Two different elevators are options for Niles Police Station

Final recommendation for elevator is set for April board meeting

BY ANDREW SCHNEIDER
editor@buglenewspapers.com

Officials for the village of Niles are considering either a traditional hydraulic and a newer electric elevator for the exterior of the new Niles Police Station at Touhy and Milwaukee.

The Police Station’s accessible ramp, which was completed with the building in mid-late 2004, came under scrutiny after a special report from The Bugle raised questions that it may have been constructed improperly. Those concerns were subsequently confirmed by an independent architectural firm.

Legal violations in the ramp were repaired earlier this year, but

Niles Mayor Nick Blase said last year that he believed an elevator was necessary in order to ensure that the building was both in compliance and accessible to those with disabilities.

According to Chuck Ostrman, director of Community Development for the village of Niles, Wight and Company, an architectural firm, has completed its first report on a possible hydraulic elevator. He has concerns, however, that the proposed exterior elevator might be subject to maintenance problems and has asked Wight to examine the possibility of using an electric elevator in this instance.

Papal Legacy

The entrance to St. John Brebeuf Church in Niles is shrouded in black Monday after the death of Pope John Paul II. One of the priests at the parish reminisces about the Pope on pages 16 and 17.

The more we put vitamin E under the microscope, the more we’re left scratching our heads, burdened by findings that are more contradictory than consistent. “Vitamin E is a very attractive, nose-bleeding antioxidant,” he said. “It’s important not to turn the big picture – what has been documented into clinical trials for years. Studies show benefits from heart health to cancer prevention. It may play a role in preventing heart disease.”

Dietary supplements of vitamin E have been a staple in cardiovascular research for decades, but the picture remains unclear. “The data are mixed,” said North Carolina State University professor and cardiologist Alice li Kosten. “It’s important not to miss the big picture.”

A number of studies have shown that vitamin E supplementation can reduce the risk of heart disease, but not all studies agree. In a recent study published in the Journal of the American College of Cardiology, researchers found no mortality benefit in vitamin E supplementation among patients with coronary artery disease. However, the study was criticized for its small sample size.

Other studies have shown that vitamin E supplementation may reduce the risk of heart attack and stroke. In a meta-analysis of 19 international clinical trials involving nearly 800,000 participants, researchers found that vitamin E supplementation reduced the risk of heart attack by 15% and the risk of stroke by 18%.

However, critics of the findings pointed out that the data was pooled from different studies with different popula- tions, and that the results may not be generalizable to all populations. They also noted that the studies were funded by industry, which may have influenced the results.

In general, the evidence for the benefits of vitamin E supplementation in reducing the risk of heart disease is mixed. While some studies have shown a benefit, others have not. The American Heart Association advises that people who are at risk for heart disease should consider taking a daily vitamin E supplement of 400 IU, but not more than 800 IU per day.

In conclusion, vitamin E has been studied extensively in cardiovascular research, but the evidence for its benefits remains inconclusive. More research is needed to determine the role of vitamin E in preventing heart disease.
**Park Ridge approves ‘fair housing’ ordinance**

**BY JEFF BORGARDT**

A new Park Ridge housing board aims to enforce consistent rights of homeowners and property owners moving forward.

The newly proposed “fair housing” ordinance, which replaces one that has been in place for nearly 40 years, would provide a clearer pathway for complaints to be filed. The ordinance, which was approved by the Park Ridge Village Board at its June 18 meeting, would also give the housing board the power to investigate complaints and issue fines of up to $10,000. The previous ordinance had a complaint process that was not as clear.

**University of Illinois-Chicago**

A new University of Illinois-Chicago (UIC) campus is being planned in the area. The campus will be located on the site of the old Western Electric Building in the center of the city. The campus is expected to open in 2024 and will offer undergraduate and graduate programs in business, engineering, and education.

**Mayor Michael E. Garcia**

The mayor has announced that the new campus will be built on the site of the former Western Electric building. The building will be renovated and turned into a state-of-the-art facility.

**Park Ridge Housing Board**

The new Park Ridge housing board was established in 2019 to provide greater oversight of the housing market. The board has the power to investigate complaints, issue fines, and issue orders to correct violations.

**Residents**

Residents are encouraged to file complaints if they believe there is discrimination in the housing market. The board is available to answer questions and provide guidance.

**Contact Information**

If you have any questions, please contact the Park Ridge Housing Board at 847-352-2200 or visit the website at https://www.parkridgehousingboard.com/
Letters to the Editor

Barbara Karawacki, Course Publisher

It cried out—"There has to be some benefits for veterans. You know state had the least services and convenient."

Dear Editor,

I stopped by to refill my coffee and I asked Robert to bring it up at our next Board meeting.

Robert shook his head in agreement. He said, "I talked with the VA and they said it's important to provide an advocacy service to our Veterans. We met with the VA representatives and discussed the issue with them."

"This is an issue that affects many people," said Robert. "We need to work together to find a solution."

The VA representative said, "We understand the issue and we are working towards finding a solution."

"I'm glad to hear that," said Robert. "I will continue to work on this issue and bring it up at our next Board meeting."
**Village of Morton Grove**

**Caucus of Morton Party sweeps village board**

The Morton Grove Caucus Party ended their two decades of Action Party dominance following last week’s election. Caucus Party members were thrilled as they watched the returns come in on Tuesday night. Caucus Party candidate for mayor, Rick Krier, and four other Caucus Party members were elected to the Village Board.

Rick Krier said that he was thrilled at the opportunity to serve the voters.

"I'm glad that we won for the people's endorsement," said Krier. "The voters clearly want change and we don't represent change for change sake. We represent change for the betterment of the village.

"Krier, currently a member of the village board of trustees, will take office in May. He will be joined by Carol Fritzshall, Village Clerk; Roy Kogstad, Village Trustee, and Steven Blonz, Village Trustee.

The Caucus Party can understand it easier." said Blonz.

"I'm want to get to work right away," she said.

When the new board takes office, there will only be two actions party trustees. Caucus Party members, Dan DiMaria and Dan Staackmann, who ran for mayor as the Action candidates, lost by a mere 12 votes during the 2003 election, said that they were ready to keep our name and worked hard.

"I think that the message was heard loud and clear," said DiMaria. "My opponent, Sol Blase, did a great job and I think we'd be back," she said.

"The voters clearly want change...I think they believe in great services and low taxes." said Biedemian, who lost to Kim LoVerde, was just as gracious, however, that someone had to lose.

"I stand ready to serve the village and helping the village to continue serving the public at any capacity.

"I'm happy to carry on as an elected official." said Blase.

"I've lost myself and I know how it feels. I'm just sorry that someone had to lose."

LeVende himself said that he was happy but so many voters had supported him and that he was willing to continue serving the public at any capacity.

"It's been an unbelievable victory...I think that the message was heard loud and clear," said DiMaria. "My opponent, Sol Blase, did a great job and I think we'd be back," she said.

**Blase slate secures another victory**

The slate of trustees backed by Joe LoVerde, Kim Biederman, Larry Gomberg and Andrew Przybylo won the village board election Tuesday night, defeating three challenging candidates.

"We were because we pulled together as a team," Blase said, during the victory celebration at the White Eagle Restaurant in Niles.

"We ran as a team and it was a team effort," Blase, who ran unopposed, said. "It's the fourth time in a row for Kim LoVerde.

"We prevailed because of hard work," said Blase.

"The voters clearly want change."

"I'm happy to carry on as an elected official." said Blase.

City of Park Ridge

Frimark wins mayoral contest

Howard Frimark, an independent business owner in Park Ridge, won election to the post of mayor on Tuesday night, defeating opponents Michael Tinaglia and John Radermacher. "I’m really proud of our community today. I’m proud of our hard work. We ran a very low-key campaign." he said. "I’m very appreciative of the people who supported me. I’m a lucky man. I’m glad my opponent Michael Tinaglia. he wished the people of Park Ridge. he wished Howard Frimark. The people. The people." Markech added. "It feels good to represent the people," Markech said after his victory, "in economic paths crossed with all the people. It’s beyond words. The people.”

Dons bring out big bats against Vikings

BY ANDREW SCHNEIDER
andrew@buglenewspapers.com

The defending state champions from Niles Donor bats got a good start in their first week of the 2005 season, dropping two teams, Glenbrook North and St. Rita, the Donor hans in for a 5-3 start on the young season.

The Dons stretched their lead to 14 in the bottom of the seventh inning, behind a Matt Hart double and a single by right-hander John Kutlesky.

The Dons took both games of their double-header 8-1, 14-3 against the Vikings.

Righthander Brian Kudlik was the hitting star, going 3-for-4 in the fourth inning, lifting the score to 6-0.

The Vikings 9-6. Righthander Brian Kudlik was the first three innings, defeating the Vikings in five innings, giving up three runs, two walks, and three errors.

The Donor hans back against Niles North Thursday evening for a 5-2 Start.

Note Donor's Matt Hart (16) as the hitting star, going 3-for-4 in the fourth inning, lifting the score to 6-0.

The Donor hans back against Niles North Thursday evening for a 5-2 Start.

two batters. While walking four against a high level of competition.

Chef Harry

Unless the bone on your grill are very close together, use a grill screen for better heating. It will make it easier to turn and handle. Serve with grilled vegetables, which cooks in about the amount of time.

**GRILLED HADDOCK**

4 (8-ounce) haddock fillets of similar thickness
2 tablespoons olive oil
4 cloves garlic, thinly sliced and chopped
1 teaspoon dried dill flower
Sprigs of fresh rosemary, soaked in water, to place on coals
Yield: 6 servings.

Rinse fish fillets and drain on paper towel. Mix together olive oil, garlic, soy sauce and dill herb and spread on fish. Place rosemary sprigs on charcoal. Grill fish, fillets on, 5 and turn carefully. Grilled remaining marinade over top of fish as it finishes cooking, about 20 minutes. Serve with lemon and chips and in the sun, this is a heavenly way to eat haddock.

**BAKED LEMON-PEPPER HADDOCK**

4 (8-ounce) haddock fillets of similar thickness
1 cup lightly white wine
1 tablespoon minced pepper
Juice from 3 lemons
1 egg seasoned bread crumbs
1/2 cup panko bread crumbs, grated
1 tablespoon melted butter
Yields 4 servings.

Rinse fillets and drain on paper towel. Place in a shallow bowl, add pepper and lemon juice and poach over low heat. Mix bread crumbs and cheese together and sprinkle over fillets. Dot with butter and bake until fish flakes easily, about 20 minutes. Serve with lemonade and chips.

**BAKED LEMON-PEPPER HADDOCK**

4 (8-ounce) haddock fillets of similar thickness
1/2 to 2 cups seasoned bread crumbs
1 1/2 to 2 cups grated egg and chili
Sprinkled over.
Yields 4 servings.

**BAKED LEMON-PEPPER HADDOCK**

4 (8-ounce) haddock fillets of similar thickness
1/2 to 2 cups seasoned bread crumbs
1 1/2 to 2 cups grated egg and chili
Sprinkled over.
Yields 4 servings.

**BAKED LEMON-PEPPER HADDOCK**

4 (8-ounce) haddock fillets of similar thickness
1/2 to 2 cups seasoned bread crumbs
1 1/2 to 2 cups grated egg and chili
Sprinkled over.
Yields 4 servings.

**BAKED LEMON-PEPPER HADDOCK**

4 (8-ounce) haddock fillets of similar thickness
1/2 to 2 cups seasoned bread crumbs
1 1/2 to 2 cups grated egg and chili
Sprinkled over.
Yields 4 servings.

**HOME HOW-TO**

**Buying a good fan is a breeze**

Things to look for in fan construction are motor and housing material, bearing type, motor size, blade pitch, range of speeds, automatic speed and lighting controls, and sound/vibration isolating features.

**LOOK FOR:**

- Die-cast or cast-iron housings (compared to thin steel, iron dissipates heat better, is more durable and provides longer motor life).
- Large, powerful direct-drive motor that runs cool and quiet.
- Blade made of laminated or solid hardwoods to resist moisture and warping.
- A quality finish that is tarnish- and scratch-free.
- A manufacturer with a network of repair or replacement parts facilities.

**FAN COMPONENTS**

- **Mounting plate**
- **Housing and motor (detail)**
- **All-metal housing and motor**

---

**Getting the highest price from the sale of your home**

*Smart Real Estate* by Bill Allyn

We all live in our home; a manner that is commendable to us. It doesn’t mean every thing is not perfect, as long as we are happy.

When you plan to sell your home, however, you should look at it as an investment that you want to get the highest price for.

What kinds of things can you do to add value to your home in the eyes of a buyer, without a lot of expense on your part? When you hand over the keys to the eventual buyer the home is in the empty, except for appliances and some items the buyer may want.

We all love a lot of stuff just because we have room for it. Start getting rid of any items you will not be taking with you, now. You can have a garage sale, sell a charity (and get a tax deduction), give items to people who can use them, just throw things in the garbage. Depending on your time frame, you can get rid of clutter a little bit every day, every week. Your goal is to eliminate clutter now, instead of having 20 homes of stuff for the garbage man to moving.

What does this accomplish? The less clutter in a home, the larger and nearer the rooms and storage areas feel to a buyer. A larger, master home sells for higher price. Also, moving day is a very busy day. Every box or bag you get rid of now is one less you will have to deal with when moving.

- Take care of maintenance and repairs. Those little repair projects that you forget to do will reduce the price a buyer will pay for your home.
- Smaller, little things like sticking doors, loose railings, etc. will reduce price. By doing some pre sale maintenance, you may also maintain a buyer, and possibly maintained a house for less. Even if a buyer doesn’t like a problem, his home inspector will.
- At Callers & Carts Realty we have developed a “Home Improvement Checklist” that reviews your home and the potential for increased value.

**Niles Sister Cities looking for a few good athletes**

The Niles Sister Cities Association is looking for student age 12 to 15 to represent the village in the 2005 Friendship Games in Luxembourg. The games will be held the first week of July with Niles athletes competing against French and Irish children in soccer, badminton, tennis and track and field. The games are free for the entire family, but entrance fees for extra expenses will be paid. Lodging is in the same city of Niles.

A greener view
Crab grass makes a lousy lawn

Jeff Rugi
Real Estate

Q: Last year my lawn was filled with crab grass. What is the best way to get rid of it?

A: Crab grass is a notorious weed everyone suspects they have in their lawn. Low-carb companies and television commercials use the weed as proof of their product. It is, in reality, mostly probably, don’t have crab grass itself, even if they do have a weed problem of some kind.

One of the first things to do is to know what you are talking in its identity before applying any chemical treatments. It is next to exception to Crab grass is a clump-forming perennial (by throwing chemicals on it, even if they do have some - they will not do a good job in your area, it is still for. For everyone in cold winter areas, it will die with the fear of it. For everyone suspects they have in their lawn. Asociateion al Realtors www.coldwellbankeronline.com/victoriaatanus

S.tgotìstks Shew.. “90% ofhome buyers have crab grass and you see it during which it blooms, produces seeds, and chemical manufacturers want for using of a pre-emergent herbicide. The second is to prevent weeds from growing and the third is to have a healthy lawn of good grass plants. The chemical barrier must remain intact for several months after applying the herbicide. After a pre-emergent has been applied, don’t disturb the soil. Chemical barrier remain intact for one week or two, depending on the sun and shade.

After a pre-emergent has been applied, don’t disturb the soil. The chemical barrier remain intact for one week or two, depending on the sun and shade. Crab grass seeds have a specific period of time as forsythia flowers are fin-

Ohio State University Extension, in the future, our warm weather months, you have crab grass. So many people are on vacation, and for the past three years, there has been a trend in the field of growing crab grass. Crab grass seeds begin sprouting after the soil reaches 55 degrees Fahrenheit for five days in a row. They can continue sprouting for more than two months. Chemicals need to be applied to the soil before seeds sprout. These chemicals do not last for more than a month or two, or one week. Chemicals do not last for more than a month or two, or one week. Chemicals do not last for more than a month or two, or one week. Chemicals do not last for more than a month or two, or one week.
