The left engine of American Airlines Flight 1374 exploded last Thursday as it passed over Niles, scattering wreckage along Touhy Ave., throughout nearby Edison Park, in St. Adalbert's Cemetery and in Pioneer Park. The flight took off from O'Hare International Airport bound for Philadelphia. 107 people were aboard. About ten miles out from the airport something went wrong in the plane's left engine, which forced the plane to make an emergency landing at O'Hare. Evidence indicated that a bird may have struck the plane. No one was injured either in the plane or on the ground. Police swarmed the area surrounding the intersection of Harlem Ave. and Touhy. Most of the wreckage found was small in nature, ranging from pieces of engine cowling to twisted bits of metal. "It was right over my head," said Connie Ball of Niles. She was in Pioneer Park with her son Carson and friend Tina Nielsen when the explosion occurred. "We just heard an explosive sound and then we could see that the plane’s left engine was on fire." Ball said that they were looking directly at the plane when it happened because her son likes airplanes. "We could see smoke and fire coming from the plane and then it suddenly veered off back toward O'Hare," she said. "We couldn't see any smoke after it went out of sight." Ball and her companions didn't see anything fall from the plane, but were shaken by the incident. "It was really scary," she said. "I've never seen anything like that. I fly a lot and it makes me wonder whether I'll be scared to get on my next flight. I'm glad I wasn't on that plane." Residents of Niles helped police comb Pioneer Park Thursday, looking for anything out of the ordinary. A variety of pieces were handed in to police from about three inches to six inches in size and of various materials. "I heard a noise from one of the Renaissance Condos," said Connie Bethel. "But I just thought it was the garbage."

BY ANDREW SCHNEIDER

The Morton Grove Organization, LLC (MGO), filed a response in the village motion to dismiss filed by the village. The county court issued a case management order Wednesday that requires by Nov. 12 for a hearing on the village’s motion to dismiss. The order stated that while there are some questions that require a hearing, the village motion to dismiss is viable.

I think the motions to dismiss will succeed.”

Ted Hadley, representing the village, said.

The judge and Park District Trustees in the April 5, 2005 meeting displayed a Certificate of Approval for the park. The certificate was presented to Mayor Nick Blase and the trustees for their use in the park. The certificate was presented to Mayor Nick Blase and the trustees for their use in the park.

South Park Church Hosts Blood Drive Oct. 4

The City of Park Ridge and LifeSource, Chicagoland’s Blood Center, are teaming up to save lives. The community is invited to give the gift of life at the blood drive scheduled from 2 – 8 p.m. Oct. 4 at South Park Church, 1330 S. Courtland, Park Ridge.

“I think that everyone who is able should come forward to do what they can to help others,” said George Johnsnu, blood drive chairperson. “We are proud to sponsor this blood drive with LifeSource which helps the members of our community.”

Every two seconds someone needs blood. Blood is needed daily for surgeries and medical procedures — cancer treatments and emergencies. Your donation makes a big difference because every time you donate blood you save the lives of three people. It’s easy to donate. The donation process takes about an hour and it’s perfectly safe and comfortable.

Donors have to be at least 17 years old, weigh at least 110 pounds and be in general good health. Most medications are accepted. Please bring photo identification such as a driver’s license, state ID or passport. Walk-ins are welcome. To schedule an appointment, call (847) 803-7943.

Maine Township selects single waste hauler for unincorporated area

It’s what can be described as a procedure setting move, Maine Township’s Board ended a nearly two-year quest to provide the 3,000+ residents of the unincorporated area with lower cost, higher quality waste removal service. Last night the Board approved ARC Disposat as the Township’s designated hauler.

ARC was approved by the Board based on an unanimous recommendation of the Citizens Garbage Committee which has been working on the matter since the successful referendum this spring gave the Township the public approval to pursue a single waste hauler and eventual contract for service.

After reviewing responses to a Request for Proposal, the Committee and Superintend Bob Dudycz did an analysis of all bids. The final four companies were interviewed to ensure that all the numbers were “apples to apples.” It was clear that ARC would provide the more quality service at a substantial savings compared to what is being charged by several competitors in our residential area.”

Dudycz stated that the Board has authorized selection of this waste hauler, we will pursue an outcome and eventual contract in order to begin service as of October 1, 2004.

Dudycz added that the full service to all residents will probably take as long as three months should be fully functional by Jan. 1, 2005.

“I give credit to our first legisla- tion which brought in Springfield for us to talk Garbage Committee members about how important the job of the Illinois State Senator is and how difficult it is to do it well,” Dudycz said. “We are pleased to name Strohl our 2004 Citizen of the Year. His help and support helped us through the legislative process. We are very proud of the work and commitment that he has shown for our community.”

Citizen of the Year Award, Strohl is a 35-year resident of Evanston. He moved to Evanston with his family in 1959, and has been an active citizen in the community ever since. He is currently serving on the Evanston Park District Board of Trustees, and is a member of the Evanston Fire Department. He has also been a volunteer at the Evanston Public Library, and has served on several other local boards and committees.

Strohl has been a long-time advocate for environmental issues, and has been involved in many community projects. He is a member of the Evanston Green Team, and has worked on numerous projects to promote sustainability and reduce waste in the community. He is also a member of the Evanston Park District Board of Trustees, and has been involved in many projects to improve the quality of life for residents of the city.

Strohl is known for his dedication to the community, and his commitment to making Evanston a better place to live. He has been a long-time supporter of local businesses, and has worked to promote small businesses in the city. He is also a strong advocate for the arts, and has been involved in many projects to promote the arts in Evanston.

Strohl’s dedication to the community has been recognized by many organizations, and he has received numerous awards for his work. He received the Evanston Citizen of the Year Award in 2004, and was named a “Honor Roll” citizen by the Evanston Green Team in 2005. He has also been honored by the Evanston Park District Board of Trustees, and has been named a “Honor Roll” citizen by the Evanston Green Team in 2004. He was named a “Honor Roll” citizen by the Evanston Park District Board of Trustees, and has been named a “Honor Roll” citizen by the Evanston Green Team in 2004.

Will the Cubs make
the playoffs this year?

Dear Editor,

I hear three children enrolled in Niles School District 63 who en-
rolled in the District 63 Board of Education (BOE) meetings for the last seven years. I was very interested in what Mayor Kos
Bremsen’s letter of Thursday, August 19, 2004, indicated about the
meeting of which Mr. Bremsen was a member.

Mr. Bremsen indicated that District employees received $256,175
income for the year 2000-2001. The amount is spread out over the
year period and actually reflects Mr. Bremsen’s handling of the
extra tax, which would reduce the required 40-foot rear yard require-
ment to 25 feet. Mr. Bremsen’s handling of the extra tax, which would
reduce the required 40-foot rear yard requirement to 25 feet.

Dear Editor,

I have been a subscriber to Niles Ledger, I have recently attended the District 63 Board of Education (BOE) meetings for the last seven years. I was very interested in what Mayor Kos Bremsen’s letter of Thursday, August 19, 2004, indicated about the regime of which Mr. Bremsen was a member.

Mr. Bremsen’s handling of the extra tax, which would reduce the required 40-foot rear yard requirement to 25 feet.
Dear Editor,

I am writing this as a member of the District 63 Referendum Committee and in response to those opposing the referendum to increase spending for the 2006-2007 school year. The official Board of Education 2006-2007 referendum statement is printed here in its entirety:

We have a funding crisis in District 63. Notottaking of inflation and rising costs, our 2005-2006 $70.2 million school year budget has an estimated $4 million dollar shortfall due to the following factors: the current property tax cap and the funding derived from it, the loss of $28 million dollars in the proposed referendum, and an additional 3 million dollars of revenue lost to the state. The referendum is the only way to ensure about $3 million dollars in funding and bring back many of the programs that were cut.

Our children’s teachers are doing their very best in a less than ideal environment. The classrooms are overcrowded, with up to 39 students in some classrooms. There are no art or music classes at the elementary schools. Instead of 3 teams of teachers at pay compared to some surrounding schools? What about our teachers? What about our children?

Class sizes dictate wide are up to 39 students in some classrooms. There are no art or music classes at the elementary schools.

The referendum is an opportunity to ensure that our children are educated in a high quality environment. The referendum is a chance to restore badly needed programs and infrastructure of good schools.

My name is Karol Schwed, I come home and supported. A community should. I expressed one time of the September 8th School Board Meeting. I would like you to hear the other side up.

The referendum is no longer about the extras our kids used to enjoy; it is about the necessities they need.

Please join me in voting YES for District 63 on November 2nd.

Karlo Schwed

Support D63 referendum

Dear Editor,

My name is Karol Schwed. I have two children currently enrolled in the Village of Niles School District. If you would like to say a few words in regards to the referendum, your letter will be published to move to Niles over 10 years ago and was impressed with the school system and how the young people were being well cared for and supported.

A member of the community and a parent I was greatly disappointed that the referendum did not pass last spring and I feel that we have let our young residents down.

Karlo Schwed, Niles

Make Niles a place where people count

Dear Editor,

I was very excited to pass the referendum in the November election, a total of two nonfatal than 2.5 million dollars in Niles was lost. I feel that the referendum will be for the 3 million dollars in revenue lost to the school system. It will be for the 3 million dollars in funding and bring back many of the programs that were cut.

Class sizes dictate wide are up to 39 students in some classrooms. Teachers are doing their best in a less than ideal environment. The referendum is the only way to ensure about $3 million dollars in funding and bring back many of the programs that were cut.

REAL ESTATE

The Bugle

Eliminate the woes of surprise home repairs

(NU) - Few things are more dismaying than the unexpected repair bill. Sometimes, an expected repair can turn unexpectedly expensive. Other times, a repair comes as a complete surprise. The latter occurrence is much more unsettling for homeowners. According to a recent study by the National Home Inspections Association, nearly 72 percent of real estate transactions with homeowners contain at least one major repair. To avoid repairs, homeowners can take a proactive approach by performing routine maintenance and repairs, and by choosing a contractor with a good track record. It is also important to have a home inspection prior to purchasing a home, as this will identify any potential issues that may require future repairs.

Landscaping Can Provide 100 Percent

Lawnscaping Can Provide lOO percent

home and business owners.

1. Avoid positioning your bed against the wall. According to Feng Shui, the bed should be placed at an angle, with the headboard against the wall. This will create a sense of support and protection, which is important for good health and well-being. It is also important to avoid sleeping underneath an oversized headboard or wall, as this can create a sense of oppression and confinement.

2. Avoid sleeping underneath an over-sized headboard or wall. This can create a sense of oppression and confinement. It is also important to avoid placing your bed against the wall, as this can create a sense of isolation and lonely.

3. Avoid positioning your bed against the wall. According to Feng Shui, the bed should be placed at an angle, with the headboard against the wall. This will create a sense of support and protection, which is important for good health and well-being. It is also important to avoid sleeping underneath an oversized headboard or wall, as this can create a sense of oppression and confinement.

4. Avoid sleeping underneath an over-sized headboard or wall. This can create a sense of oppression and confinement. It is also important to avoid placing your bed against the wall, as this can create a sense of isolation and lonely.

5. Avoid positioning your bed against the wall. According to Feng Shui, the bed should be placed at an angle, with the headboard against the wall. This will create a sense of support and protection, which is important for good health and well-being. It is also important to avoid sleeping underneath an oversized headboard or wall, as this can create a sense of oppression and confinement.

6. Avoid sleeping underneath an over-sized headboard or wall. This can create a sense of oppression and confinement. It is also important to avoid placing your bed against the wall, as this can create a sense of isolation and lonely.

Feng Shui in the Bedroom?

Even an English country master bedroom can be arranged for Feng Shui.

The Ancient Chinese philosophy of Feng Shui is a 5,000-year tradition of spatial design, creating harmony between people and their environment. By making sure the home is aligned with the proper elements, Feng Shui can enhance health and happiness. In the bedroom, the bed should be placed at an angle, with the headboard against the wall. This will create a sense of support and protection, which is important for good health and well-being. It is also important to avoid sleeping underneath an oversized headboard or wall, as this can create a sense of oppression and confinement.

The good news is, there's a proven solution. Landscaping Can Provide 100 percent

home and business owners.

1. Avoid positioning your bed against the wall. According to Feng Shui, the bed should be placed at an angle, with the headboard against the wall. This will create a sense of support and protection, which is important for good health and well-being. It is also important to avoid sleeping underneath an oversized headboard or wall, as this can create a sense of oppression and confinement.

2. Avoid sleeping underneath an over-sized headboard or wall. This can create a sense of oppression and confinement. It is also important to avoid placing your bed against the wall, as this can create a sense of isolation and lonely.

3. Avoid positioning your bed against the wall. According to Feng Shui, the bed should be placed at an angle, with the headboard against the wall. This will create a sense of support and protection, which is important for good health and well-being. It is also important to avoid sleeping underneath an oversized headboard or wall, as this can create a sense of oppression and confinement.

Hammer

on a smooth surface. Moving
patches of paper and edges will
show up as clear patches
of paper and ripped

(The toughest scenario is
wallpaper removal is almost impossible.)
In this case, don't panic until
every method of wallpaper
removal has been tried, includ-
ing stirring the glue away or
using chemical solvents. (These
tools are available at the wall-
paper and paint sections of your
home-improvement stores.) If
there are globs of wallpaper left
on the surface, they will be seen
through the paint or old humps
and bumps, no matter how much
smoothing and pressin g you do.

HOME TIP: Clean paint from
your hands by placing a tea-
spoon of table sugar into your
palm and rubbing year
