room packed with police department personnel and residents applauded.

Deputy Chief Dean Strzelecki was selected by the Niles village board at their Tuesday, July 26 meeting. Pictured above from left is Mayor Nick Blase, Dean Strzelecki, Trustee Bob Callero and Trustee Tom Bondi.

Maine Township Republican Officials Announce 2005 Slate

The current Maine Township Board has announced a full slate of candidates for the Township elections to be held in April, 2005. Supervisor Bob Dudycz (Niles) heads the ticket of incumbents to be known as Maine Township Republican Officials. The slate includes Trustees Walter Kazmierzczak (Park Ridge), Carol Tschacky (Glenview), Laura Morask (Park Ridge), and the current Collector Audrey Nankervis (unincorporated area) now running for the fourth Trustee position.

Incumbents Clerk Gary K. Warner (Park Ridge), Assessor Tom Rueckert (Glenview), and Highway Commissioner Robert Provenzano (Des Plaines), are seeking re-election to those posts.

In addition, newcomer Susan Flosi-Moylan (Des Plaines) is running for Collector.

“We are extremely proud of this slate for many reasons but mainly because it represents proven, experienced leadership,” Dudycz says. “During the past four years, we have accomplished many positive things to improve the lives of those living in Maine Township, especially the 30,000+ who live in the unincorporated areas and depend heavily on effective township government for services. We are proud of the way services were expanded during a time when our budget was limited by tax caps. We balanced the budget without loans or new taxes while improving programs and adding services.”

All departments performed well, according to Dudycz. For example, the Highway Department dealt with a severe winter and area flooding while keeping on budget. The Clerk’s office continues a wide variety of services and added new ones such as the wildly successful passport application-processing program.

Deputy Chief Dean Strzelecki was selected by the Niles village board at their Tuesday, July 26 meeting. Pictured above from left is Mayor Nick Blase, Dean Strzelecki, Trustee Bob Callero and Trustee Tom Bondi.

A Field In Bloom

Wildflowers are blooming in a prairie north of Linne Woods in Morton Grove. They fill nearly the entire field and can be seen by drivers looking to the east of Lehigh across the Union Pacific Railroad tracks. Be careful crossing the tracks because there is a prairie preserve between them and the field.

Niles honors Notre Dame basketball players with special road signs

BY ANDREW SCHNEIDER
editor@buglenewspsporh.com

The village of Niles has installed four signs at a gateway intersection signaling Notre Dame players with special road signs to inform anyone driving by that this is the home of the 2004 Illinois State Champions.

"Notre Dame is the only high school in the village. It seemed right that we give them some recognition," Steve Vinezeano, Niles Assistant Village Manager.

The sign reads: Village of Niles, Home of the 2004 IHSA State Boys Basketball Champions, Notre Dame High School 'Dons.' They have been installed at the intersections of Dempster and Greenwood; Golf and Milwaukee, Alston and Milwaukee and on Oakton just west of Caldwell.

The Dons won their first ever state championship on June 12. Team members and the community at large were ecstatic and the Dons were even honored with a space to march in the village's Fourth of July parade.

"They got a lot of cheers in the parade," said Vinezeano. "It was a really nice comeback story."

Steve Vinezeano said that it was the community support that inspired Village staff to erect the signs.

"When it happened there was community-wide support for the school and the team," he said. "Having that we're really happy the Dons don't just say something about the school, it is something about the village."

The sign reads: Village of Niles, Home of the 2004 IHSA State Boys Basketball Champions, Notre Dame High School 'Dons.'

Dear Editor,

In Park Ridge having an enfilade title at the "Association Capital of Chicagoland"? Park Ridge has been historically a very desirable location for associations. Associations like the location close to O'Hare Airport since association staff is fly by a bit and their visitors needn't even enter in for another layer of business.

And apparently the combination of all these factors is where they come from. They have come from the same area major and minor, the most recent was the "Association Headquarters" The most recent was "in association with the village's TIF expenses" as the "ABT Massquerade?" No joke. Now move to create an exciting local environment and mindset "crisis" for Uptown. News, change, excitement, revenue, and your (positive) adjective profits.

Letters

Park Ridge no longer Association Capital

Dear Editor,

The Humpty Dumpty of Village Trust

Dear Editor,

The Humpty Dumpty of Village Trust is a torso located on the lawn behind the Village Trust. It is an oversize half-figure of a man, perhaps 10 feet high. It is probably made of wood and painted to look like a man. It has no head and no arms. The legs are wide apart and the body is bent over at the waist. The name "Humpty Dumpty" is painted on the side. The figure is surrounded by a small fence. The Humpty Dumpty is located at the corner of 8th Avenue and 1st Street. This is a public park and anyone is welcome to visit it.

The Village Trust is a nonprofit organization that provides housing and financial assistance to low-income individuals and families in the Park Ridge area. They have been providing services since 1973 and have helped thousands of people with various needs, including housing, food, and utilities. The Humpty Dumpty statue has been a symbol of the Village Trust's commitment to helping those in need.

The statue itself is quite striking. It is painted in various colors, including red, white, and blue, and has a weathered appearance. It is located on a concrete pedestal and is surrounded by a small fence. The words "Humpty Dumpty" are painted on the side in large letters.

Despite its somewhat neglected appearance, the Humpty Dumpty statue continues to be a popular attraction in the Park Ridge community. Many people come to visit it, take pictures, and remember the history and work of the Village Trust.

The Village Trust is always looking for volunteers to help with their various projects, and anyone is welcome to contact them to learn more about how they can get involved. If you're interested in helping out or learning more about the Humpty Dumpty statue, be sure to stop by and see it for yourself!
Strzelecki

(Continued from page 1)

"I think he's a great guy," said Blume. "He's going to make a great chief." But for Strzelecki, the recognition of his new post is less important than saving the old police department.

"The employees are the most important part of the department," Strzelecki said. "They're providing service to the people and my plan is to see that they're treated well."
2005 Slate

grams, he said. Among the accomplishments of the last administration, Dudycz highlighted the following:

Single Hauler Program: "For 25 years, residents have complained about garbage pickup," he said. "We placed solicitors in the last 10 blocks. The situation improved dramatically when we gave them the authority to fines residents who failed to pick up their trash, even sending a wide range of serious penalties."

General Assistance Work and Systems Modernization: General Assistance appointees, who are physically able, are now assigned to work five hours each week to benefit the Township. They reaffirm their ability to do clerical work or walk the neighborhood in search of employment.

They refinish furniture, do tight closing, and sell them at a meaningful price. The General Assistance Workforce program is proving to be well used."

Residential Evaluation: "I believe our residents can be proud. Dennis says, "It has proven to be well used."

Start Studenting College Savings Strategies

In just a month or so, many of our students' parents will have to pay for college tuition, books and their children's extracurricular activities.

One of the most important steps in preparing for college is to think about the costs associated with attending college. Many students are surprised by how expensive college can be. In fact, after high school, many individuals find that they need to start saving for college in order to be able to afford tuition and other college expenses.

To help pay these hefty bills, many want to consider the use of college savings vehicles. One such vehicle is a Coverdell Education Savings Account (ESA). A Coverdell ESA is a tax-advantaged account that allows you to save for a child's higher education expenses. It can be used to pay for tuition, fees, books, supplies, and room and board.

There are two types of Coverdell ESAs:

1. Coverdell ESA for a child: This account can be used to pay for qualified education expenses for the child's child, including tuition, fees, books, supplies, and room and board.

2. Coverdell ESA for a non-child: This account can be used to pay for qualified education expenses for any person who is not a child of the account holder.

In order to qualify for a Coverdell ESA, you must meet certain income limits. The maximum contribution limit is $2,000 annually for a Coverdell ESA.

In general, the account holder must make the contributions to the account. However, if the child is not a U.S. citizen or U.S. resident alien, the account holder can make the contributions to the account on behalf of the child.

Once the contributions are made, the money in the account grows tax-free. When the funds are withdrawn to pay qualified education expenses, they are not subject to any federal income tax.

There are certain restrictions on when and how the funds can be withdrawn from a Coverdell ESA. For example, the funds can be used only for qualified education expenses, such as tuition, fees, books, supplies, and room and board. The funds cannot be used for living expenses, such as rent or food.

In addition, the account holder cannot withdraw the funds for any purpose other than education expenses until the child reaches age 18, or if the child is blind or permanently and totally disabled. If the funds are withdrawn for any other reason, the account holder may be subject to a 10% penalty tax.

In conclusion, the Coverdell ESA is a valuable tool for saving for a child's higher education expenses. With its tax-advantaged status and flexible withdrawal rules, it can provide a valuable financial benefit for the account holder and the child.

The Pittsburgh Pirates, coaching staffs and the organization have a long history of developing young players. They have been at the forefront of cultivating young talent, and the results have been impressive. The Pirates have a reputation for developing stars from within, and they have a strong tradition of producing homegrown talent.

This is a question of whether or not the Pirates can maintain their development system. The team has been successful in recent years, but sustainability remains a concern. The organization must continue to identify, develop, and promote young talent to ensure long-term success.
