Electoral Board tosses out OTB referendum
Signatures over 100 short of required number

BY ANDREW SCHNEIDER
editor@buglenewspapers.com

Voters won't see a question on the ballot this April asking them if they approve or disapprove of a proposed off-track betting facility (OTB) in Morton Grove because, the Electoral Board concluded Monday afternoon, the signatures were over 100 short of the required eight percent of the last gubernatorial vote totals. The members of the Electoral Board were Trustee Jim Karp, Clerk Marilyn Sneider and Mayor Dan Scanlon. They held their

Niles Board to hear Bunker Hill zoning Feb. 22

After an informal meeting that was scheduled to be held with residents of the Bunker Hill subdivision, Niles Community Development Director Chuck Ostman will complete work on a proposed zoning overlay. It could be presented to the village board as early as Tuesday, Feb. 22. The proposed zoning overlay has been in the works since late last year when a resident of Bunker Hill wanting to expand his home came under opposition from some of his neighbors and was unable to gain village approval of the addition since his home wasn't in compliance with existing zoning laws. The problem, Ostman concluded, wasn't that this individual's plan was bad, but that about 70 percent of homes in the subdivision were not in compliance with zoning laws. The proposed overlay would create a subset of Niles zoning code just for Bunker Hill.

If the informal meeting with residents goes as expected, then the overlay would be heard by the Niles Zoning Board on Monday, Feb. 7. If the Plan Commission votes in favor of the recommendation, it will go to the Village Board on Feb. 22.

Rev. Robert McLaughlin
1940-2005

Mary, Seat of Wisdom pastor was an out-spoken leader in the Chicago Archdiocese. Rev. Robert McLaughlin, 64, former pastor of Holy Name Cathedral in Chicago passed away Monday Jan. 24, in Naples, Fl., of a heart attack.

McLaughlin was beloved by Chicago Catholics. The red-head often dressed as a leprechaun in the St. Patrick's Day Parade of the downtown. He was the former pastor of Holy Name Cathedral for 12 years and was a native of the city's west side and was currently the pastor of Park Ridge's Mary, Seat of Wisdom Parish. Beyond his popularity with parishioners, McLaughlin was an outspoken leader in the Chicago archdiocese, even criticizing Cardinal George for his management style, his command to refuse communion to homosexual and his preference for individual confessions over general absolution, a tradition in the Roman Catholic Church which allows members of a congregation to receive penance through their communal mass.

McLaughlin attended St. Francis of Rome Catholic School in Cicero, Quigley Seminary North and St. Mary of the Lake Seminary in Mundelein. He was ordained in 1966. He received a master's degree in speech and communications from Northwestern University in 1971 and another master's from Loyola University in 1987 for organizational development.

Cardinal George said that a "great void" would be left in the archdiocese with McLaughlin's death. Funeral services were held Saturday at Mary, Seat of Wisdom where friends and parishioners thronged to pay their last respects. McLaughlin is survived by his brothers, Ed and Jack as well as 14 nieces and nephews.

Drying Out
The apron at the Maine South High School stage underwent a drying process last weekend after a fire that caused about $100,000 in damage. For the story, turn to page 3.
'Hallowiener' restaurant goes back to Plan Commission

The special use permit for "Hallowiener," a Halloween-themed restaurant, was referred back to the Niles Plan Commission by the village board at their last meeting, Tuesday, Jan. 25 because of what Community Development Director Chuck Ostman called, "appearance issues." The restaurant came up opposite from Park Ridge residents who live across the street and down the block from the proposed restaurant, currently the site of an Express Care oil change business. An Express Care oil change business currently exists on the site at corner of Prospect and Oakton in Niles. The restaurant, a Hatoween-themed restaurant, Hallowiener is currently under consideration for the parcel.

Staff
 insults...were written to the village concerned that the business was ill suited to the panel, which is about a block from District 64's Emerson Middle School. But petitioners for the restaurant made a variety of concessions including decreased parking and seating and a reduction of the drive-thru entrance, farther from the intersection.

The vote for referral was unanimous with the exception of Trustee Bob Caliero who abstained because his main concern was a fresh facade. "It was a fluke," he said, "These curtains are supposed to be strengthened."

The fire didn't injure anyone, but it came at the most inconvenient time. Only three weeks before the opening, workers were called up from a lis to set the stage. The driver was reportedly uninjured.

"We're going to have to cut short a set that we can build here, and then move in two of the other schools," Snatcher said. The fire caused about $10,000 in damage to the curtains and the stage floor itself. Workers were going to use equipment to dry out the hardwood apron last week, but were also cleaning the space of smoke and soot. All of the crews are being covered by the Maine Township High School District 207's insurance policy.

If the hardwood apron cannot be dried, it may have to be replaced and there's still water from firefighters efforts last week under the stage floor itself. Over the weekend, workers determined that the floor was going to have to be pulled up entirely. Which would put aside over $100,000 in damage to the curtains and the stage floor itself. Workers were using equipment to dry out the hardwood apron last week, and were also cleaning the space of smoke and soot. All of the crews are being covered by the Maine Township High School District 207's insurance policy.

Because Maine West's Musical ends the weekend before, Maine South will have to set up and other their own production in just one week. The performance begins at 7pm rather than 7:30pm to allow anyone who is confirmed about the location, more time.

A 84-year-old Morton Grove woman called police to report that she had been the victim of a phone scam. The woman said she had received a call from an individual claiming to be from the Morton Grove police department and told her she had overpaid for a service and needed to send a $300 check to correct the error. Additionally, the woman was told to try to get the organization to pay her money back.

Niles residents thank Park District

Dear Editor,

I want to share this beautiful letter from Mr. & Mrs. Garby regarding the flag pole at Morton Grove Community. They reflect on the beauty of the flag and the feelings it makes them have when they see it at home. They believe it is a symbol of freedom and a source of pride for all who see it. Thank you for your sentiments.

Yours truly,
[Signature]

What should you know before buying annuities

A merican seniors have a love for the S&P 500. A recent study found that at least 25% of guaranteed minimum return in the stock market is the most common reason why seniors own annuities. It is seen as a way to provide guaranteed income in retirement. But what does it mean? What are the pros and cons of each type of annuity? Let's break it down here. The three main types of annuities are traditional, fixed-rate, and indexed annuities. Each offers different benefits and drawbacks. Let's dive into the details.

The Basics of Annuities

- **Guaranteed Income for Life:** Most annuities offer a guaranteed income for life. This means that as long as you live, you will receive a set amount of money each month. This is especially important for retirees who want to ensure they have a steady income stream.
- **Guaranteed Minimum Return:** If you invest in a fixed-rate annuity, you are guaranteed a minimum return on your investment. This means that even if the stock market performs poorly, you will still receive a steady income stream.
- **Death Benefit:** Many annuities offer a death benefit. This means that if you pass away before receiving all of your annuity payments, your beneficiaries will receive the remaining payments.
- **Risks:** There are risks associated with annuities. One of the biggest risks is that if you outlive your annuity payments, you may run out of money before you die.

Choosing the Right Annuity

When choosing an annuity, there are several factors to consider. These include:

- **Your Life Expectancy:** If you expect to live a long life, you may want to choose an annuity with a high guaranteed minimum return.
- **Your Investment Goals:** If you are looking for a way to diversify your retirement investments, an annuity may be a good option. Annuities can provide a steady income stream, which can be a good way to offset the risk of stock market losses.
- **Your Risk Tolerance:** If you are comfortable with a higher level of risk, you may want to consider an indexed annuity. Indexed annuities can provide a higher return than fixed-rate annuities, but they also come with more risk.

Before You Buy

Before you buy an annuity, you should do your research and talk to your financial advisor. Here are some important things to consider:

- **Cost:** Annuities can be expensive. Be sure to shop around and compare annuities from different companies.
- **Minimum Investment:** Many annuities have a minimum investment requirement. Be sure to check this before you buy.
- **Tax Implications:** Annuities can have tax implications. Be sure to talk to a tax professional before you buy.

Annuities can be a valuable addition to your retirement portfolio, but they are not for everyone. Be sure to do your research and talk to your financial advisor before you buy an annuity.

Niles senior dies in collision

A 61-year-old Niles senior died in a final collision on Oakton last Wednesday, Dec. 20, while apparently attempting to turn left into the left lane.

Florence Nowakowski was reportedly driving south of her home in the 6800 block of W. Oakton Ct., driving toward Oakton when she was struck by an oncoming car on a one-way street. She attempted to turn left into the left lane of Oakton around noon when she was struck by an oncoming car. She was taken to a hospital in Oakton, where she died from her injuries.

About 50 residents showed up to the Morton Grove Town Hall meeting that night to express their displeasure with the Morton Grove Police Department.

"I'm not sure if I want to live in a town that needs OMB," said Resident Joe Quinn to the board. "Your boards are in the right place. We have to get out and see these things.

Resident Bill Lobo called a number of other residents to voice their displeasure with the OMB's decision.

"I'm not sure if I want to live in a town that needs OMB," said Resident Joe Quinn to the board. "Your boards are in the right place. We have to get out and see these things.

Resident Bill Lobo called a number of other residents to voice their displeasure with the OMB's decision.

The Hawks took the Titans out of their game in the first quarter, forcing them to shoot from the outside. With 2:55 left in the game, Mike Nabolotny scored a free throw to put the Hawks ahead 20-16. The Titans could not hold the lead for more than 20 minutes, and the Hawks went on to win 68-35.

The lead early on was not enough for the Hawks to win the game. They were dominated by the Titans, who scored 20 points in the first half of the game. However, the Hawks fought back in the second half, scoring 42 points to take the lead 68-35.

Aging Lifestyle
- Birthdays? He’ll take as many as he can
- Maybe I will make it to 108. That’s one of my goals. I’ve been told I’m going to be working with a younger generation in the future. I never thought I’d make it that far. That’s one of the things I’ve been able to do, but not to control the uncontrollable.
- The question I ask, these days, is not where has my life gone but what the future brings?
- I can expect another 20 to 25 years of life, if my parents are any example. My father died at the age of 95, and my mother is still alive at 94. And many two lives end with their health.
- during most of those years, I will be in the 59 Street Library learning how to live the rest of my life.
- But I anticipate doing better than that. After all, my father retired at 60 and spent the next 30 years, about half his life. I was retired at almost 70. Those two lives are not.
EVEN THOUGH IT'S WINTER, A FEW ATRESIA still have a lot of fun with their winter salads. As more and more restaurants and cafes add fresh ingredients to their menus, we're seeing a trend toward healthier eating options. This trend is especially noticeable in the downtown dining scene, where chefs are experimenting with new flavor combinations and techniques. One of the most popular trends is the use of local, seasonal ingredients. As the weather cools, many restaurants are incorporating winter vegetables, such as kohlrabi and beets, into their salads. These vegetables are not only nutritious, but also very beautiful, adding color and texture to any dish. Another trend is the use of herbs and spices to add depth and complexity to salads. Popular herbs include rosemary, thyme, and sage, while spices such as cumin and fennel are being used more frequently. Finally, the use of dressings is becoming more sophisticated. Chefs are experimenting with different oil and vinegar combinations, as well as adding fresh herbs and spices to their dressings. This allows them to create unique flavor profiles that complement the ingredients in the salad. Overall, these trends are making winter salads more exciting and interesting for diners. As the weather gets colder, it's a great time to try some of these new salad trends.

Most people have heard of a kind of tree that grows on many sap-covered surfaces. The sap from dogs urinating on that spot, but that rubs off. At first I thought it appearts like a black powder until it c
Escaping the Stresses of Life with a Backyard Waterfall

After a busy day, the peaceful sound of flowing water can relax you to your own private getaway, away from daily stresses and neighborhood noise. Creating this oasis by adding a waterfall to your outdoor space is easy with the new Backyard Waterfall Kit. This simple, do-it-yourself kit provides all of the water gardening components you need to create a 18-inch-wide waterfall; pong, waterfall stone, filter stone, corrugated tubing, mesh bag and PVC hose. With the kit, you can add the waterfall to an existing inground or above-ground pond. It can be enjoyed by the entire family and is sure to be the center of attention at your next outdoor party. If you don’t have a pond, you can easily build a new above-ground pond and waterfall within a weekend.

Or, if you have a patio, create the concrete space of your own private oasis “room” by adding a rectangular patio pond with a waterfall. You can make the patio pond as deep or shallow as you want and there is no digging required.
